## Macintosh Performa 475

### *There's never been a better time to buy a new Macintosh Performa!*

Now, Apple and MacWAREHOUSE offer the Performa 475— an affordable color Macintosh with power and versatility that's as easy to learn as it is to use. You get everything you need for a complete color desktop system—the computer, monitor, keyboard, mouse, and fax/modem, as well as pre-loaded operating system software and over $500* worth of application software. Just connect the display, keyboard and mouse to the computer, plug in the power cord, switch it on and you're ready to go!

The Frog
By Michael Pulska, Sixth Grade
A frog's body structure is very similar to the anatomy of humans. Both humans and the frog have the same kinds of organs and systems of organs. The frog's anatomy, however, is much simpler.

***Novice users easily learn basic Macintosh skills with built-in, on-screen tutorials.***

### *Full-featured '040 power!*

The Performa 475 features a Motorola 68040 processor running at 25 MHz, a 14-inch Apple Performa Plus Display, a 160MB internal hard disk drive, and pre-installed System 7 software that has been customized to provide enhanced functionality and ease of use.

Also included in this great package is the TelePort/Bronze fax/modem from Global Village Communication. Now you can send faxes and electronic mail to the office or to friends, or tap into online services such as America Online and CompuServe. The Macintosh Performa 475 computer is multimedia-ready—equipped with built-in digital sound and speaker. Simply plug in an external CD-ROM drive, printer, scanner, and other SCSI devices to expand your system.

### *Call Toll-free to order!*

The Macintosh Performa 475 color desktop system is backed by a one-year limited warranty from Apple Computer, Inc., which includes one year of carry-in, mail-in or at-home service, and an unlimited toll-free technical helpline.

This is the affordable color computer system you've been waiting for. And at only $1,299, you may never see a value like this again!

*Supplies are limited! Call toll-free now to order your Macintosh Performa 475 color desktop system!*

**Double BONUS!**

**Order your Macintosh Performa 475 now, and you'll receive over $500* worth of pre-loaded software PLUS FREE Ground Delivery!**

---

***All this software, plus System 7, is included pre-loaded on your new Macintosh Performa 475!***

- ***ClarisWorks 2.0:*** *Word processing, spreadsheet and database, communications, spelling checker, and graphics — in one easy-to-use package.*

- ***Quicken 4:*** *The world's #1 best-selling personal finance software - easy to use and, since it looks just like your paper checkbook, there's nothing new to learn! Plan your future with Quicken.*

- ***American Heritage Dictionary:*** *This versatile reference tool defines over 160,000 words and includes WordHunter, Anagram features, and the complete Roget's II Electronic Thesaurus.*

- ***Apple Special Edition of America Online:*** *Communicate with other computer users and access the latest news, weather, stock reports, and much more.*

- ***Macintosh PC Exchange:*** *Read MS-DOS, Windows, OS/2 and Apple II ProDOS disks on your Mac, and easily work with PC-compatible files on your desktop.*

- ***ClickArt Performa Collection:*** *Add pizazz to your presentations with this splendid collection of images especially gathered for your Macintosh Performa.*

- ***At Ease:*** *Set up your Mac so individual users have access only to certain applications and documents - preventing unauthorized access, copying and deleting.*

- ***Mario Teaches Typing:*** *Mario and his friends make learning to type a blast! You can record and chart your progress as you move from beginner to expert.*

- ***Spectre Challenger:*** *This best-selling sci-fi challenge has you dodging enemies from space as you soar around the screen in your battle tank. A real winner!*

- ***Best of Homeworks Templates:*** *A unique collection of document templates that provide instant functionality and ease of use for your "works" applications.*

- ***Super Munchers:*** *Match wits with Dr. Frankentroggle in this challenging game of trivia. Includes amazing sound effects and exciting graphics. Fun for all!*

# forma® 475 only $1299!

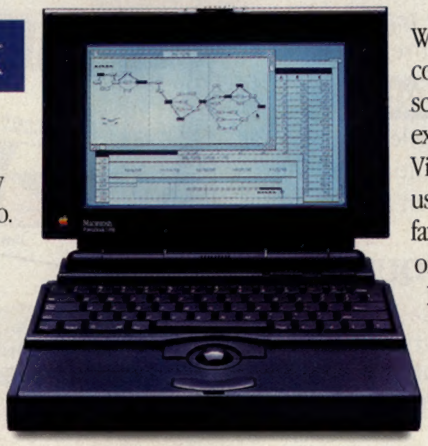
## PowerBook 145B Plus Pack



Apple's PowerBook 145B Plus Pack brings the power, speed and storage capabilities of a desktop system to a portable computer that can be used in any room of your home, your business or wherever you go.

At the heart of this incredible package is the PowerBook 145B, complete with full-page width display, standard-key size keyboard, built-in, two-button trackball, palm rest, both hard disk and floppy disk drives, and pre-installed internal modem. Also included is pre-loaded System 7, DateBook Pro, TouchBase Pro, AppleLink Online and ZTerm communications software, a rechargeable nickel-cadmium battery, and an AC adapter/charger.

The bright, clear 10-inch Supertwist display makes text and images sharp. Thanks to the built-in Apple SuperDrive™ floppy disk drive, the PowerBook 145B can read from and write to Macintosh, Windows and MS-DOS files. The internal 80MB hard disk drive provides the equivalent storage of over 100 full-length novels.

With multiple expansion ports, you'll be able to connect to printers or networks easily or add a scanner, CD-ROM drive, speakers or additional external hard drives. With the built-in Global Village Bronze PowerPort fax/modem, you can use your PowerBook 145B to send and receive faxes or e-mail, and to tap into a variety of online information services.

Bring the power, convenience and versatility of Apple's PowerBook 145B Plus Pack into your home or business. Simply call MacWAREHOUSE toll-free today to take advantage of this opportunity to own an Apple PowerBook 145B!

## MacInTax 1040 HeadStart

With MacInTax, preparing your taxes can be easier, faster, and more accurate than you ever thought possible. MacInTax gives you all the forms and help you need, guarantees the calculations are accurate, and walks you through the entire tax preparation process step-by-step. File your return with confidence! The unique TaxAdvisor system will give you tax advice. And, SmartAudit performs a final review to make sure you have all the necessary forms and your numbers are calculated correctly. It even alerts you to items that might flag an audit and points out deductions you may have missed.

***Get started today!***

Get a jump start on your tax filing with MacInTax 1040 HeadStart. Work out all the calculations now, then when the IRS has finalized all the 1994 forms, we'll send you our final MacInTax 1040 free of charge. Your calculations will automatically transfer and print onto the appropriate forms.

### 7 GREAT REASON TO USE MACINTAX 1040...

- **It's easy to use** — MacInTax's *EasyStep* system walks you through the entire process one step at a time.
- **It's guaranteed to be accurate** — *SmartForm* technology allows you to make calculations in easy-to-use worksheets and see them go directly into the tax form. There's less room for error. Plus, new *SmartAudit* automatically hunts down errors, omissions, and likely IRS audit items.
- **It provides tax advice** — New *TaxAdvisor* provides active tax advice. It points out savings opportunities and finds mistakes you may have overlooked.
- **It includes all tax forms** — MacInTax has over *100 forms*, schedules, and worksheets — every form you need to do your taxes.
- **It imports from Quicken** — MacInTax can import data from your Quicken files — for great time savings.
- **It provides 24 hour support** — No matter what time of day you're preparing your taxes, Intuit will answer your questions, 24 hours a day, 7 days a week from January 16 through April 15.
- **It's the best-selling tax software** — Over 40,000,000 tax returns have been prepared with MacInTax software.

# How to Order

Our customer service staff is ready to take your order on our toll-free lines 24 hours a day, 7 days a week. Please have the product name and item number, credit card number and expiration date, billing address for your credit card, and shipping address ready.
To help us process your order as fast as possible, MacWAREHOUSE uses the latest caller recognition phone technology. If you are already a customer and we have your phone number in our database, our computers will instantly recognize your incoming call by the phone number. We'll locate your account records in less than the time it takes for the phone to ring and be ready to take your order or answer any questions you may have. If you would prefer us not to use this facility for your account, please tell your MacWAREHOUSE operator.

**International Orders: 1-908-370-4779.** When ordering from outside the United States, please use the number listed above.

**Fax Orders: 1-908-905-9279.** Many of our customers find the fax a convenient way to order. You may find the order form at the center of this catalog helpful in preparing your fax order.

**CompuServe.** You can contact MacWAREHOUSE or place orders in the Electronic Mall.

GO Code **GO MW**

**Payment Methods.** We accept the following major credit cards: Visa, MasterCard, Discover, AmEx. Your credit card will not be charged until each item is shipped (no surcharge). If you would rather order by mail using check or money order, a prepaid envelope is enclosed for your convenience.

**Shipping.** We use Airborne Express overnight service, unless UPS Ground offers overnight delivery to your area. Saturday delivery is available in most areas at no extra charge. Please be certain to specify if you wish Saturday delivery. Offer good unless system failure, etc., prevents us from shipping. (Some areas require an extra day.) All US shipments are insured at no extra charge. C.O.D. orders are shipped UPS Ground or UPS Blue Label if you are more than two days delivery from us. C.O.D. charge is $6.00, including shipping. (C.O.D. payments must be cash or certified check.) Alaska, Hawaii, foreign and APO-FPO customers, please inquire for shipping details.

**Overnight Delivery just $3!** Place your order for "in-stock" items up to 12:00 midnight EST (weekdays), and we will ship same day for OVERNIGHT DELIVERY (barring system failure, etc.). The charge for this service is just $3.00 per order, regardless of the number of items. Saturday delivery available to many areas upon request. Inquire for details.

**To inquire about your order call EXPRESS CUSTOMER SERVICE at: 1-800-925-6227.** Knowledgeable representatives will be on hand Monday-Friday 9:00 am-12:00 Midnight (E) and Saturday 12:00 Noon-5:00 pm to assist you with your order, including return merchandise information.

Corporate orders are accepted upon credit approval.

Sales tax: CT, NJ, and Ohio residents add applicable sales tax. Policies, item availability and prices subject to change without notice. The price in effect when we receive your order will be the price that is charged. Not responsible for typographical errors.

30 DAY MBG

**MacWAREHOUSE 30-DAY MONEY BACK GUARANTEE.** Many of our products come with a 30-day Money Back Guarantee. If, for any reason, you are not completely satisfied with your purchase of any of these items, call our Customer Service Department for a Return Authorization Number and a full refund of the original purchase price of the item, excluding shipping and handling charges. Ask our operator at the time of ordering if your purchase is covered by the Money Back Guarantee, or look for the black diamond next to the product reference in this catalog index. You must return the undamaged product at your expense, including all its packaging and documentation and the blank warranty card if applicable.

All items we sell, with the exception of hardware products from Apple Computer, Inc.*, come with the MacWAREHOUSE 120-day Guarantee against defects. If your product is defective in any way, all you have to do is call our Customer Service Department for a Return Authorization Number. Defective software will be replaced upon receipt of the defective product. Defective hardware will be replaced or repaired at our discretion. In order to speed repair or replacement of certain products, we have made special arrangements for our customers to deal directly with the manufacturer. These products will be identified when you call to get your Return Authorization Number. MacWAREHOUSE, of course, stands behind our Guarantee and, if you have any questions regarding our arrangements with the manufacturer, please call our Customer Service Department.

* MacWAREHOUSE guarantees hardware products from Apple Computer, Inc. against defects for 30 days from date of purchase. In order to speed repair or replacement of defective Apple hardware products, we have made special arrangements for our customers to call Apple Computer, Inc. directly at 1-800-SOS-APPL. If you have any questions regarding our arrangements with Apple, please call our Customer Service Department.

## Get a Power User's Tool Kit FREE!

The *Power User's Tool Kit* is packed with powerful programs compiled exclusively for MacWAREHOUSE customers. Some of the programs are shareware, so you can try them free of charge—some authors ask that you pay a small fee ($8-25). Most programs, though, are ***absolutely FREE***. The *Power User's Tool Kit* is ***FREE when you order from MacWAREHOUSE.*** You pay only $2.00 shipping and handling. If you would like the disk, please ***ask for Item # AAA 0107.*** All programs work with System 7, six are designed to add new features only to System 7.

## Get FREE* product info right from your fax!

Thanks to FaxFACTS, our fully-automated, digital data system, you can obtain additional details or information about the latest updates on many of our products instantly, anytime of the day or night.

**Here's how FaxFACTS works:**

1. Call (203) 854-5300 from your fax machine's phone.
2. Follow the computer's voice instructions. You will be asked to enter the product's FaxFACTS code number. FaxFACTS numbers appear throughout the catalog beneath the product descriptions.
3. Please remain on the line until your request is complete. Hanging up will terminate your transmission.
4. To report an error with the FaxFACTS system, call 1-800-648-1922.

FaxFACTS
1-203-854-5300
*You pay only for the phone call.

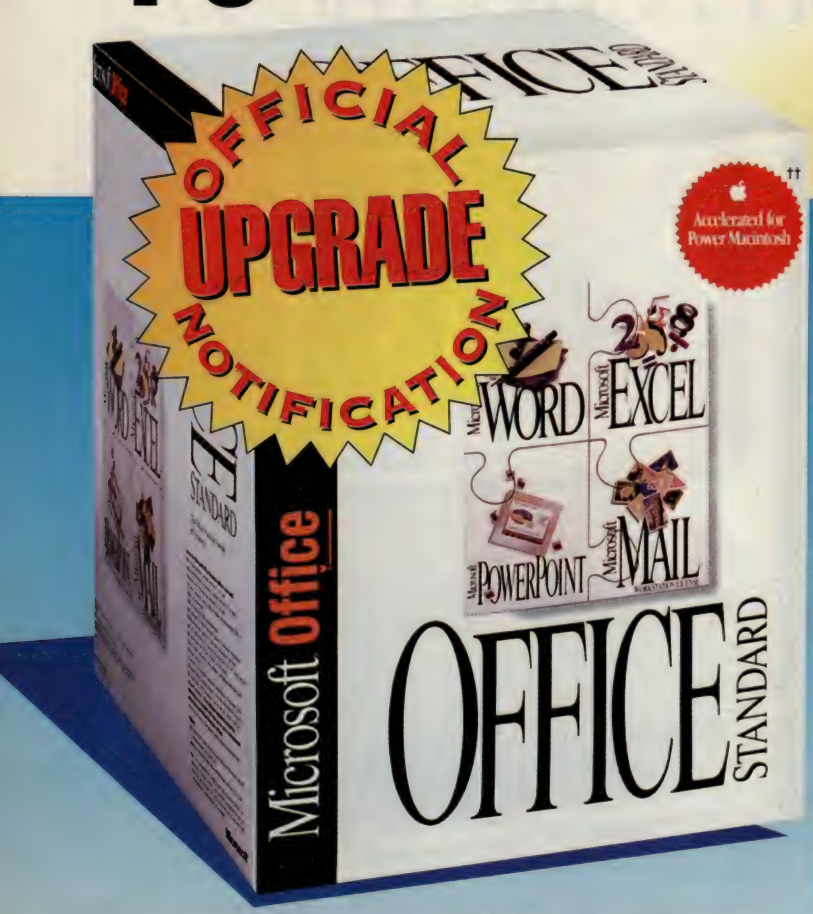
# Upgrade to New Microsoft



## Easier to use! Powerful new features!

*Get three of the most popular Macintosh programs—Microsoft WORD, EXCEL, and POWERPOINT, plus a Microsoft MAIL single workstation client license†—in one complete program with NEW Microsoft Office 4.2! This new version features greater integration and a new consistent look throughout each application for easier use. PLUS, when you buy NEW Microsoft Office 4.2, you'll get F/A-18 Hornet Strike Fighter Simulation absolutely FREE!*

†(No mail software included. Microsoft Mail License allows you to make and use one copy of the workstation disk included with Microsoft Mail Server. You must currently own Microsoft Mail Server or purchase it separately.)

### A new, consistent look for greater productivity.

All of Microsoft Office 4.2's applications have been redesigned with identical menus and dialog boxes. Toolbar buttons look the same, work the same, and appear in the same location on each toolbar, too.

### Now featuring intelligent tools, Wizards, and more!

Like having your own private assistant, Microsoft's exclusive IntelliSense™ technology senses what you want to do and intelligently produces the results you expect! Using Auto Tools, Wizards, and Cue Cards, IntelliSense technology makes routine tasks automatic and complex tasks far simpler!

### "Drag-and-drop" integration between applications.

"Cut-and-paste" is a thing of the past! With Microsoft's new OfficeLinks, you can simply drag and drop information — even charts and tables — between programs. And, with the built-in routing feature, you can share, manage, and edit documents with others in your office — without leaving your document!

### Create custom solutions.

Go beyond the limits of macros with the built-in Visual Basic® for Applications, a powerful development platform for creating custom solutions. It allows you to develop solutions faster and more flexibly than ever before.

### Connect to the Windows environment, too.

Microsoft Office for Macintosh looks and works the same as Microsoft Office for Windows. If you work in a cross-platform environment, now you can easily share files, macros, keystrokes, and custom solutions — with no translation needed.

††(Excel includes both 68K and Power Macintosh versions in box. Word and PowerPoint boxes contain 68K disks and fulfillment coupons for FREE Power Macintosh disks, upon their release.)

**Buy new Microsoft Office 4.2 NOW, and get F/A-18 Hornet Strike Fighter Simulation absolutely FREE!**

### Strap in for the ride of your life!

***Each new mission takes you over the Middle East to fly against the best trained enemy pilots! Supports up to four networked players.***

Requires: SE30 or higher; 3MB of RAM.

* FREE offer good while supplies last. Shipped in promotional packaging.

# OFFICE 4.2 for only $239!*

*Price after $40 rebate direct from Microsoft. See upgrade details below.

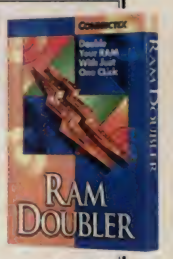
## NEW Microsoft OFFICE 4.2 Features!

- ✔ Three top programs in a single, intelligent, easy-to-use environment.
- ✔ Toolbars, menus, dialog boxes, and screen layouts are consistent in all applications.
- ✔ Features new IntelliSense technology that...
  - Adapts to the way you work and performs repetitive jobs automatically.
  - Lets you complete most common tasks by simply pointing and clicking.
  - Includes AutoTools, Wizards, and Cue Cards.
- ✔ New OfficeLinks makes it easy to move data between programs — just drag and drop.
- ✔ The Present It button turns a Word document into a presentation in a single click.
- ✔ Microsoft Visual Basic for Applications provides a fast, flexible way to develop custom solutions.
- ✔ Installation takes just a few clicks.
- ✔ Supports System 7 Pro and Power Macintosh*.

*Excel includes both 68K and Power Macintosh versions in box. Word and PowerPoint boxes contain 68K disks and fulfillment coupons for FREE Power Macintosh disks upon their release.

*...And much more!*

**Microsoft Office 4.2 now includes† RAM DOUBLER™ by Connectix.**



RAM Doubler is the simple, inexpensive way to double the memory in your RAM. Once the software is installed, your RAM is doubled – without expensive hardware or complicated installation!

† RAM Doubler box not included. RAM Doubler comes as part of the Microsoft Office installation program. Offer expires 3/1/95.

# Apple has 50 new ways

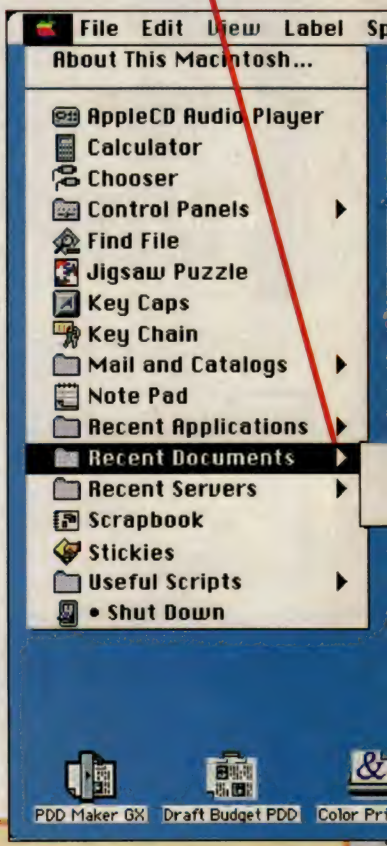
# NEW Macintosh

## System 7.5 includes more than 50 and your Mac even more effective.

### Enhanced Finder

System 7.5 provides a hierarchical Apple Menu that gives you easy access to nested items and instant recall of recently used files, applications, and servers. The improved Find File feature lets you open documents from within the Find File window. With the new Stickies feature for creating on-screen reminders, and the WindowShade feature that lets you collapse windows without closing documents, System 7.5 lets you use your desktop as "Information Central."

*Hierarchical Apple Menu* provides easy access to nested items and recently used items.



### Increased Cross-Platform Capability

System 7.5 features Macintosh PC Exchange, so you can work with DOS-formatted disks as if they were Mac disks. With Macintosh Easy Open, you'll be able to open and edit Mac, DOS, and Windows files, even if you don't have the application used to create them.

### Automation of Complex Tasks

Built-in AppleScript technology lets you automate routine, repetitive systems tasks with scripts. And you can create new scripts easily by recording your actions for future playback. Learn new tasks quickly thanks to the Apple Guide, an electronic assistant that walks you through procedures with screen prompts and "coachmarks" that highlight the step being described.

### Special PowerBook Utilities

System 7.5 features a suite of PowerBook utilities that makes using your PowerBook easier and more effective. Synchronize files, folders, or disks between PowerBooks and other Macs – locally, over a network, or using a floppy disk. The Consolidated Control Strip gives you easy access to AppleTalk on/off, battery monitor, file sharing, hard disk spin down, and power management.

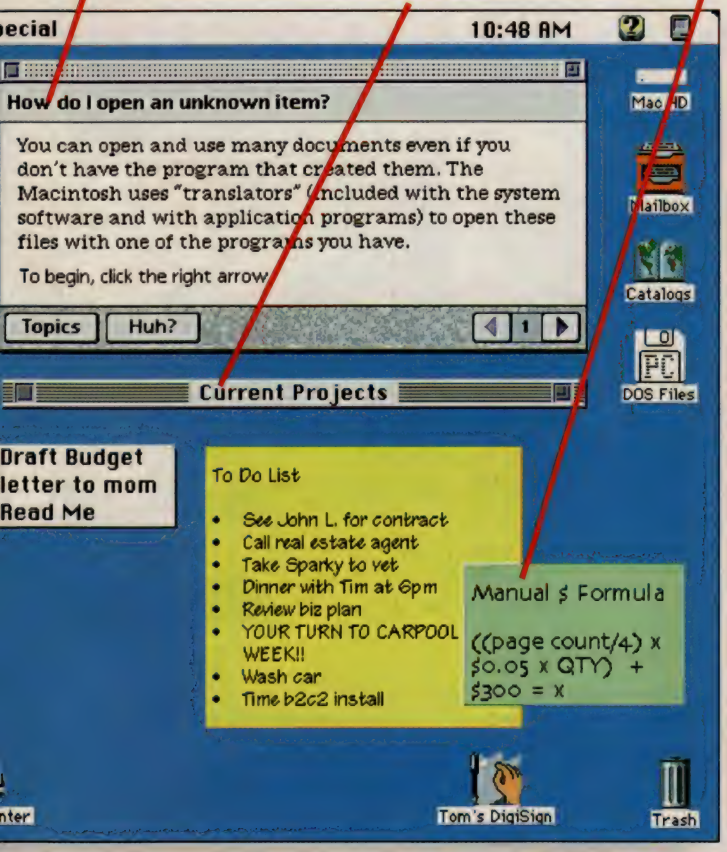
***WindowShade** feature lets you collapse windows without closing documents.*



10:48 AM
How do I open an unknown item?
You can open and use many documents even if you don't have the program that created them. The Macintosh uses "translators" (included with the system software and with application programs) to open these files with one of the programs you have.
To begin, click the right arrow.

# Upgrade to Adobe P

# Now Includes

## Experience a whole new level of creativity. Upgrade to Adobe Photoshop 3.0 today!

Adobe Photoshop is more powerful than ever before with great new features not available from any other image-creating software! Adobe Photoshop 3.0 is accelerated for the Power Mac, so Power Mac users can breeze through all their Photoshop tasks. Plus Adobe Photoshop 3.0 includes TWO FREE CD-ROMs with Acrobat Reader 1.0, tutorials, stock photography and the Adobe Type On Call CD-ROM.

Adobe Photoshop is the world's leading photo design and production tool. With support for multiple layers and lighting effects, plus new color correction tools that make editing and production easier than ever, Adobe Photoshop gives you complete creative control.

Adobe

## 10 New Adobe Photoshop 3.0 Features

### 1. *Layers*

By creating separate layers, users can try out different combinations of effects without altering the original background image.

### 2. *Improved User Interface:*

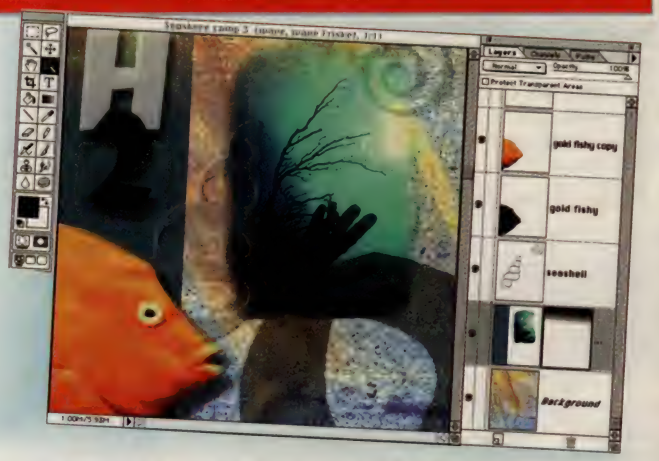
- New Palette Design - Palettes can be combined and arranged in any order.
- Command Palette - Allows you to create your own command keys to use function keys and bring up palettes.
- Proxies in filters - Preview a filter's effect before applying.
- Show Brush Size - Displays an outline of brush size and shape.

### 3. *Better Color Correction Tools*

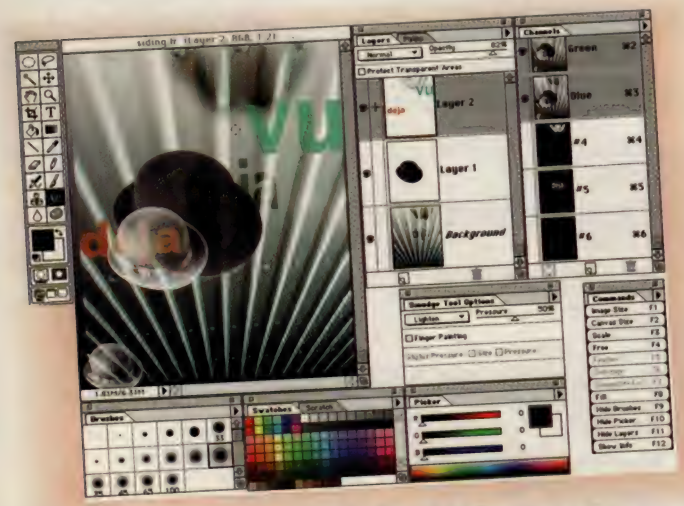
Modify a color by changing the amount of ink used to make a specific color. Use that color to create a mask, adjusting the hue, brightness and color saturation.

### 4. *Color Range*

Lets you build a mask based on selected colors in an image.



*The new Layers Palette gives Adobe Photoshop 3.0 users a great deal of freedom to experiment with image compositions.*



*Adjustable floating palettes can be easily separated or combined to customize users' workspace.*

### 5. *Quick Edit*

Open a selectable portion of an image for editing—great for retouching photos!

### 6. *CMYK Preview*

Save time by previewing CMYK values in an RGB image prior to converting an image to CMYK mode.

### 7. *Gamut Warning*

Highlights all the areas in an image that are out of CMYK gamut.

### 8. *File Info*

Lets you tag an image with important information.

### 9. *Sponge Tool*

Allows you to saturate and desaturate colors in an image.

### 10. *New Filters*

- Lighting Effects lets you apply multiple light sources.
- Dust & Scratches remove dust and scratches from scanned images.
- Filter Factory allows you to create and name your own Photoshop plug-ins!

# hotoshop 3.0

## 2 FREE CDs!

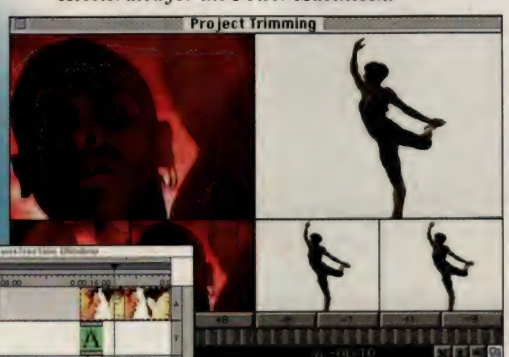
NEW!

## Adobe Premiere 4.0

**The digital movie-making and production tool**

Adobe Premiere, the industry's leading desktop digital movie making and production tool, just got better! The new version adds all the features that video and multimedia professionals have been asking for. The new trimming window feature that allows you to edit the beginning and end of of two adjoined clips while viewing them simultaneously. Or use the new Filter Factory to build your own special effects. Best of all, the new dynamic preview feature lets you view edits before transitions and effects are rendered. With Adobe Premiere you'll experience a whole new level of movie-making. And now Adobe Premiere 4.0 comes with a Deluxe CD-ROM that includes Acrobat Reader 1.0, tutorials, QuickTime movies and much more.

*Accelerated for the Power Macintosh!*



*You can load Photoshop from either the disk or CD-ROM. Both are included in the package.*

# SUPER STORAGE

## POWER USER® SyQuest®

## Order a NEW 44MB Power User Removable SyQuest Drive for the incredibly low price of just $199!

And, just to make the deal sweeter, you can order the 44MB drive PLUS a single preformatted 44MB cartridge for just $228 .95!

Featuring SyQuest

Power User SyQuest drives provide you with unlimited hard disk storage — without imprisoning your data on a hard disk! Whenever you run out of storage space, simply eject the cartridge you've just filled up, and insert an empty one. It's that simple!

Removable SyQuest cartridges allow you to move your data quickly and easily — just pop your cartridge into any SyQuest compatible drive just like you would a floppy disk, and get straight down to business!

Whatever your storage needs — transporting documents, archiving your company's files, or just keeping a copy of your data off-site for security reasons — Power User Removable SyQuest drives are the answer!

Any Power User Removable SyQuest drive can be used as a start-up drive on any Mac. Each drive comes complete with all the accessories you need for easy installation and operation: a SCSI cable, power cord, external SCSI address switch, external terminator, and disk utility software.

### 3 Great Choices!

**44 MB** — *Unbeatable price! 20ms access time!*

**88C MB** — *Reads and writes BOTH 44 and 88MB cartridges!*

**200 MB** — *Reads and writes 44, 88 and 200MB cartridges!*

**All three reliable 5.25" drives offer SyQuest compatibility and unlimited storage capability!**

## Get MEGA-storage capacity with the Power User 200MB Removable SyQuest Drive!

**2-year warranty on Power User 200MB SyQuest Drive!**

The new Power User 200MB Removable SyQuest Drive gives you all the advantages of removable media plus enormous storage capacity. In fact, it offers unlimited capacity by simply replacing a full cartridge with an empty one! It provides a compact, secure way to store your data off-line, share files, backup systems, and transport data-intensive applications like desktop publishing, imaging, multimedia, and music compositions.

This 5.25" drive is based on superior hard drive technology and delivers high performance with an 18ms average access time. Plus, it features full read/write compatibility with all SyQuest 44MB, 88MB, and 200MB cartridges!

For unlimited storage, data security, and convenient transportability, order the Power User 200MB Removable SyQuest Drive today!

# AT SUPER PRICES!

# Drives as low as $199!

# FASTEST SYQUEST DRIVE EVER!

## POWER USER® 3.5" 270MB Removable SyQuest Drive

**Introducing a technological breakthrough!**

Get more storage capacity — 270MB worth — in the size of a compact 3.5" cartridge...with the Power User 270MB removable SyQuest drive. Plus, it's the fastest SyQuest drive ever!

With an average access time of 13.5ms, the Power User 270MB SyQuest drive is ideal for fast backups for off-line storage. Storage is virtually unlimited — when one cartridge is filled, simply replace it with an empty one. The Power User 270MB SyQuest drive's small size and large capacity also make it the best medium for transporting data intensive files like those created in multimedia, imaging, and desktop publishing applications.

Get the highest performance SyQuest removable drive ever! Order the Power User 270MB SyQuest drive today!

**Power User 3.5"105MB SyQuest Drive**

For a low-cost, large storage alternative, get the Power User 105MB SyQuest drive. It provides fast speeds (14.5 ms average access time), compact 3.5" size, and a 105MB capacity. Its low price makes it an outstanding economical storage medium.

**The smart choice for...**

- Unlimited capacity
- Off-line storage
- Data transport
- Data security
- Fast backup

Featuring SyQuest

**270 MB** FASTER THAN MOST HARD DRIVES

**105 MB** 3.5" COMPACT SIZE

# UPGRADE to Microsoft WORD 6.0 for as little as $89!*

Microsoft Word 6.0 has hundreds of features to make creating and formatting all kinds of documents simple. With ***IntelliSense***™ technology, Microsoft Word 6.0 actually senses what you want to do and produces the desired result.

## Accelerates everyday tasks

You can accomplish routine tasks quickly and easily thanks to customizable tool bars that give you one-step access to most-used tools. Word 6.0 lets you select only the toolbars you want and place them anywhere on screen. The ***AutoText*** feature lets you enter text as abbreviations and then automatically expands them to full words. And with ***AutoCorrect***, you'll never have to worry about changing "teh" to "the" again.

## Simplifies even the most complex tasks

Word 6.0's ***AutoFormat*** feature helps you produce great looking documents fast. Simply select one of the ready-made formats–or one you've created previously, and apply it to your document with a single click. Page layout is a snap, too, thanks to ***Word Wizards***. Create documents with variable width columns, as well as bullets and numbered lists that are automatically reformatted as new items are added. Word's ***drawing tools*** have been improved to include multiple layers so you can superimpose text on images.

Microsoft®

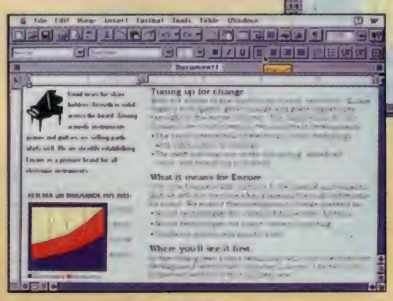
## Maximizes your Mac's performance

You can share files between Word for Macintosh and Word for Windows 6.0 without file conversion. And because Word 6.0 is fully System 7 Pro savvy, you can add sound and video to your documents with QuickTime, use AppleScript to automate your tasks, and send electronic mail using PowerTalk.

## NEW WORD 6.0 FEATURES:

- IntelliSense Technology senses what you want to do and produces the desired result.
- AutoCorrect automatically fixes typos.
- AutoText automatically expands abbreviations into full text.
- 100 Level Undo lets you undo any of your past 100 actions with a click.
- Fully editable Print Preview displays up to 128 WYSIWYG pages.
- Vertical Ruler makes it easy to place graphics just where you want them.

*Drag and drop text and graphics within and between documents.*



*Word 6.0 makes it easy to incorporate graphics and place them with precision.*

**Microsoft Word 6.0 Upgrade**
**from any previous version of Word**
**UPG 0105 ..... ONLY $89***

**Microsoft Word 6.0**
**WRD 0089 ..... $295**

*Price reflects a $30 rebate direct from the manufacturer. Price without rebate is $119. Details on box. Upgrade rebate expires 12/31/94. Proof of purchase is required for the upgrade. Mail or fax photocopy of title page of user manual or original program disk.

*Word box contains 68K disks and fulfillment coupons for FREE Power Macintosh disks upon their release.*

# The New 1995 Grolier

***Get the New 1995 version of the Grolier Multimedia Encyclopedia for just $99 — and own a reference so powerful there's no limit to what you can learn!***

Grab your passport to an exciting world of imagination and discovery with the 1995 edition of the Grolier Multimedia Encyclopedia. This new, expanded and updated version contains a host of new features, articles, photos and images — making it an essential educational investment for you and your family!

*The US Space Shuttle Atlantis, as it climbs the heavens on its mission to space. One vivid photograph of a collection of more than 8,000 featured in this new version of the Grolier Multimedia Encyclopedia.*

**So much to see and do.**

With the 1995 Grolier Multimedia Encyclopedia, there's simply no limit to what you can learn!

Imagine a reference source so powerful it can take you from the dizzying heights of Mount Everest to an atomic submarine in the ocean's deepest abyss. Reliving the inaugural speeches of President Kennedy, Dwight Eisenhower, and many more. Recreating the excitement of memorable moments in history, from the rise of the Roman Empire to the fall of the Berlin Wall. And gazing at the stars with Galileo, and blasting off to the Moon on Apollo II.

*Marilyn Monroe, shown here in her most famous pose from the movie, The Seven Year Itch. You'll find a whole world of popular culture within Grolier's 33,000 articles — from film to print to canvas.*

*Discover the many diverse weapons and uniforms of war, and the strategies employed by the many conquering civilizations throughout the ages — from the rise of the Roman Empire to the recent Gulf War in Iraq.*

Thanks to lightning-fast CD-ROM technology, you'll find the entire 21-volume American Academic Encyclopedia at your fingertips instantly — all on one CD-ROM!

In just seconds, you'll tap into a wealth of high-quality information on virtually any subject — that will come alive right before your eyes. You'll discover 33,000 thoroughly researched and up-to-date articles on Science, World History, Music, Art, and much more.

*Experience the eloquent inaugural address as John F. Kennedy takes up the mantel of the President of the United States as a full-action video. Just one of many video clips that bring this multimedia encyclopedia to life as the main events of our recent history unfold on your computer screen.*

There's also over 8,000 pictures, more than four hours of multimedia maps, movies, sounds and narrated animations, plus all-new innovative features — like Knowledge Explorer audio-visual essays and a Graphical Timeline — that bring this magical historic resource to life on your screen.

*History in the making as the Vikings first set sail on the oceans of discovery. And then take a trip with the Graphical Timeline — including pictures, interactive multimedia essays and unique interactivity with articles.*

Step-by-step animated sequences make complicated subjects easy to understand, such as the pumping of the human heart and the workings of the human ear. And you can use Grolier's full-color multimedia maps to follow the early migratory footsteps of prehistoric man and study the strategy of the recent Gulf War.

*The Morning Glory, I. acuminata (also known as the Blue Dawn Flower) is a fast-climbing, widely cultivated plant native to tropical South America. For nature-lovers everywhere, read and learn about many of the 400,000 species of plants that live on Earth today.*

## Get a lightning-fast double-speed CD-ROM drive for your Mac!

This high-performance Power User Double-speed CD-ROM drive features:

- *Motorized tray operation—E-Z CD loading.*
- *Automatic lens cleaning for improved reliability*
- *High speed data transfer rate of 300kb/sec.*
- *64K buffer*
- *XA-compatible for multimedia CD-ROM discs*
- *DB-25/50 SCSI system cable and external terminator*
- *Push button SCSI ID select switch*
- *320 m/sec. access time*

Besides being a perfect drive for The Groiler Multimedia Encyclopedia, this versatile Power User Double-speed CD-ROM drive will also play your music CDs! Order yours now at this low, low MacWAREHOUSE price!

**POWER USER Double Speed Multi-session CD-ROM Drive Kit** *BND 0316* ..... *$199*

# Multimedia Encyclopedia

Only $99!

*New 1995 Grolier has improved animations with narration, updated movies, hours of sounds, and fact boxes with locator maps, graphics and pictures, and over one hour of unique multimedia maps.*

## The best keeps getting better.

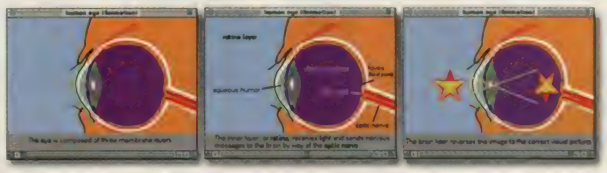
Since its introduction in 1985 as the first CD-ROM encyclopedia, the Grolier Multimedia Encyclopedia has been setting and re-setting the standard for quality and innovation in interactive learning. And, now, the new 1995 Grolier Multimedia Encyclopedia takes you on its most remarkable journey yet, with an expanded, enhanced edition that includes extraordinary new features.

## NEW! Pathmakers video interviews.

Find out the real facts on Art, Sports, Innovation and more, direct from the experts. See the world through their eyes – imagine yourself hurtling into space with astronaut Edwin "Buzz" Aldrin or leaping into Olympic history with Jackie Joyner-Kersee. Other Pathmakers video interviews include award-winning paleontologist and natural historian Stephen Jay Gould, critically acclaimed novelist Kurt Vonnegut, artist Helen Frankenthaler and inventor Paul MacCready.

*Hear the trembling roar of the King of the Jungle, and the sounds of many other mammals as you read about their habitat, the hunting and feeding rituals, and much more. From key facts to interesting tidbits, it's all here!*

*Not only listen, but actually see for yourself how the cornea of the eye sends messages to the brain via the optic nerve. Step-by-step animated sequences make even the most sophisticated subjects easy to understand.*



## NEW! Graphical Timelines.

Travel through time with Grolier and you'll meet the people who made history, the events that shaped the world as we know it, and more.

## NEW! Knowledge Explorer™ Audio-Visual Essays

From inner to outer space and all points in between, these informative multimedia essays take you around the globe, the galaxies, and beyond.

Unlock the secrets of the universe on your Macintosh with the all-new features, and expanded and updated articles and photos of the new 1995 version of the Grolier Multimedia Encyclopedia.

# Get FileMaker

FileMaker Pro is data management software with the power and sophistication to complete almost any business task—from creating extensive databases to printing mailing labels. Yet it's so easy to use, you'll be productive within minutes of taking it out of the box.

Whether you're working on a network of Macs, PCs running Windows, or a combination of both, FileMaker Pro makes it easy to share information among workgroups—no format translations are necessary. Built-in file utilities provide easy backup, duplication, compression, and templating of existing files. And managing workgroups is simple with FileMaker Pro's password protection, instant file updating, and record locking capabilities.

FileMaker Pro has the database capabilities you've been looking for at an eye-opening price!

## 5 Great ways to use FileMaker Pro

1. Create a database of automatically numbered or serialized records with variable field lengths.
2. Create invoice and purchase order systems.
3. Produce compelling reports that include color and graphics with the full-featured, built-in drawing program.
4. Maintain contact lists and project schedules.
5. Generate mailing lists and envelopes.

— And much more!

NEW!

## Get FileMaker Pro Server for your network!

Introducing FileMaker Pro Server, a high-performance database engine that accelerates FileMaker Pro operations over a network. FileMaker Pro Server off loads processor intensive tasks—such as indexing, sorting, and summary calculations—to your network server, so you can realize incredible performance gains of up to 100%. And FileMaker Pro Server offers increased scalability, supporting up to 100 simultaneous users per file.

*Requires: 4MB Ram (8MB recommended for Power Mac), hard disk, System 7.0 or higher. Completely compatable with FileMaker Pro 2.0 and 2.1—no additional purchase required.*

Accelerated for Power Macintosh

Accelerated for Power Macintosh Runs on Your Regular Mac, too.

**FileMaker Pro Server**
NET 0562 ..... $995

### FileMaker Pro Server accelerates data sharing over a network. Check out these performance gains!

| Task | 5 Network Users | 10 Network Users | 20 Network Users |
|---|---|---|---|
| Find Records | 52% | 88% | 159% |
| Summary Calculation | 64% | 90% | 84% |
| Edit Data | 74% | 246% | 252% |
| Export Tab File | 76% | 176% | 157% |
| Import Tab File | 455% | 591% | 358% |
| Replace Records | 601% | 1,703% | 2,139% |
| Sort Database | 60% | 81% | 89% |

*The benchmarks above express the performance improvements (in % terms) of sharing FileMaker Pro data from a FileMaker Pro Server versus sharing data via a network without Filemaker Pro Server. They were measured using a Macintosh Quadra 840AV host with 8MB RAM, with Macintosh Quadra 650 guests with 8MB RAM for the 5 and 10 users results, and a mix of Macintosh Quadra machines with 8MB RAM for the 20 user tests. Tests were performed over an Ethernet network. Test database used was approximately 7MB in size and included 5,000 records.*

# Pro for only $99!

SAVE $170!*

*HURRY!* This offer expires 12/31/94!

## Power without programming

FileMaker Pro's powerful features let you create the database you need without complicated programming:

- ScriptMaker automates routine tasks, menu operations, and procedures.
- Professional templates give you a jumpstart on creating files for everything from invoicing to project tracking.
- Custom field formats let you accelerate data entry with the use of radio buttons, checkboxes, pop-up lists, and menus.

## Layout without labor

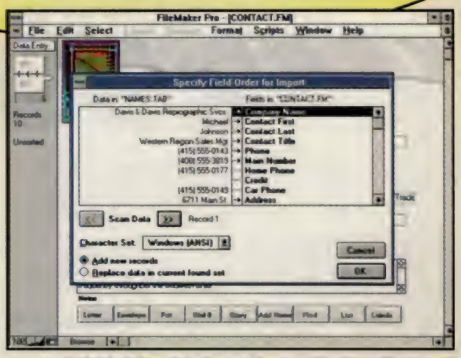
FileMaker Pro makes it easy to present your information:

- Mail merge lets you create personalized letters and mailings using either built-in text-processing or popular word processors.
- Enhance any file with imported graphics, sound, and even Apple QuickTime movies.
- Create unlimited reports and summaries with the intuitive graphic report generator.

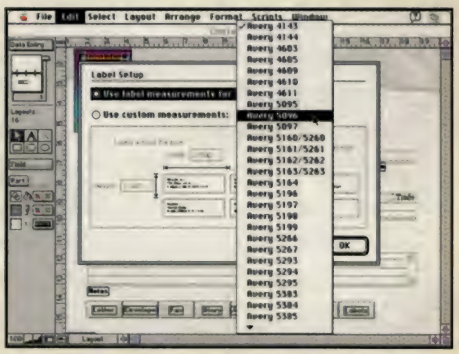
## Access without aggravation

FileMaker Pro lets you control the use of your information:

- Add, change, or remove fields, layouts, or calculations at any time—without rebuilding the database.
- Share files among Macintosh and Windows users, either directly or via file server.
- Control viewing and editing of specific layouts and fields.



Quickly bring data from other applications like word processors and spreadsheets into your database!



Performing common tasks like mailing lists is a snap. Labels are ready in seconds—just select the pre-formatted label from FileMaker Pro's built-in list.

# NEW! Apple Printers at

## A printer to brag about—at a very modest price!
## Apple StyleWriter II

**Only $299.95**

The Apple StyleWriter II makes laser-quality printing more affordable than ever! It fits comfortably in even the smallest work spaces, and can be put to work immediately. Installation takes only one click on your mouse. The StyleWriter II offers advanced inkjet technology that delivers laser-quality resolution of 360 dpi, 40 percent better than standard 300 dpi printers. That means sharper text and better graphics output, making it the affordable option to a laser printer! This little giant can even handle letterheads, labels, envelopes, and even transparencies. It's multi-purpose tray automatically feeds up to 100 sheets of paper or 15 envelopes. The StyleWriter II comes with 39 TrueType fonts, including Times, Palatino, Helvetica, and ITC Avant Garde Gothic, and gives you the flexibility to print text in a wide variety of styles and sizes—from tiny footnotes to bold headlines. Built-in Apple GrayShare technology lets the StyleWriter II produce grayscale images of comparable quality to that realized by more expensive laser printers. For added versatility, Apple's GrayShare software also lets you share your printer with others on a network and achieve maximum Macintosh capability.

## Apple makes color printing affordable!
## Apple Color StyleWriter 2400

The Apple Color StyleWriter 2400 is an affordable ink-jet printer that provides high-performance color and black-and-white printing. It's ideal for home, education, and business users who require color printing for their documents. With its integrated ColorSync software, the Apple Color StyleWriter 2400 provides excellent print quality and superior color matching. It features impressive 360 dpi for both color and black-and-white printing. It prints up to 3 pages per minute in black-and-white and 1 page every 3 minutes in color. Share your color printer with others on LocalTalk, EtherTalk, or TokenTalk network. In addition, the Apple Color StyleWriter 2400 provides economical energy efficiency through it's automatic power on/off control. So, if you're looking for great print quality and color capability, the Apple Color StyleWriter 2400 has everything you need.

**INP 0425 ..... $2299**

## Printing features you want at a price you can afford!
## Apple Personal LaserWriter Select 320

The Personal LaserWriter 320 is a PostScript laser printer that's ideal for home, education, and small-business users. It offers outstanding printing quality with 300 dpi resolution, and unites Adobe PostScript Level 2 with Apple's FinePrint resolution-enhancing technology. The Personal LaserWriter 320 incorporates 2MB RAM, and comes with 35 fonts in ROM, as well as built-in TrueType scaling. This powerful printer connects to your Mac in seconds, via the built-in LocalTalk port. The Personal LaserWriter 320 has no on/off switch, but operates in a completely silent, energy-saving standby mode and "wakes up" when there is a print job to be done. For the printing capabilities you need, the Apple Personal LaserWriter 320 is the affordable choice.

**Apple Personal LaserWriter 320**
**INP 0362 ..... $899**

## Expandable printing— and faxing—capabilities!
## Apple LaserWriter Select 360

With 600 dpi resolution, outstanding print quality is just one of the Apple LaserWriter Select 360's many terrific features. It consistently produces superior output with crisp text, rich graphics, perfect curves, and no jaggies. Thanks to the Select 360's RISC processor, you can soar through 10 pages per minute, while you continue to use your computer for other tasks. The LaserWriter Select 360 provides plug-and-play simplicity, with all ports simultaneously active to accept jobs from all types of computers without requiring any setting changes. And it even switches between PostScript Level 2 and PCL 5 languages automatically. Add the PostScript Fax Card, and you can use your Select 360 to receive and send faxes as easily as you print. Apple LaserWriter Select 360 includes two built-in paper trays, 64 built-in fonts, installation software, a toner cartridge, and complete set-up, learning, and reference documentation.

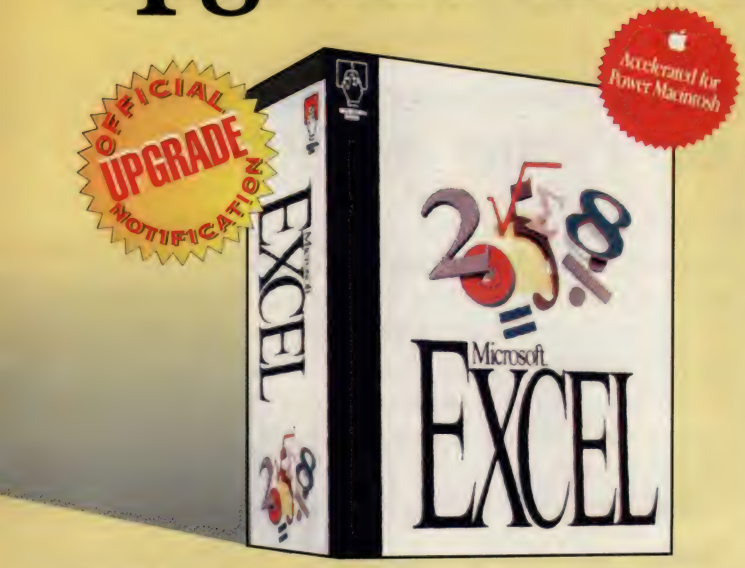
**BRAND NEW VERSION!**

# Upgrade to Microsoft® Excel for only $89!*



## The Most Popular Spreadsheet Program is Better Than Ever!

Make your work easier with Microsoft Excel 5.0. It features IntelliSense™ technology — built-in technology that senses what you want to do and produces the results you need. It makes routine tasks automatic and simplifies complex jobs. Microsoft Excel's innovative features combine to form an intelligent spreadsheet that works the way it should — the way **YOU** want it to. **Order today!**

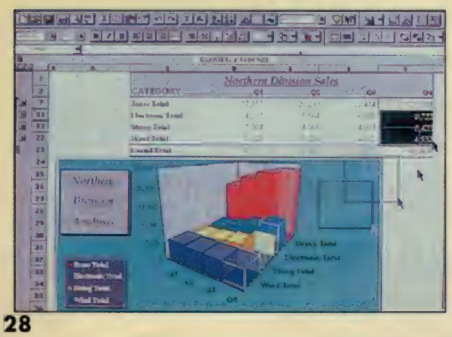
**Easily build the solutions you need**
- Use on-sheet controls to automate your work without macros.
- Customize your toolbars effortlessly.
- Use the macro recorder to automate your tasks.

**An intuitive interface that makes your work easier**
- Enter and edit information by typing it directly into cells with Rich Cell Editing.
- Select and build formulas with the Function Wizard — it helps you build formulas, assists you with arguments, and lists your most recently used functions.
- Move individual or groups of cells easily with drag-and-drop data movement.

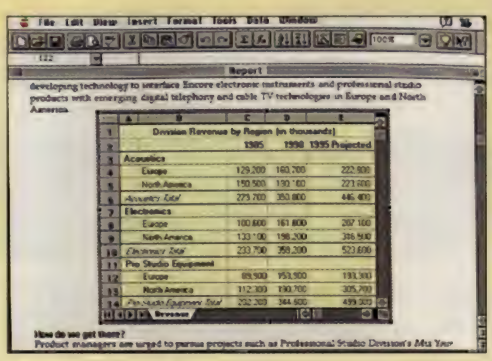
**IntelliSense lets you do more with less effort**
- TipWizard™ assistant watches you as you work and gives you tips on how to work faster and smarter.
- AutoSum™ intelligently sums ranges and can sum rows and columns simultaneously.
- Save time by typing in commonly entered data with AutoFill.

**Focus on your analysis, not your data**
- The PivotTable Wizard guides you through building a summary table of your data.
- Effectively work with others using the Workgroup Toolbar. Find files easily, share files with others, route documents to anyone on your workgroup.
- An improved Scenario Manager lets you create and view scenarios easily.

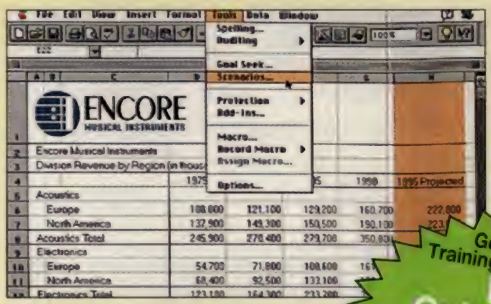
**Chart the way you want to**
- Chart your data with ChartWizard — it walks you through creating a chart and lets you choose the options.
- Manipulate chart formats with Hands-On Charting. You can directly select, resize, and format any part of your chart.
- Update your chart with the Drag-and-Plot feature by dragging new data to your chart.



*Add edits and suggestion to your final documents. Microsoft Excel allows you to see them easily and merge them fast.*



*Manage and edit your documents as a team. Microsoft Excel lets you share your work across any network.*



*Microsoft Excel simplifies everything from adding columns to performing complex analysis.*

# Get the *NEW* StuffIt

New Version!

Order new StuffIt Deluxe 3.5 today and you'll understand why it's won the MacWorld World Class Award for the past two years. Use StuffIt Deluxe to save disk space, archive files, and speed file transfers over networks and modems. And with the new version, this industry-standard compression program is easier to use than ever. With new built-in True Finder Integration, you can Stuff a file by simply dragging it from the desktop to the archive window. UnStuff files by dragging them out of the archive window. No other compression program is this easy to use!

StuffIt Deluxe 3.5 features the tightest transparent compression available. StuffIt is now accelerated for Power Macintosh so you get up to five times faster performance on your Power Mac. And with PowerTalk support, it's easy to use StuffIt over your network, too.

## Two more essential products

### SpaceSaver 3.5

StuffIt SpaceSaver provides transparent file compression for any Macintosh without disrupting the way you work. When you work with a compressed file, SpaceSaver transparently expands it for you. When you're done, SpaceSaver automatically re-compresses the file for you. Compress and expand files at your command, or automatically while you're away from your machine. SpaceSaver compresses any file or folder an average of 50%— one-half its original size—and can compress some graphics files by as much as 98%! Think of all the extra space you'll gain on your hard drive by using SpaceSaver 3.5!

| SpaceSaver Feature | Benefit |
|---|---|
| Compression on-command | Allows you to compress files and folders when you want |
| Idle-time compression | Automatically compresses files when your Mac is idle |
| Transparent interface | Provides easy access to compressed files |
| Keyword compression | Lets you compress files and folders based on keywords you define |
| Label compression | Allows you to compress files and folders based on Finder labels |
| Expands common archive formats | Expands StuffIt, Compact Pro, AppleLink archives, and more! |

**SpaceSaver 3.5**
**UTI 0586** ..... **$44.95**
Suggested Retail: ~~$79.95~~
*Requires: 2MB RAM; System 6.05 or later (System 7 savvy).*

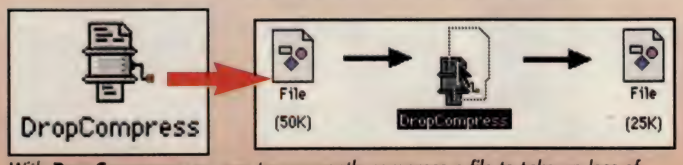
# Deluxe 3.5 for only $74.95

## The StuffIt Deluxe package includes:

√ **StuffIt Deluxe application–** StuffIt Deluxe combines files and folders into a single file, called an archive, to achieve maximum compression. Archives are ideal for speeding the transfer of data over a network or via modem. You can move, copy, sort, rename, delete archived files, and much more!

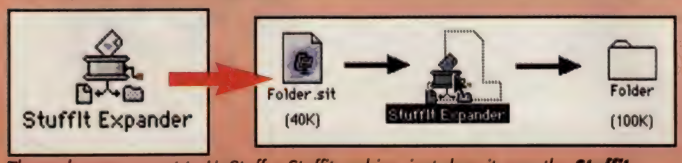
√ **StuffIt SpaceSaver™–** SpaceSaver keeps files on your hard disk compressed until you use them to save you valuable disk space. Files are automatically expanded when you open them and compressed when you close them. (For more information, see SpaceSaver 3.5 description below .)

√ **Magic Menu™–** Magic Menu is a Control Panel that creates a new compression menu in the Finder and gives you point and click access to many StuffIt Deluxe and SpaceSaver features.



*With **DropCompress** you can transparently compress a file to take up less of your hard drive by simply dragging and dropping it over the DropCompress icon.*

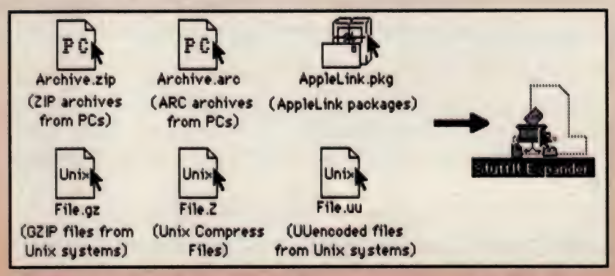
*Make a Stuffit archive by simply dragging and dropping any file or folder over the **DropStuff** icon. Instantly your files are archived and ready to modem or store.*



*Then when you want to UnStuff a Stuffit archive, just drag it over the **Stuffit Expander** icon and voila, your archive is instantly unstuffed.*

## New Features in StuffIt Deluxe 3.5

- Drag items in or out of archives to Stuff or UnStuff
- New transparent SpaceSaver compression saves much more hard disk space
- Accelerated for the Power Mac
- Simple "drag & drop" expansion of files from PCs and UNIX computers
- PowerTalk support



***StuffitExpander** will also expand files compressed on PC's (like .zip and .arc), Unix Systems (.Z, .uu, .gz), the Internet (.hqx), and other platforms.*

*Save time with Stuffit's **Magic Menu**:*

*1. Just select a folder in the Finder*

*2. Choose "Stuff" from the Magic Menu*

*3. The result... an instant Stuffit archive.*

NEW!
SoftWindows for Mac!

# Run DOS and Windows software on your Mac with SoftWindows!

**Turn any 040 Macintosh or Power Macintosh into a fast, networkable PC... with SoftWindows! SoftWindows combines licensed Microsoft Windows code with Insignia's patent-pending chip compatibility technology to emulate a complete PC in software!**

## Supports MS-DOS and Windows 3.1 software.

SoftWindows emulates an Intel processor and a math coprocessor so it supports MS-DOS and Windows 3.1 software. And, it runs these applications with 256-color VGA graphics! Includes Windows 3.1 and DOS 6.21.

## Use your applications as usual.

With SoftWindows, you don't need to change the way you work! Send e-mail or use a database over the network. Your MS-DOS and Windows software have no idea you're not working on a PC! Plus, you can run Mac and PC applications side-by-side and share disks, files — even the clipboard!

## Share networks and hardware, too.

SoftWindows includes ready-to-use support for the most widely used network in the world — NetWare. Plus, it's compatible with others including LAN Manager, Banyan VINES, and TCP/IP. It supports both PostScript and non PostScript printers, and even lets you use PC CD-ROM software in your Macintosh CD-ROM drive.

### SoftWindows for Macintosh

SoftWindows for the Macintosh enables customers to run tens of thousands of Windows and MS-DOS software faster than ever on 68040-based Macs.

# Screaming Fast 14.4 Fax/Modem for Only $89.95!

## Incredible Modem Speed! 14.4 Data! 14.4 Fax! *Incredible Low Modem Price!*

**Pull into the fast lane on the information highway!**

Magnum 144 is the perfect choice high-speed data and fax communications with your Mac. It uses the latest error control and data compression to protect your valuable data and sends it rocketing along dial-up phone lines at up to 57,600 bps. Just think, Magnum 144 is 24 times faster than a 2,400 bps modem. And it's 14,400 bps fax capability is the fastest available. You'll really appreciate the convenience of sending and receiving faxes right at your Mac with Magnum 144.

**Magnum 144 lets you do it all!**

- Send documents at high speeds to fax machines or fax/modems.
- Faxes sent from your computer are clearer and more legible.
- Communicate with other data modems at 14,400, 9,600, 2,400, or 1,200 bps.
- Call online services like CompuServe and America Online, or call one of the 20,000 U.S. bulletin boards and download free software.
- Data compression provides throughputs up to 57,600 bps. You save time and money with Magnum 144!
- Automatic speed, error-control and data compression negotiation let you use powerful features without being a modem expert.
- Automatic line-speed fallback lets Magnum 144 continue to transmit data regardless of the phone line quality.
- Automatic speed buffering and flow control manage your communications sessions to protect your data.
- Operates on standard dial-up phone lines; phone cable included.
- Includes money saving offers from online services.

**Software Upgrade only $29.95**

**Includes Mac Com Center software.**

You can begin using your Magnum 144 modem right away with the FREE Mac Com Center software that's included! Send faxes in the foreground or background while you work in other applications. Use the fax phone directory to store frequently used numbers and schedule your faxes for transmission when phone rates are lowest. You can even include a fax cover page thanks to Mac Com Center.

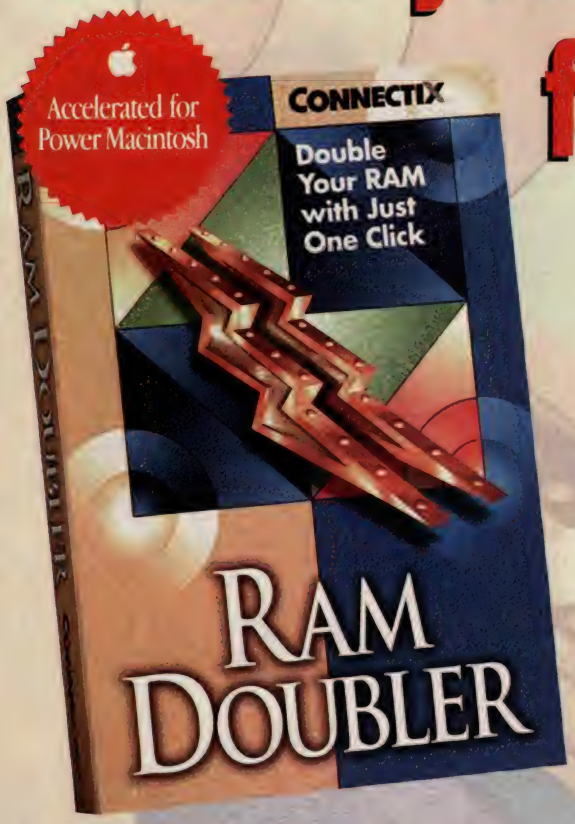
# Double your Mac's memory for only $55

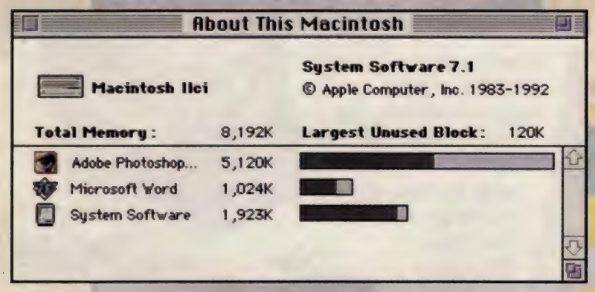


Need more RAM but don't have the budget or technical expertise to install a new memory board? Then order RAM Doubler™ today. It's a simple, inexpensive software solution that actually doubles your current memory!

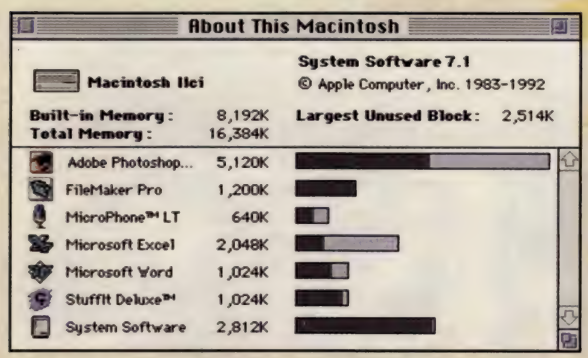
Now you can simultaneously run multiple applications without ever being told, "Not Enough Memory." Installation is just one step: click once on your mouse and RAM Doubler installs in just 15 seconds! That's it, there's nothing more you have to do — RAM Doubler works automatically every time you start your Mac!

Use RAM Doubler on Macs with as little as 4MB or as much as 128 MB. Plus it's compatible with all Macintosh applications and system extension software.

Double the RAM on virtually any Mac — including PowerBook — with RAM Doubler. Adding memory couldn't be any easier or more affordable than this!



*Without RAM Doubler, most users hit their system's memory limits when running two or three applications.*



*With RAM Doubler, double the memory lets you run additional programs and still have plenty of room.*

## RAM Doubler

**uses three efficient methods to automatically add extra memory every time you start your Mac!**

**RAM Doubler reclaims unused memory that has been allocated to open applications.**

**It takes memory that is in use but not likely to be used again and compresses it.**

**If necessary to preserve performance, it will store compressed information on the hard drive.**

*You get double your current memory without additional memory boards!*

UTI 0486
*Publisher:* Connectix
Suggested Retail: ~~$99~~ ..... $55

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

Requirements: Any Macintosh with a 68030, 68040 or PowerPC microprocessor (NOT compatible with Mac Plus, Mac SE, original Classic, original LC, or PowerBook 100); 4MB (hard disk required for machines with 4 to 6 MBs); System 6.05 or later. Must be used with 32-bit addressing to fully double RAM. The 24-bit addressing of older Macs will double to 16MBs, the limit imposed by Apple ROMs.

# Apple QuickTake 100 Digital Camera *Only* $699!

*Apple makes digital photography simple & affordable.*

## Apple QuickTake 100

There's never been a faster or easier way to bring the world of digital photography into your Mac. Use the Apple QuickTake 100 like your favorite camera. Point and shoot, and take 24 bit color pictures instantly. When you're done you can load them in your Mac in a matter of minutes!

The Apple QuickTake 100 makes it possible for everyday people to bring digital design into documents, comps, publications and more. It can take 32 standard-resolution or eight high-resolution images at a time, allowing you to change resolutions at will. Featuring a built-in automatic flash, it's perfect for indoors or out. The display panel monitors flash and battery status, number of pictures taken and remaining, resolution and self-timing settings, and much more! The lens has a focal length equivalent to that of a 50mm lens on a 35mm camera. To load the pictures into your Mac, connect the camera to your Mac via the included serial cable, download the image, and you're done! It's that simple! Once the images are downloaded, you can select and view thumbnail images, then rotate, crop, scale, and zoom in on them with the included QuickTake Software.

## Features

- *24-bit color images.*
- *Takes up to 32 standard-resolution or eight high-resolution images, or a combination of the two.*
- *Two image sizes: 320 by 240 pixels for standard resolution: or 640 by 480 pixels for high-resolution pictures.*
- *Automatic exposure with computer-controlled shutter speeds from 1/30 to 1/175 of a second.*
- *Focus range from 4 feet to infinity.*
- *Built-in automatic flash.*
- *Can store images in your camera up to one year before loading into your Mac.*
- *Easy-to-read display panel.*
- *As simple to use as an ordinary camera.*
- *Affordable.*

# The Most Affordable, Full-Function Keyboard Ever!

## The Power User 105E Keyboard

## As low as $69.95!

**Full-year Warranty!**

*Now you can work faster and easier with the Power User 105 Extended Keyboard. It features 105 keys, logically arranged for quick typing, cursor movement, number calculations, and more. You'll be able to zip through your word processing, spreadsheet calculations, desktop publishing, database management, and more.*

### Designed for convenience and speed.

*Every feature of the Power User 105 extended keyboard was specially designed to help you work smarter, with greater speed and efficiency...*

- Positive-tactile feedback keys— for quick, accurate hand placement on both keyboard and numeric keypad.
- Fifteen function keys— replace long commands with single keystrokes.
- Six page control keys— the fast way to Cut, Paste, Home, End, Page Up and Page Down.
- Separate numeric keypad— with enlarged Enter key for fast calculations and four arithmetic function keys.
- Cursor control keys— arranged in industry-standard inverted "T" configuration.
- Enlarged Enter and Shift keys— so you won't accidentally hit the wrong key.
- Control, Option, and Alt keys— two sets for easy right- and left-hand use.
- Indicator lights— let you know if Num Lock, Caps Lock, and Scroll Lock keys are on.
- Ergonomically designed housing— for comfortable keying all day long.

### Get TempoEZ for *only* $14.95

# Get powerful, automatic data protection...

# Upgrade to MacTools Pro 4.0! Only $49.95

Now supports Power Macintosh!

Accelerated for Power Macintosh

MacTools Pro 4.0 is an award-winning set of utilities that makes data protection, repair, and recovery simple and convenient. Whether you're a data recovery expert, or an everyday Mac user that needs transparent protection and easy disk repair, you'll appreciate how easy it is to use MacTools Pro. MacTools Pro is loaded with modules to provide extensive and comprehensive data protection and recovery. Check out all the great new features!

**MacTools is loaded with features that provide the best data protection and recovery available.**

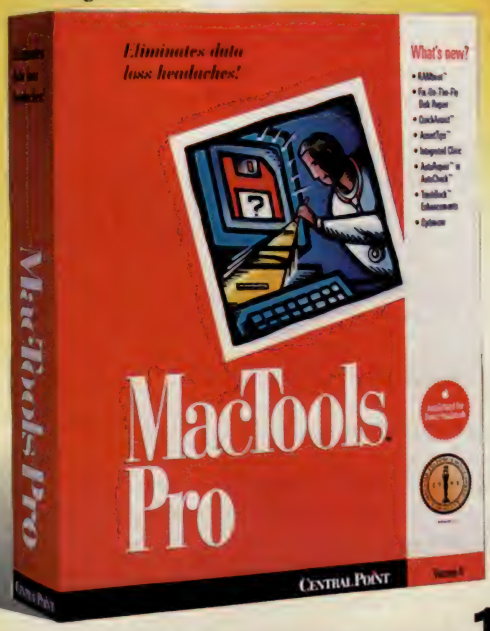
- **Enhanced DiskFix**
  DiskFix now includes Fix-On-The-Fly technology which repairs most disk problems—including problems with the system startup volume—without rebooting. DiskFix finds and corrects damage to the directories and desktop files and identifies and reports system file corruption.
- **RAMboot Disk Repair**
  RAMboot automatically creates a temporary, bootable RAM disk so you'll never have to reboot from a floppy again...even if your startup volume crashes.
- **Floppy-Free Optimization**
  MacTools Pro now features even faster floppy-free defragmentation by using the startup disk that's built by RAMboot.
- **TrashBack**
  TrashBack not only provides safe and simple recovery of deleted files, it actually protects deleted files from being overwritten.
- **AutoCheck**
  AutoCheck scans your hard disk, automatically, in the background, for constant protection against crashes. Provides weekly reports on repairs, crashes, and improper shutdowns.
- **AutoRepair**
  AutoRepair works within AutoCheck, repairing minor disk problems during periods when your computer is idle.
- **QuickAssist**
  QuickAssist takes the guesswork out of troubleshooting disk problems. Simply select the symptoms of the problem and QuickAssist sets up and runs appropriate tests.

*QuickAssist troubleshoots the most complicated disk repair problems— just select the symptoms and let MacTools Clinic go to work.*

*Optimizer features a resizeable map grid, allowing you to sort and view by date.*

## PLUS...

- Power Macintosh and PowerBook support
- **Transparent Anti-Virus**— scans for and eliminates viruses during idle time
- **Catalog Rebuild**— reconstructs disk directories from scratch rather than patching rebuilt pieces
- **FastCopy™**— duplicates floppy disks quickly and saves compressed floppy disk images to the hard disk
- **SmartTips™**— provides visual-graphic hints to help identify hardware and system problems
- **Backup**— supports multiple media, including floppies, hard disks, SyQuest and Bernoulli cartridges, and most DAT tape drives and network servers



**MacTools Pro 4.0 Upgrade** UPG 0133 ..... $49.95

**MacTools Pro 4.0** UTI 0581 ..... $95

**Use your PowerBook to its fullest potential!**
PowerBooks like the Duos and the 500 series are ideal traveling companions — if you have enough memory. But, programs like Microsoft Word and Excel, and others have powerful new features requiring more memory than your Powerbook may have. Don't fret — just add more memory with a Power User PowerBook Upgrade Kit!

**Improve your battery life.**
Most applications will access the hard disk less frequently when you increase their RAM size. Even better, adding memory to your PowerBook allows you to use some of your memory as a RAM disk. You can store your favorite programs on the RAM disk and never have to access your hard disk, adding hours to your battery life!

**Easy installation!**
With a Power User Upgrade Kit, more memory is minutes away! It includes a step-by-step installation manual that provides crystal-clear instructions. Plus, all Power User PowerBook Upgrade Kits are backed by a 30-day money back guarantee.

**Order more memory for your PowerBook today!**
Don't wait — start using your PowerBook to its fullest potential today! Just check the chart for your PowerBook model and Upgrade Kit that will really power it up!

ToolKit for all PowerBooks

# 5.0 for as low as $199!*

# TrapMaker

## TrapMaker

TrapMaker Addition for Aldus PageMaker automatically traps colored text, lines, boxes, and ovals drawn in your publications, making it easy for you to print professional-quality traps directly from PageMaker 5.0.

## Attention QuarkXPress Users!

**Upgrade to PageMaker 5.0 for only $199* and get FREE TrapMaker plus QuarkXPress Conversion Filter!**

**1. TrapMaker**

TrapMaker Addition for Aldus PageMaker automatically traps colored text, lines, boxes, and ovals drawn in your publications.

**2. QuarkXPress Conversion Filter**

The Aldus QuarkXPress Converter converts QuarkXPress (versions 3.1 - 3.3) documents to PageMaker 5.0 publications. Most elements and file formats translate without additional changes.

*Three new products that complement PageMaker:*

### 1. Print Central

Get complete control over your printers from one central location with Print Central. Print Central passes jobs to the first available printer, so your job never waits in a queue while another printer sits idle. Print Central's sixteen queues can direct jobs to as many as six different PostScript output devices. A simple click and drag connects a queue with the desired printer. Flexible queues let you change a job's position in the queue, delete a job, put an entire cue on hold, or redirect a job sent to the wrong queue.

*Requires: Mac SE or higher (for server); 4MB RAM; System 7.0 or later.*

UTI 0576
*Suggested Retail:* ~~$795~~ ..... $649

### 2. PageTools

Introducing PageTools – a collection of 10 powerful additions including PageBar, a customizable toolbar that makes PageMaker faster and easier to work with than ever before. Plus, you get nine more timesaving utilities to help you work more efficiently.

*Requires: PageMaker 5.0 or later; System 7.0 or later.*

PageTools
DTP 0124

POWER USER®

# Hard Disk Drives

## All the features you expect from top quality drives.

Power User Hard Drives are made for MacWAREHOUSE — to our exact specifications. Their industry standard footprint makes stacking drives easy. They're available in a variety of affordable sizes, and when you need to expand, simply daisy chain the drives together — without sacrificing a megabyte of the money you've invested.

**540 MB hard drive only**

**$449.95**

## State-of-the-art components

Every Power User Hard Drive comes complete with everything you need to be up and running in minutes. There's a rear panel SCSI address selector switch, two 50-pin SCSI connectors, a 25/50 pin SCSI cable and an external SCSI terminator. Each drive comes preformatted — ready to use, right out of the box. If you have any questions, just refer to the comprehensive User's Manual, which gives you complete, step-by-step instructions for installation and troubleshooting.

## 30-Day Money-Back Guarantee

Each Power User Hard Drive goes through extensive quality control checks and testing before it leaves the factory, so you're assured of its reliability and performance. If you're not completely satisfied within 30 days, call us for an RMA number, and return it for a full refund of the purchase price (excluding shipping). In addition, every drive comes with the manufacturer's one-year warranty.

## *Power User 3.5" Optical Drive provides 230MB of storage on a floppy-size cartridge!*

The Power User 230MB Optical Drive is a great solution to your storage concerns! It's rewritable and removable, plus fast and affordable, too. This high performance ISO standard drive, with a quick sub-30ms access time, is one of the fastest optical drives in its class. So fast, you can use it as an on-line storage device the same way you use a hard drive. Or, use it for backing up or transporting large files. With its proprietary cooling system, the Power User 230MB Optical Drive also provides optimum reliability and data integrity.

Count on the power of the Power User 230MB Optical Drive for your data storage. Order today!

**Power User Pro 230MB Optical Drive**

POWER USER®

# PRO Series

## Reliable, versatile and portable hard disk drives

Matthew R. Clark for *Macworld* Lab Reports (March, 1993) put it this way: "MacWAREHOUSE offers my *favorites* in this category... vertical drives...designed to occupy little desk space...".

The Power User PRO Series carries on the tradition of Power User excellence, bringing you the latest hard drive technology in a compact streamline design. They're shock mounted to endure the rigors of travel and feature the highest quality components from the most recognized manufacturers in the industry, including Quantum, Conner, DEC, Micropolis, and Seagate.

## Fast access times mean optimum performance

Choose just the amount of storage you need, and enjoy the benefits of incredibly fast access times of 13 ms or less. PRO Drives come preformatted and include everything you need for installation: dual 50-pin SCSI connectors, 25/50 pin SCSI system cable, and external terminator. Plus driver software that supports advanced features like partitioning and SCSI manager 4.3!

## Power User PRO Hard Disk Drives

*Manufacturer's two-year warranty on all models.*

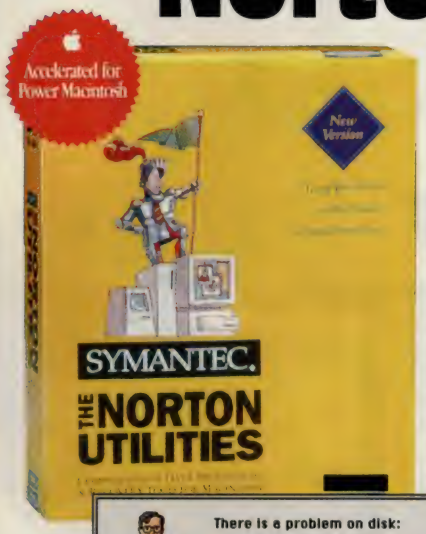
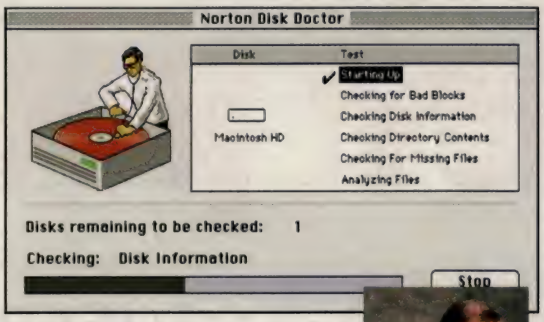
# Upgrade to the NEW Version
# Norton Utilities 3.1
## for only $39.95*

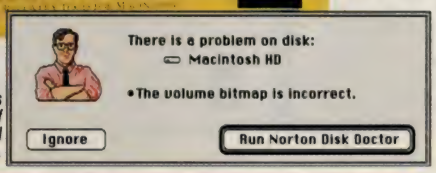


Norton Utilities, the #1 Macintosh Utilities Program, has gotten even better! Introducing Norton Utilities 3.1, the most powerful collection of tools for data protection and recovery – designed with both Macintosh and Power Macintosh systems in mind. Norton Utilities 3.1 contains the most advanced technology, including features not found in any other utilities program.

*Norton Disk Doctor analyzes your hard drive and repairs any problems.*



THE NORTON UTILITIES FOR MACINTOSH



*Norton Utilities informs you of potential problems.*

### New features in version 3.1

- *EXCLUSIVE!* **System Info** - System information at a glance to maintain peak performance
- *EXCLUSIVE!* **Norton Expand** - Quickly expands and restores backup files or compressed files
- **Rebuild Desktop** - Eradicates any potential damage to the desktop file, and even saves Finder comments
- **Recover File** - Recovers information from damaged files
- **Startup Disk Builder** - Create custom startup disks for all Macs and Power Macs
- **Norton Fastback** - Fast, scheduled, self-restoring backup with tape support
- **Accelerated for Power Macintosh** - For maximum performance on Power Macs

### Enhanced features in Version 3.1

- *EXCLUSIVE!* **FileSaver** - Transparent data protection that automatically notifies you for routine maintenance and repairs
- *EXCLUSIVE!* **Volume Recover** - Instantly restores crashed or accidentally erased hard disks
- *EXCLUSIVE!* **Norton Disk Editor** - Explore and edit structure and contents of files and disks
- *EXCLUSIVE!* **Emergency Diskette** - Included for immediate startup after disaster
- **Norton Disk Doctor** - The most advanced technology for diagnosing and repairing damaged disks and data
- **UnErase** - Simple, yet powerful recovery of trashed or deleted files
- **Speed Disk** - Safely and quickly defragments selected files or volumes and optimizes data
- **Fast Find** - Locates, views, and launches files at lightning speed
- **Wipe Info** - Easily protects confidential deleted data from unwanted recovery
- **Floppier** - Save time with easily duplicating and initializing multiple floppy disks
- **DiskLight** - Provides a visual indicator showing disk access and SCSI ID#
- **Interface** - New, consistent, easy-to-use, streamlined interface

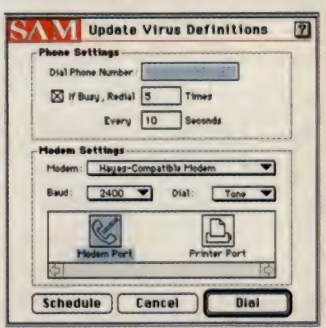
# SAM 4.0 The ultimate virus protection, detection, and repair program!

SAM (Symantec AntiVirus for Macintosh) is the worldwide standard in Macintosh virus protection. It installs easily and works automatically and continuously, watching for suspicious disk activity. Plus, new SAM 4.0 works faster than ever before. Effective against any type of virus, SAM is just as effective across a network as it is on your CPU.



*SAM automatically installs the newest virus definition files.*

### Key features of SAM 4.0:

- **Virus detection & repair** – Eliminates viruses, repairs infected files.
- **Proactive prevention** – Scans for viruses during idle time. Monitors all user and system activity.
- **Automatic virus updates** – Automatically dials Symantec's bulletin board system and installs the newest virus definition files.
- **Scans more compressed file types** – SAM scans for viruses in more types of compressed files than any other program.

**SAM 4.0 Upgrade**

# Microsoft FoxPro 2.6

**NEW VERSION Faster than ever!**

Only $99!

*Microsoft® FoxPro 2.6® is a high-performance relational database that will help you be more productive. And the latest version is faster than ever and offers Power Macintosh support, too! FoxPro users will find easy access to features. FoxPro even lets you customize your database with fonts, colors, pictures—even sound!*

## Check out some of the great NEW FoxPro 2.6 features:

**NEW *Power Macintosh Support* -**
Provides even faster FoxPro performance than ever on your Power Macintosh computer.

**NEW *Catalog Manager* -**
Lets you manage tables, screens, reports, labels, queries, and programs easily—from a central location.

***Accomplish all your database tasks with FoxPro Wizards!***

- ☆ Screen Wizard: Helps you build screens easily.
- ☆ Report Wizard: Lets you create reports automatically.
- ☆ Mail Merge Wizard: Makes it easy to send FoxPro data to your word processor.
- ☆ Table Wizard: Makes table definition a snap.
- ☆ Query Wizard: Simplifies the creation of database queries.
- ☆ Label Wizard: Provides 85 label formats so you can create labels quickly.

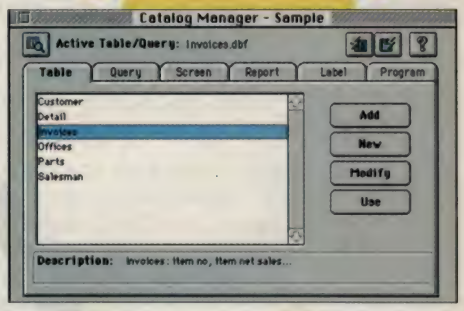
***Rushmore™ Query Technology* -**
Allows you to zip through thousands of records per second for faster data querying, reporting, and editing, even when multiple users access the same data.

***AppleScript™, Apple Events, QuickTime™, and OLE Support* -**
Lets you easily exchange and share information with other applications.

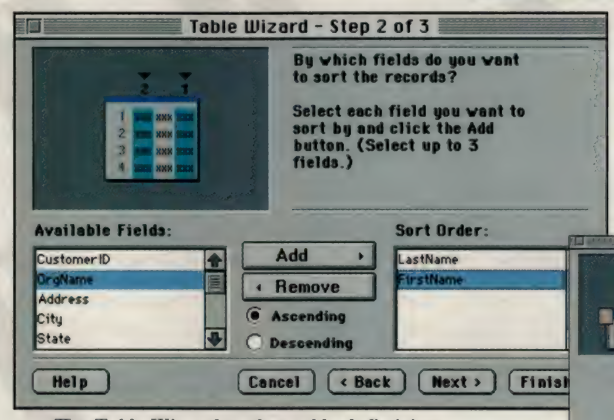
***Cross Platform Capability* -**
Permits you to share data and run applications between Macintosh and Windows computers.

*Mac requires: 68020 processor or higher; 4MB RAM (8MB recommended); 9MB hard disk space (26MB for full installation); 1.4MB hard disk; System 7.0 or later.*
*Power Mac requires: Power Mac 601 or higher; 8MB; 10MB hard disk space (27MB for full installation); 1.4MB hard disk; System 7.1.2 or later.*

**Microsoft®FoxPro 2.6®**
*DAT 0135* *Only* $99

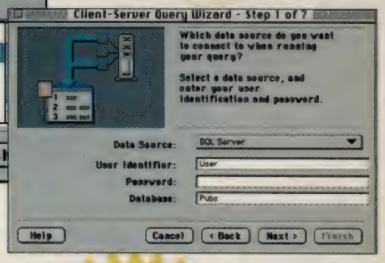


*The Catalog Manager makes it easy to keep track of all your database elements, from screens to tables to programs.*



*The Table Wizard makes table definition simple to save you time and effort.*

*The Client-Server Wizard guides you through connecting to the backend server.*



## For the database developer... *FoxPro 2.6 Professional Edition*

*Upgrade for Only* $295*

*FoxPro 2.6 Professional Edition has a complete set of development tools for creating sophisticated database applications or executable files. FoxPro's Client-Server Wizard makes it easy to set up client-server relationships. Distribute your finished applications, programs, and executables to individual users—they don't need to run FoxPro, and there are no royalties to pay. The Professional Edition also lets you access enterprise data from a number of servers, including Microsoft SQL server, SYBASE SQL server, and other ODBC data sources.*

**FoxPro 2.6 Professional Edition Upgrade**

*Current FoxPro users can get the additional development capabilities of FoxPro Professional Edition. Simply mail or fax us a photocopy of the title page of the user's manual or the original program disk to qualify.*

*Requires: 68020 processor or higher; 4MB RAM (8MB recommended); 9MB hard disk space (26MB for full installation); 1.4MB hard disk; System 7.0 or later.*

# Dynamic Color Rendition from

## ScanMaker III

**The most advanced Microtek scanner ever!**
**36-bit color single pass high resolution scanner**

The ScanMaker III is Microtek's most sophisticated color flatbed scanner ever! It is packed with a wealth of features to produce high-quality color scans with lifelike, vibrant colors, superior detail, and extra-sharp clarity. Each ScanMaker III comes with DCR, a technology patented by Microtek for achieving accurate color calibration and correction. It scans in 36-bit color, capturing and outputting images up to 12 bits per RGB color channel. This results in more precise color gradations, detailed highlights and rich shadows, accurate midtones, and full photographic dynamic range. And with its 12-bit grayscale mode, the ScanMaker III also reproduces up to 4096 levels of gray for more dynamic B/W or line art scans. It delivers sharp image-quality scans because of its high resolution. In a quick, single pass, the ScanMaker III samples image data at optical resolutions of 600 x 1200 dpi, which can be enhanced through software interpolation to a maximum of 2400 x 2400 dpi. All this and a low price make the ScanMaker III the most affordable solution for quality color scanning. **Includes full version Photoshop.**

## ScanMaker IIHR

**High-resolution made affordable!**
**24-bit color up to 2400 dpi scanning**

Microtek is proud to introduce the ScanMaker IIHR to its family of products. The ScanMaker IIHR is ideal for professionals who require detailed color images for output to high resolution printers. The ScanMaker IIHR captures brilliant 24-bit color, 8-bit grayscale and single-bit line art as well as halftone scanning. It includes DCR, Microtek's propriety color correction/calibration system that safeguards against color shifts and ensures optimal color interpretation of the scanned image. The IIHR has a true optical resolution of 600 x 1200 dpi, with a maximum dpi of 2400 (software interpolated). The IIHR has the capacity to scan documents or images up to 8.5" x 13.5" and is ideal for high resolution printing of black and white images or for enlarging very small originals. All these great features make the ScanMaker IIHR an affordably priced, high resolution color flatbed scanner! **Includes full version of Photoshop and Caere's OmniPage Direct 2.0 for OCR.**

*IIsp shown with optional Transparency Adapter*

## ScanMaker IISP

**Fast, single pass 24-bit color scanning**

ScanMaker IISP is Microtek's new single-pass flatbed scanner that features Dynamic Color Rendition, (DCR) the most accurate color matching system available for desktop color scanners. DCR is a color calibration application that creates a custom color profile for each individual IISP scanner and ensures that the color that the scanner scans matches the color of the original image. It captures and converts original line art, graphics, photos, and text into superior quality images at resolutions up to 300 x 600 dpi (1200 x 1200 dpi software interpolated). In a 24-bit color mode, it captures your images in up to 16.7 million colors. Also scans in 8-bit grayscale, 4-bit grayscale, and single-bit B/W. ScanMaker IISP comes with Microtek's advanced DCR color calibration kit. It's one of the most accurate color matching system available for desktop scanners, ensuring the color your individual IISP scans matches the original images. ScanMaker IISP also includes a built-in SCSI interface for easy connection. The ScanMaker IISP is a total image editing and OCR scanning solution **with Adobe Photoshop LE and Caere's OmniPage Direct 2.0 for OCR.**

# Microtek brings color scans to life!

## ScanMaker II

**Professional-quality color scanning at an affordable price!**

Economical, high-performance color scanning is here! The ScanMaker II captures vivid 24-bit color images and 8-bit 256 shade grayscale at resolutions up to 300 x 600 dpi. (1200 x 1200 dpi software interpolated) And scanning has never been easier — with ScanMaker's Plug-in for Adobe Photoshop, Automatic Contrast Control, and Display Matching System, you'll get great-looking scans effortlessly on the very first try! ScanMaker II **includes Photoshop Limited Edition and OmniPage Direct 2.0.**

## ScanMaker IIG

**256 grayscale scanner now includes OmniPage Direct 2.0 for OCR!**

You'll find the ScanMaker IIG one of the most competitively priced flatbed scanners around! The ScanMaker IIG scans text and images in 1-bit, 4-bit and 8-bit grayscale modes in resolutions up to 300 x 600 dpi optical and 1200 x 1200 dpi with software interpolation. It is ideal for scanning black and white or color images in 256 shades of gray for page layout or other image applications. It is designed to capture and enhance detailed line art, logos, photographs or text files for OCR applications for word processing, database, spreadsheet, or page layouts. The ScanMaker IIG features powerful error detection and self-diagnostic functions to maximize operating convenience. **The ScanMaker IIG comes with Caere's OmniPage Direct 2.0.**

## How DCR Works

The DCR system safeguards against color shifts and ensures optimal color rendering of the scanned images. Only Microtek flatbed scanners include an IT8 reflective color target and calibration/correction software. DCR is a color calibration application that creates a custom color profile for each individual scanner and ensures that the color that the scanner scans matches the color of the original image. With DCR, you get accurate and predictable color without significant post scan processing or color correction.

### Add the Automatic Document Feeder and scan up to 50 pages unattended!

Now you don't have to stand over your scanner while working with lots of documents! Just add Microtek's Automatic Document Feeder for smooth, unattended scanning of up to 50 pages.

### Scans all your transparencies with Transparent Media Adapters!

Microtek's Transparent Media Adapters (TMAs) virtually double the power of any ScanMaker flatbed color scanner. While operating in a Mac or Windows platform, it's easy to capture consistent, high quality color, grayscale, or B/W scans from transparent media as small as 35mm or as large as 8" x 10".

## *Plus FREE online services!*

SENDS & RECEIVES

**TWICE as fast as 14,400 bps modems!**

### Mac&Fax Sportster 288

**Features:**

- 28,800 bps data transmission
- 14,400 bps fax
- Fast file transfer
- Quick remote control response
- Hardware-based error control and data compression
- Plug n' play simplicity

### FREE!

**Valuable online services including:**

- ✔ Prodigy®
- ✔ CompuServe®
- ✔ America Online
- ✔ ImagiNation™
- ✔ Reuters Money Network
- ✔ GEnie®
- ✔ FarSite®

Save on phone and online charges with the Mac&Fax Sportster 288! The Sportster 288 sends and receives data **twice as fast** as a 14,400 bps modem. Because the Sportster supports true ITU-T V.34 *and* V.FC data transmission, you can connect to **all** 28,800 bps modems at 28,800 bps. And the Sportster 288 is fully backward compatible with all earlier ITU-T/CCITT and Bell standards. Get superior e-mail and file transfer performance with any communications software.

The Mac&Fax Sportster 288 includes hardware-based V.42/MNP 2-4 error control and V.42 bis/MNP 5 data compression for throughput up to 115,200 bps. The external Sportster has seven LED status lights, a built-in speaker with volume control and settings buttons on the bottom of the case. It also incorporates on-screen help and comes with an easy-to-follow installation guide.

MACWORLD MW ★★★★½

One working reference for all your applications!

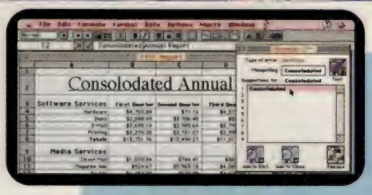
## Thunder 7 1.5

**The Universal Power Tool**
**For The Writer - Or For Anyone Who Writes!**

You'll never need another spelling and word use utility for your Mac, with Thunder 7 at your side. Specifically designed to be compatible with most applications and desk accessories, you get everything you need to write without fear of error to slow you down.

**Checks You As You Work**

Thunder 7 comes complete with spelling and thesaurus capabilities, as well as an exclusive Shorthand Glossary™ and an indispensable Ghostwriter™ feature. Thunder 7 monitors and corrects spelling as you work, or all at once, it's up to you. Provides punctuation and capitalization checking, custom user & specialized dictionaries. Includes extensive definitions dictionary, thesaurus, and 1.4 million synonyms, and antonyms with comparisons and related words. Use Shorthand Glossary to short-cut to multi-used words and phrases with a keystroke.



*Trash your separate dictionaries and save disk space with consolidated spell-checking.*

**Protection Against Loss**

Thunder 7's Ghostwriter records all of your keystrokes to disk, even when you don't save. With Ghostwriter, a power failure or system crash need not destroy your work – even if you've forgotten to save it. Recovering your typing will be as easy as opening a text file. So when the power fails, and things go down, don't lose your mind or your work! Your key–work is automatically recorded by Ghostwriter! "Thunder 7 is the first product in a long time that not only does what it's supposed to do, but does what it says it will do as well,"...says Guy Kawasaki, noted Mac Guru. "One of the 13 work-smart utilities you can't live without," MacUser June '93.

Tack index cards to your computer screen!

## Corkboard 1.5

Corkboard 1.5 is a revolutionary and organizational tool. Perfect for doing research, developing a story, brainstorming, or just keeping track. Using index cards literally tacked on your screen, Corkboard lets you mix text, pictures, and even QuickTime movies to view and organize your entire project. Included is a full-function, multi-level outliner which provides a traditional top-to-bottom view of the same information. Searching, sorting, and category features let you link cards together and quickly locate vital information. Print an outline or directly to 3" x 5" index cards. **An absolute must for any writer and especially students!** Imports and exports to Final Draft and other word processing programs.

Write the screenplay of your dreams!

MACWORLD MW ★★★★

## Final Draft 3.0

NEW VERSION!

If you are currently a screenwriter or have dreamed of writing a screenplay, you need Final Draft, the number one choice among Hollywood's professional writers. Specifically designed for writing movie scripts, TV episodes, and stage plays, it's the only program that combines powerful word processing with professional script formatting in one self-contained, easy-to-use package. There is no need to learn about script formatting rules—Final Draft automatically formats to film industry standards. Scene numbers, MORE's and CONTINUED's, a built-in character list, and floating note windows are just a few of the features that make it easy enough for the novice, yet powerful enough for the most demanding professional. The only thing you'll need to write like the pros are ideas! "Finally, a product that does the job. Simple, intuitive and complete, Final Draft is a joy." —Harry Anderson, star of TV's *Dave's World.*

***Requires: Mac Plus or higher; 2MB RAM; System 6.02 or later.***

An excellent way to polish your style

## Correct Grammar 3.2

Correct Grammar 3.2 proofreads your documents. Whenever it spots a potential error, it highlights the passage and suggests a correction. Compatible with System 7, it supports Aliases, Drag and Drop, and Balloon Help. It finds mechanical errors such as spelling, punctuation, or capitalization, plus usage errors, grammatical errors, and incorrect sentence structure. You can check specific portions of a document on the Clipboard. Correct Grammar lets you design your own rules for custom writing styles beyond the nine styles included. It supports most Mac applications and any text-only document.

## READ-IT! OCR PRO 5.0

**STOP WASTING TIME! NEVER RETYPE ANOTHER DOCUMENT. GUARANTEED!**

NEW VERSION!

READ-IT! 5.0 has set a new standard for OCR technology with great new features found in no other OCR application! And it's so simple to use—just scan the document and the new READ-IT! PRO 5.0 handles the rest! OCR technology of the past merely recognized columns. But READ-IT! 5.0 has specialized tools allowing you to recognize tables, lists, grids and more! Just select the table you want to read, and choose your settings. Get columns, characters to separate columns, or even specify a format in each column. Or have READ-IT! select these settings automatically. And with READ-IT!'s Field Tool, you can now select page areas and a special format for them (zip code, price, phone number—whatever!). The beauty of READ-IT! OCR 5.0 is that it seamlessly integrates the case of use of all its automatic settings with the convenience of manual settings when working with more challenging documents. A couple of minutes setting a few easy options eliminates hours of tedious, manual corrections to the "automatically" recognized page formatting. Stop wasting time! Order READ-IT! Pro 5.0 today!

Translate with your Mac!

## Language Assistant Series™ for Macintosh

Now you can translate English or foreign-language documents quickly and easily with the Language Assistant Series for Macintosh. The Language Assistants are great for translating letters, faxes, e-mail messages, and other correspondence. Plus, each Language Assistant gives you powerful reference tools for instant help when writing, translating, and studying. The Language Assistants use sophisticated expert system technology to translate text from English to the foreign language, or vice-versa. You can translate documents either automatically or interactively. In interactive mode, the programs work with you to resolve ambiguities and improve translation quality. The Mac version preserves WordPerfect, Microsoft Word, MacWrite, and Claris Works formats so you can easily translate existing documents. You can even create and edit documents with the Language Assistant. A complete suite of reference tools helps you refine translations and improve your language skills. On-line bilingual dictionaries provide quick translations of words and phrases. You can customize the dictionaries by adding new words and phrases or by modifying existing entries. Grammar help gives you instant answers to your language questions. You get examples and explanations for a wide variety of topics. Plus, each Language Assistant includes complete conjugations for over 3,000 foreign verbs, so you can easily find the correct conjugation for the trickiest irregular verbs. Get the international advantage with the Language Assistant Series!

Powerful new version!

## QuarkXPress 3.3

Unequaled design flexibility and more color/graphics support make QuarkXPress 3.3 the choice for design-intensive page layout. Create variable-shaped text boxes—even circles and polygons. Version 3.3 adds spot colors imported from EPS files to the Colors list and incorporates Toyo and DIC spot-color inks. Import JPEG and PCX graphics directly into Quark documents. Apply shading to gray elements of grayscale TIFFs, de-select all active picture and text boxes by pushing a button, and more...All with QuarkXPress 3.3!

***Requires: 4MB RAM; System 6.0.5 or higher.***

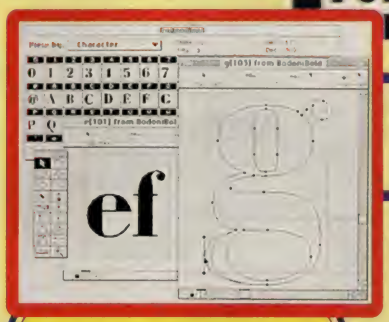
The easiest way to modify & create fonts!

## Fontographer 4.1

UPDATE!

Fontographer® 4.1, the latest version of the award-winning font editing and creation program for the Macintosh contains 15 new features and enhancements. Now, it is easier than ever to create customized typefaces or add signatures or logos to your existing PostScript® language Type 1, Type 3, or TrueType™ fonts. Two new tools includes Perspective tool, which applies 3-dimensional rotation to 2-dimensional objects, and Arc tool, which creates outer, inverted, closed, or open arcs. Available for both Power Macintosh and regular Macintosh. (Runs accelerated on Power Macintosh and at normal speed on regular Macintosh)



*Create new fonts from scratch with precision drawing tools!*

Create spectacular type effects

## Pixar Typestry 2.1

UPDATE!

Pixar Typestry 2.1 is powerful RenderMan software designed especially to create dimensional type. It's easy to use with a friendly 2D interface—but produces amazing 3D effects. With Pixar Typestry, you can convert fonts, logos, or Illustrator designs into objects. Then move, scale, rotate, stretch, warp, and extrude them. Other sophisticated features include editable bevels; tubes for neon effects; rubber sheets that warp text on flags and spheres; photorealistic appearances; custom looks from PICT and TIFF files; lights, shadows, environments, fog particles, and other effects; perforations that let you cut objects from other objects; projections and gels; motion blur; improved animation interface; and much more. With Pixar

## Image Processing

The break-through tool for graphics professionals

### Specular Collage 2.0

NEW VERSION!

Specular Collage is the new image composition tool for graphics professionals. Manipulate and combine multiple hi-res files in real time without a lot of RAM! Each image remains a separate object, even after it's been blended with others. Change the layering of your images at any time. Choose from a rich selection of effects, like automatic drop shadows, feathering, or Photoshop plug-ins. Move, rotate, or scale an image and its effects move with it! Use the page-layout features like guides, rulers, alignment controls, and image grouping to create stunning imagery. The high-resolution composite is rendered after the layout is complete, so nothing interferes with your creativity. Collage is the perfect companion to Photoshop.

*Now supports CMYK and can handle images up to 54" x 54"*

## PhotoMatic

PhotoMatic allows you to save time and money by automating repetitive tasks within Photoshop. It gives you the ability to record a list of Photoshop functions for a file and have PhotoMatic apply them to an unlimited number of images. It watches what you do as you click your way through Photoshop. When you're done, it writes the script for you and saves it in an AppleScript-compatible format. You can even edit the scripts if needed! Run scripts in the background, foreground, or on a remote Macintosh.

***Requires: System 7.0 or later; Adobe Photoshop 2.5.1 or later.***

**DRI 0917**
*Publisher:* DayStar
*Suggested Retail:* ~~$229~~
**$199.95**

## ColorMatch

Color correct images for consistent WYSIWYG results with ColorMatch, the complete color solution. Includes display calibration, color correction, and preview software which operates within Adobe Photoshop and QuarkXPress. ColorMatch's extensions allow you to color correct for output or display as often as needed, with no loss of quality...all with a simple push of a button! Based on the Kodak Precision Color Management System (KCMS), DayStar's ColorMatch combines high-end technology with an easy-to-use "push button" interface.

***Requires: System 7.01 with QuickTime; System 7.1 or higher; Adobe Photoshop 2.5.1 or later; QuarkXPress 3.2 or later.***

Infinite textures!

## TextureScape 1.0

Amazing new product from Specular, the makers of Specular Collage, Infini-D, and LogoMotion! TextureScape lets you create an infinite variety of 24-bit textures on your Mac. Lets you control every aspect of your texture. Import any PostScript outline as a basis for your pattern. Layer multiple textures on top of each other for incredibly rich effects. Since it's PostScript-based, it can create textures of any size or resolution (up to 4000 x 4000 pixels!). Every texture it makes can be seamlessly tiled! With TextureScape, an infinite number of textures is yours for less than the average cost of a single CD-ROM of images. Not only can TextureScape do high-resolution textures, it also creates stunning movies! Create animations of textures morphing between each other. These make stunning backgrounds for desktop presentations and broadcast video!

Now supports color scans ★★★★½

## Ofoto 2

If you use a scanner, you need Ofoto. Ofoto is the award-winning scanning software that *automatically* and *accurately* matches a scan to an original. Ofoto Version 2 now supports color scanning and features highly advanced capabilites. Using Adaptive Calibration, it matches images to your specific output device – so you don't have to fix them with an image-editing program. Common problems with photographs such as poor focus, under or overexposure, and color cast are automatically corrected. Ofoto 2 also features improved sharpening, highlight/shadow adjustment, midtone brightness control, monitor calibrations, background scanning, and an improved user interface. It can even do RGB-to-CMYK separations of color images, saving you thousands of dollars in outside pre-press costs. Plus, you still get automatic straightening, moire elimination, precision line art, rotation and scaling, and other features that made Ofoto a winner!

***Requires: Mac Classic II, LC, SE/30 or higher; 2MB RAM; 2MB disk space (5MB or more preferred); System 6.07 or higher.***

## DrawingSlate

DrawingSlate is the THIN graphics tablet powerful enough for the most demanding graphics applications—graphics arts, CAD, animation, you name it! It has the high accuracy and resolution most often associated with larger and more expensive tablets. At only about 1/8" thin, it can be used on your lap, or filed away when you're finished for the day. DrawingSlate uses a cordless "pressure-pan" that translates each subtle hand movement into the creative commands your software understands. Zip through repetitive drawing tasks and key strokes using the 18 macro buttons. Choose from three active-area sizes: 6x9", 12x12", or 12x18". DrawingSlate is easy to use, it's affordable, and it comes with a lifetime limited warranty. All tablets include pressure-sensitive pen.

**DrawingSlate 6x9**
**INP 0315** **$199.95**

DrawingSlate™

Unlock your teenager's creative potential!

## Aldus® Art Explorer™ with FREE Type Twister

Art Explorer is designed for 9-14 year olds who have outgrown beginning graphics programs and want to explore, create, and have fun with a more challenging graphics program. Features include hundreds of exceptionally high quality fun and unique images - background scenes, stamps, stencils, and zany characters - for unlimited creative possibilities. The stamps and stencils in this great program are neither too child-like nor too business-oriented, and the powerful set of paint and draw tools are easy-to-access. Kids can even design greeting cards, comic books, games, personalized stationary, newsletters, party invitations, homework projects, and much more.

3D rendering and modeling made easy!

## Alias Sketch! 2.0

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

NEW VERSION!

New Low Price!

Alias Sketch! 2.0 for both Macintosh and Power Macintosh has been greatly enhanced with over 50 new features that make working in 3D even easier for the creative professional. Power Macintosh modeling, rendering, and redraws have shown up to 500 percent speed improvement. Version 2.0 provides an interface that is familiar to users of Adobe Photoshop and Illustrator, offering them powerful new 3D modeling and rendering capabilities. An impressive new list of features includes lofting/skinning, sweeping, surface, and curve butting, bevels, polygon models import/export, and Alpha channel support. Also included is Alias Sketch!Net for distributed rendering and Alias Render!Q for batch file rendering. As an added bonus, an extensive library of 3D models and textures on a CD is also included. Sketch! works with applications such as Adobe Photoshop, Dimensions, Illustrator, Fractal Design Painter, Electric Image, Infini-D, and Pixar RenderMan. It supports industry standard formats including DXF, IGES, RIB, PICT, TIFF, and EPS.

TERRY GREENOUGH, 1993
Alias Sketch! Version 2.0 lets you use intuitive 3D illustration tools to achieve stunning photorealism.
TD DOUGHERTY, 1993

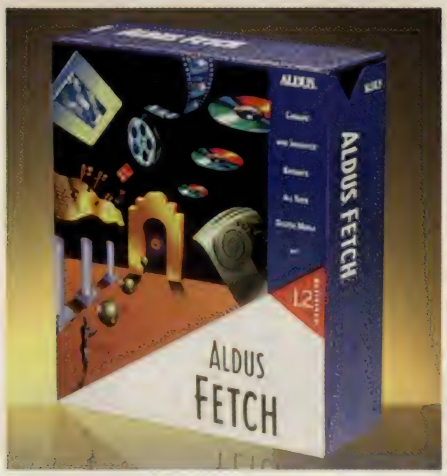
## Aldus FreeHand Version 4.0

NEW VERSION!

Aldus FreeHand 4.0 for the Macintosh combines professional design, illustration, and production tools into one innovative software program. New key features include multiple pages in multiple sizes, linking of text blocks, automatic copyfitting, seven new floating palettes, plus the ability to drag and drop colors from palettes right into a design. With these and many other enhancements, Aldus FreeHand complements your creativity, giving you a customizable workspace for doing extraordinary work. And it's a great partner to Aldus PageMaker, the world leader in professional publishing software.

***Requires: Mac II or higher; 8 MB RAM.***

*Drag and drop colors directly from the color and tints palette right into any FreeHand design.*



Cataloging, browsing and retrieval

## Fetch 1.2

NEW VERSION!

Aldus Fetch simplifies the task of storing and accessing sound and art for multimedia productions, desktop publishing, and presentations. Drag and drop to catalog a file, folder, or volume. Catalog all your clip art, photos, sounds, QuickTime movie clips, scanned images, and drawings and store them in a common visual database. Search for items by keywords, or browse through miniaturized images. Find and sort subsets for quick perusal. Copy, preview, play, print, place, or open files with any editing application. Search for files on your hard disks or CD-ROM drive (including Photo CD). Fetch supports a broad mix of file formats.

Leading 3D illustration package

## Ray Dream Designer 3.0

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

**"By far the best modeling & rendering value around."... *MacWorld*, August, '93.** Ray Dream Designer handles the details — lighting, shadows, transparency, reflections, and perspectives — automatically. Easy to learn, thanks to the Modeling Wizard who walks you through creating 3D shapes. Use the familiar pen tool in the Bezier-based Modeler. Just push, prod, and twist the same familiar Bezier curves you know from your favorite drawing program. Next, brush on brilliant colors, wild patterns, and extraordinary textures. Every brush stroke conforms to even the most complex object.

***Requires: Any color Mac; 5MB RAM; System 6.0.5 or later.***

## Adobe Dimensions 2.0

NEW VERSION!

Create 2D Bezier paths and type directly within the program with the new Adobe Dimesions™ 2.0. Simply draw your profiles or type and edit to your heart's content, then extrude, resolve, bevel and manipulate your 2D artwork into simple 3D objects and effects. Adobe Dimensions automatically generates shading based on the lighting, view angles, surface properties and colors you select. Adobe Dimensions renders in PostScript™, so editing, scaling, and manipulating your 3D objects in your 2D drawing program is easy. Fully compatible with Illustrator, FreeHand and Canvas, as well as PageMaker and QuarkXPress.

***Requires: System 6.05 or higher; 2MB RAM (4MB RAM for System 7.0)***

Upgrade to Painter 3.0 for *as low as $99!*

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

Now includes Painter X2

## Painter 3.0

Fractal Design Painter turns your computer into a virtual canvas! Painter 3.0 has more than 50 new features and incorporates a refined user interface, multiple floating selections, multimedia and animation tools, and enhanced creative and compositing tools. The all-new Image Hose is a paint brush that substitutes a series of graphic elements for traditional dabs of paint—every brush stroke "sprays" a series of user-defined images. Use the new Gradient Composer to create color ramps to apply linear, sweep, or circular, radial, spectral and sepia tone gradients to an image. And with Painter 3.0's built-in support for QuickTime, (and Video for Windows), you can apply any of Painter's painting or image-editing tools and effects to movies frame by frame.

1993 MacUser Editors' Choice Awards Winner

★★★★½

3D/CAD

The best new computer-aided visualization software of 1993 by the editors of *MacUser Magazine*…

## Virtus WalkThrough Pro 2.0

NEW VERSION!

The "hands down winner" of design programs is now Power Mac Native! This interactive, extremely intuitive 3D modeling program is perfect for:

- Architects, Facilities Planners, and Interior Designers exploring "what if" scenarios by rendering 3D objects, structures and entire environments then *flying* within and around your creations!
- Directors and Set Designers for arranging props, blocking shots, adjusting focal lengths, and story boarding your ideas by viewing the scene through the eye of the camera *from any perspective*.
- Graphic Designers taking the next step into multimedia by incorporating text, graphics and QuickTime Movies into exciting 3D environments.
- Home Users visualizing your design or remodeling ideas by creating, decorating, and walking through your home before hiring expensive designers or contractors.

New features include gouraud shading and a variety of interface enhancements. Also includes The Virtus Player, a royalty free publishing program that allows you to share your models with other computer users!

***Requires: Mac II or later; 8MB free RAM; System 6.04 or later.***

**GRA 0904**

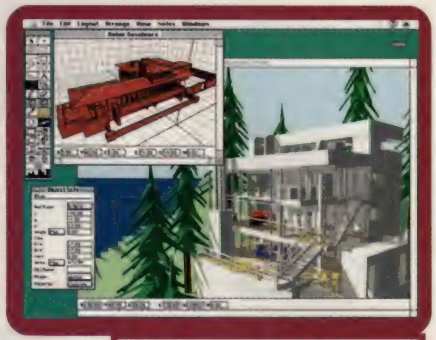
A breakthrough in 3D modeling for designers

## DesignWorkshop

NEW!

DesignWorkshop brings you a new paradigm in modeling with design-oriented three-dimensional direct manipulation. For the first time, the familiar click-and-drag MacDraw interface has been extended into three dimensions, allowing designers to create intuitively in 3D, unencumbered by complex command sequences or abstract projections. A 3D crosshair in a live perspective modeling space provides the basis of this dynamic 3D sketching environment. Objects are created, moved, resized, and reshaped graphically. It's supported by unique perceptual cues that let you accurately align objects in space. The SpaceJump™ function instantly transforms rough 2D positioning into exact 3D alignment. An object info window allows dimensions and coordinates to be input with floating-point precision. DesignWorkshop lets you assemble individualized, integrated design solutions–connecting modeling, drafting and final rendering, integrated contour modeling and structural analysis–while maintaining full Macintosh ease-of-use.



*Dynamic 3D sketching environment*

## Azimuth 2.1

Azimuth 2.1 draws editable maps of any country in the world and all 50 states. It draws in nine projections, including perspective, from any angle or distance,at any scale. You can import text files for detail, plot true circles, customize with symbols, graphics,and layers, even rotate text with CAD-like ease and accuracy. It also exports in EPS or PICT format "...high-performance application that makes some of the best Mac maps around." MacUser, 4/90. Detailed US data available on CD.

***Requires: System 6.02 or greater.***

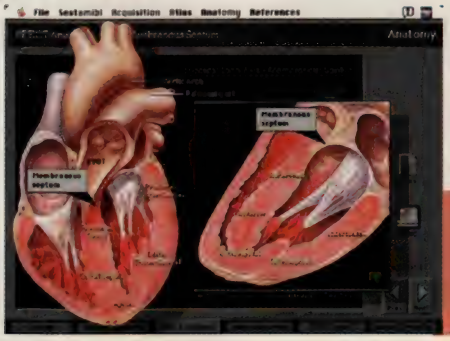
Multimedia authoring tool

## SuperCard 1.7 with FREE Multimedia Utilities

UPDATE!

Develop multimedia applications with an unparalleled level of interactivity with SuperCard 1.7. Its object-oriented interface dramatically speeds application development and eliminates cumbersome techniques used by other authoring tools. SuperCard's new language features make scripting easier than ever, even giving you direct script control over bitmapped and drawn graphics. Create super-smooth animations and simulations. Integrate sounds and QuickTime movies. Easily create applications in the "edit mode", then view and correct them on-the-fly in the "run time mode." Even distribute stand-alone applications that don't require SuperCard to run!

**FREE Multimedia Utilities!**



***Requires: 1MB RAM for b&w; 2MB RAM for color; System 6.04 or later.***

Unique plasticity engine turns images into a rubber canvas!

## Metaflo'

Metaflo' is used by professional ad agencies, photographers, motion picture companies, multimedia/game developers, product designers, aerial photographers & scientists. With it, you can flow, reshape, layer, composite, morph, and animate images without degrading the original image quality! Composite any number of images, each as a separate masked layer. A free form lasso lets you treat each layer or a group of layers as a rubber sheet. Reshape, etc., parts of an image while holding other parts in place (without points or a mesh). Includes unlimited UNDO & REDO even after the file is saved, field rendering, SMPTE time support, ease-in ease-out, morph to a template, resolution independence, transparency & masking controls. Output PICT, TIFF, and QuickTime!

***Requires: Mac II or higher; 5MB RAM (more recommended for professional use); System 6.05 or later.***

## Elastic Reality™ 1.2

UPDATE!

Effects created with Elastic Reality appear so frequently on TV, they're impossible to miss. Pro's use Elastic Reality because it's powerful and intuitive. ER's rich feature set lets you go far beyond stereotypical morphing. Version 1.2's Power Macintosh support delivers 6 times the performance of a Quadra 950. The new freehand drawing tool gives you the precision of Bezier curves with the simplicity of moving your mouse. Don't settle for "toy" morphing products. Get the technology voted Best of Comdex/Spring 1994 and responsible for Emmy® award winning special effects.

***Requires: Mac with FPU & color QuickDraw; 8 Bit display or better; 8MB memory; System 7.01 or later; Quicktime 1.5 or later; Hard disk; Power Mac.***

Morphing made easy!

## Morph 2.5

NEW VERSION!

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

Create morphs from two still images or two animations in no time at all. Morph 2.5 features an innovative Curve tool that makes morphing a breeze. Instead of using numerous points to control your morph, you simply add lines and reshape them into curves. Have fun exaggerating a person's features using the caricaturing feature. The Warping feature lets you distort a single image or two separate images. Morph 2.5 comes with a QuickTime™ movie player so you view your creations right on your desktop. So when you want to make a real splash with your images, use Morph 2.5!

***Requires: Mac II or higher; 5MB RAM; 2MB hard disk space; System 7.0 or later; color monitor.***

## StudioPro 1.5

UPDATE!

Spline-based modeling, RayPainter rendering, and an Event-Based Animation System with special effects like Explode, Shatter, and Atomize make Strata StudioPro the most comprehensive 3D program available. Developed for design and animation professionals, StudioPro has a fully integrated 3D environment including modeling, rendering, and animation. The 3D Sculptor is a spline-based editor which creates object surfaces that are soft and workable like virtual clay. Real-time feedback makes modeling quick and intuitive. Renderings take on a classical look using the exclusive RayPainter technique. Explode, Shatter, and Atomize your models with these "coolest ever" special effects. They're exclusive extensions included in the powerful Event-Based Animation System in StudioPro.

Easy videotape editing

## VideoDirector

Now you can edit your video tapes quickly and easily using your Mac! VideoDirector comes out-of-the-box ready with everything you need to turn your Mac, camcorder, and VCR into a complete videotape editing system. And it's so easy to use. Watch your video...click a button at the beginning and end of the shots you want...drag them into any order...then VideoDirector records the final tape. And the results are great! You can cut out bad shots, trim shots that are too long, and create exciting videos with just the moments you want captured. VideoDirector is a snap to use, yet features many advanced tools such as built-in calibration, single frame advance and reverse, point-and-click markings, graphical Picons, automatic library cataloging of your clips, drag-and-drop editing, storyboard view, and much more.

***Requires: Mac II or higher; 1MB RAM; System 6.07 or later; Video Director requires the following video equipment: A LANC(control-L) compatible camcorder or VCR(including most 8MM or Hi8 camcorders from Sony, Canon, Yashica, Ricoh & others.) and a VCR with a remote control.***

Screen recording utility

## CameraMan 2.0

Make a full-color movie of whatever's happening on your Macintosh screen. CameraMan records all screen activity in real-time to a QuickTime or PICS movie. Then use your screen movies in multimedia, presentation, and QuickTime packages. It's ideal for training, demos, and education. CameraMan can record and play back full-size movies of the full screen or any portion of it. Just hit a user-definable key combination to start screen recording, and another key to stop. With the new CameraMan Edit module, you can add as many soundtracks as you like to your movie. QuickTime and MoviePlay (a movie editing and playback application) are included FREE so you can get started quickly and inexpensively.

***Requires: Any Mac; 2MB RAM (4MB recommended); System 6.07 or later. QuickTime users require: Mac II family; QuickTime 1.1 or greater (included); 32-bit QuickDraw 1.2 or greater (built-in to System 7.0).***

The video software anyone can use

## Avid VideoShop 3.0

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

VideoShop 3.0 makes it easier than ever for anyone to create awesome digital movies and videotapes. Making a movie in VideoShop 3.0 is a snap. The built-in recording module lets you use any AV Mac, Power AV Mac, or QuickTime capture board. To create a movie, simply drag and drop video or audio clips into the Timeline for powerful cut, copy and paste editing functionality. To polish your movies, VideoShop 3.0 provides over 200 dazzling digital filters and transition effects such as morph. VideoShop's unique layering and layout feature allows you to layer an unlimited number of video and graphics tracks. An intuitive canvas interface allows you to position each element, re-size to any shape, and define motion to "fly" segments across a path to create stunning special effects. Create anti-aliased titles and scroll them across the screen and take advantage of the instant full resolution preview of your movie for WYSIWYG editing. VideoShop comes with a CD-ROM full of royalty-free clips, free telephone support and a 60 day money back guarantee. No other video software allows you to work as quickly, easily, or intuitively as the new improved VideoShop 3.0.Plus, VideoShop 3.0 includes a *Free copy of Specular International's LogoMotion 1.5, a $109.95 value.

***Requires: Any color Mac; 4MB RAM; 40MB disk. Power Mac for acceleration.***

*Catalog Windows in PhotoFlash 2.0 make it easy to organize and find photos by examining images saved in industry-standard file formats.*

The most effective way to catalog your photos!

## PhotoFlash 2.0

NEW VERSION!

Apple® PhotoFlash™ 2.0 software quickly and easily catalogs and enhances digital photos, then places them into documents for high-impact results. Using photos on your Mac is easier than you think with PhotoFlash's low memory requirements, accelerated Power Macintosh performance, and image compression that saves disk space. Catalog and enhance industry-standard file formats including PICT, TIFF, EPS, Photoshop®, JPEG, DCS, and PhotoCD™. Add the QuickTake™ 100 camera for a complete instant digital photo solution. Common tasks, such as taking photos and downloading photos to your hard disk, are simplified with exclusive AppleScript™ control of the camera. Find and organize photos quickly using thumbnails (previews) in catalogs. Find photos easily by searching for filename, caption, similar images, or by a sketch. It makes photos picture perfect with previewable photo-enhancement tools that easily remove dust and scratches, adjust brightness/contrast, balance image exposure, adjust colors, and sharpen detail in photos. Place photos into documents in one easy step, even from a catalog. Ready-made scripts are included for PageMaker 5.0®, QuarkXPress 3.2®, Persuasion 3®, Word 6, and FileMaker Pro 2.1®, all of which support AppleScript.

Drag and drop photos from PhotoFlash into applications that support System 7.5's drag and drop. Open photos already placed in layouts in one easy step with the included QuarkXPress XTension and Aldus PageMaker Addition. Easily automate and simplify common tasks with PhotoFlash's full support of AppleScript (includes ready-made scripts for common tasks). Batch process photos for file format conversion or other repetitive tasks using PhotoFlash's Automatic Folder. Add access to scanners, additional file formats, 3rd party filters and special effects through support of Adobe Photoshop plug-in modules.

Digital photography made simple!

## Apple QuickTake 100

Bring digital photography to your Mac! There's never been a faster or easier way to bring the world directly into your computer than with the Apple QuickTake 100. This affordable digital camera needs no film. Use it like your favorite camera to shoot 24-bit pictures instantly. Take either 32 standard-resolution images or 8 high-resolution images at a time. You can even change resolutions at any time! Load the pictures into your Mac by connecting the supplied serial cable into the camera and plug the other end into the printer or modem port on your Mac. Use the included QuickTake software to save your images in PICT, TIFF, or QuickTime formats, and then

Pour video into your Mac!

## Video Spigot NuBus

Video Spigot is a revolutionary digital-video system for making QuickTime movies with your Mac. Capture full-motion video—up to 29 frames per second with 24-bit color—to disk. Video Spigot turns video into fully digital data so you can store it on an ordinary hard disk or removable cartridge.

***Requires: Quadra 700 or 900; Mac II, IIx, or fx; System 6.07 or later; Apple QuickTime version 1.0; 32-bit QuickDraw version 1.2; NuBus Slot.***

Video magic for your AV Mac!

## SpigotPower AV

Realize your full video potential with SpigotPower AV. This phenomenal card captures 16.7 million colors, creating a full color presentation that is on the cutting edge of the multimedia revolution. Designed specifically for CD-ROM authoring and multimedia presentations, SpigotPower AV gives your multimedia presentations that professional appearance you've been looking for. It captures full-screen video at up to 30 frames/60 fields per second with full 24-bit color, giving you unmatched image quality for video that is compressed with Cinepak™. Produce in-house video presentations, or edit off-line "rough cuts" for client approval. And when you're ready, playback the movies in the AV platform's full blazing color. And SpigotPower AV is easy to install. Just plug it into the Macintosh Quadra AV DAV slot or connect to the Power Macintosh AV via the ribbon DAV connector.

***Requires: Quadra 660AV with optional Nubus adapter, 840AV, Power Macintosh 7100 AV, 8100 AV; System 7.1 or later.***

Multimedia controller

## VideoVision System

Integrate audio, graphics, and video to create sensational multimedia presentations with VideoVision. Combines a sophisticated audio/video interface card, an external breakout box for external video and audio connections, and comprehensive software to provide a complete multimedia package. It captures signals from any source (camcorders, videodisc players, etc.) and converts them to QuickTime movies or still images. Allows real-time resizing of a video window without significant loss of resolution, and is compatible with most Apple, Radius, and third-party monitors. With VideoVision, you can use any QuickTime editing application, and output the results through VideoVision to a VCR as flicker-free 24-bit multimedia presentations.

***Requires: NuBus slot.***

## ComputerEyes/RT

ComputerEyes/RT is a low-cost SCSI real-time frame grabber that captures full screen images or movies from any standard video source (VCR, camcorder, laser disk, still video camera, etc.). External SCSI design doesn't take a slot, and is compatible with almost all Macs including PowerBooks, SE/30, Classic II, all LCs, and all other color Macs. It captures full screen 24-bit color images in 1/30th of a second and saves standard files or QuickTime movies. Compatible with all graphics programs–desktop publishing, presentations, QuickTime editing, image databases. Perfect companion to Fujix FV-7 Photo Imager!

## TV Scan

Mac/PC TV Scan from Computervideo Enhancements will turn your PowerBook or compatible desktop Mac into a powerful multimedia presentations machine. It's perfect for corporate, government, and educational classroom training. No more lugging heavy and awkward equipment to your presentation site. With TV SCAN, your PowerBook in your briefcase, and any available TV/monitor, you're ready to present! TV SCAN works with all software applications and has the professional features required for viewing and recording quality presentations to video tape in real time. Advanced filtering minimizes dot crawl, color shift, and bleeding, resulting in a superior quality image. Supports millions of colors, composite and S-video outputs. Selectable proprietary flicker reduction allows viewing to TV/monitor without annoying flickering. Underscan and overscan selection with picture squeeze and digital controls for vertical and horizontal picture centering. Amplified RGB loop-thru output for simultaneous viewing on PowerBook screen and VGA, SVGA, and multisync monitors.

***Requires: PowerBook 160, 165, 165c, 180, 180c, 500 family; Duo with VGA video capable dock; all LC, Centris, Quadra, or Performa family with video output connector to monitor. Any PC/compatible with VGA/Windows 640X480 Capability. Not compatible with built-in video of the Mac IIci, IIsi, IIvx, or LC and Performa 500 family.***

Everything you need to make movies and take pictures!

## QuickCam

NEW!

Connectix QuickCam is the first affordable, easy-to-use digital video and still camera for the Mac. QuickCam uses direct digital imaging techniques to create grayscale QuickTime movies and still pictures to 320x240 pixels. Use the images you create in the programs that come with QuickCam, or add your movies and pictures to thousands of other Macintosh applications. Add video to your training materials. Send mail with video. Video conference with a co-worker. Add photos to your documents or brochures. Grab a starter image for Photoshop. You supply the talent and QuickCam will do the rest. And installation is easy—just plug in one cable, insert the disk, and click on the installer. Seconds later, you're ready to create your first movie or take your first picture. No need to take apart your computer, set switches, or purchase additional hardware or software. Best of all, QuickCam works on all QuickTime compatible Macs and connects to any free serial port. Join the digital video revolution—add QuickCam to your Mac today!

***Requires: Mac II or higher; 4MB RAM; System 7 or later; hard disk to store movies; color or gray scale monitor.***

Connect your Mac to any TV

## Presenter Plus Mac/PC

The compact Macintosh presentation solution! The Presenter Plus turns your Macintosh into an incredible presentation machine. Easy plug-and-play external hook-up makes group presentations much more efficient and certainly less expensive. Print to videotape so others can share your presentations. Forget carrying heavy equipment to your presentation, that's history. Why dim the lights? That's for overhead projectors. So with your PowerBook and the Presenter Plus in your briefcase, use any TV available and you're ready for that Academy Award-winning performance. Use the Presenter Plus for Mac when your presentations count. And now, Presenter Plus comes with a FREE Electronic Marker. Make annotations on your documents and presentations just as easily as you would mark up an overhead transparency. With just a keystroke, Electronic Marker turns your cursor into a marker icon – thereby allowing you to draw on top of screen data, while leaving your actual file unchanged.

FREE! Electronic Marker

## Desktop Presentations

MacUser– ★★★★½ "Best Presentation Program"

The ultimate multimedia presentation package!

## Astound with Free QuickFLIX!™

QuickFLIX! makes adding QuickTime movies to your Astound presentations fast and easy. An inexpensive movie-making tool for Mac users, QuickFLIX! makes building "real" QuickTime movies for business presentations a simple process. QuickFLIX! contains all the software you need to produce your own movies including digitizing, editing, basic special effects, sound editing, titling, layering, and motion control. After you've produced your QuickTime movies, add them into your Astound presentations to get the ultimate multimedia experience! Astound is an easy-to-use presentation package for creating slides, overheads, and speaker's notes. It also lets you create dazzling on-screen presentations combining sound, animated charts, and QuickTime movies. Astound features built-in text editing and drawing tools, and a lengthy list of transitions. An automatic charting feature lets you enter data directly or subscribe/import that data from other sources to create pie, chart, line, and other graphs. Astound imports Persuasion and PowerPoint files, and includes distributable runtime players for Macintosh and Windows.

Become a better manager

## ManagePro 2.0

ManagePro, the award-winning software tool for managers, is now available for the Macintosh. *InfoWorld* wrote that ManagePro "...may be the single most important software package written for managers since the advent of the PC." The reason? ManagePro helps you become more organized, achieve your goals, and manage your people more effectively with three powerful, yet easy-to-use integrated tools. Plan, delegate, and track with Goal Tools. Track progress, plan coaching and conduct reviews with People Tools. Take action using to-do lists and calendars with Action Tools. Have all your goals and people information in one place! Enter information in simple spreadsheet-style planners. ManagePro automatically creates: to-do lists; color-coded goal and People and Goal Status Boards; time-lines; reports; and day, week, month, and year calendars.

The Windows version has already won: **"Top Product of the Year"** *PC Week Labs*; **"Best of 1992"** *PC Magazine*; **"Win 100"** *Windows Magazine*; and **"Best Business Application Tool: Word or Text Based"** *Software Publishers Association*. Order ManagePro 2.0 for your Mac today!

***Requires: Color Classic or better; any PowerBook except 100; grayscale or color monitor; System 6.0.5 or higher; (System 7.x required with SE/30, Macintosh II, IIx, and IIcx); 4MB RAM; 5MB hard disk space. Supports standard network environments.***

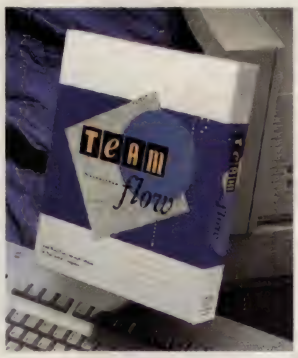
NEW!

TeamFlow 3.1 provides a complete set of tools for the professional needing to design, manage, and communicate a process—work process flowcharts, Gantt charts, and org charts — all in on easy-to-use package. Use the flowchart to organize the team members responsible for each step of the process. Drag and drop process elements to line up under the team members who are working on them. TeamFlow shows you at a glance who is responsible each step of the process. Process flow arrows tie the process elements together to show the flow of information between process steps and between team members. Enter cost and schedule data—TeamFlow does al the earned-value and roll-up calculations and automatically generates Gantt charts. Attach any on-line document by clicking on its icon on the process flowchart. Seamlessly share files between Macintosh and Windows versions. TeamFlow was created by TQM professionals for TQM professionals.



***Requires: 2MB RAM; 1MB hard disk space; System 7.***

Bar code in color!

## Bar Code Pro 2.0

Eliminate the expense and hassle of ordering service bureau film negatives. Bar Code Pro 2.0 creates EPS or PICT graphics for you to place directly into page layout programs like QuarkXPress, PageMaker, or Word. Now in color, it's the ideal solution for generating bar codes for package design, shipping, tracking, inventory, publishing, or any other bar code application. *Macworld* says Bar Code Pro "installs in under 60 seconds and takes less than 5 minutes to master."

The expert way to make smart business decisions with your personal computer

## DecisionMaker

DecisionMaker offers an easy approach to making hard choices. In just minutes, you can examine even the most complex choices confronting your business, and then determine the best course of action. Simply enter information about various options to make up your decision. Slider controls let you effortlessly change expected probability so it's easy to look at any number of "what if" scenarios. It even lets you tailor your analysis to your own "risk attitude." DecisionMaker guides you step-by-step through the entire decision making process with buttons, menus, and dialogs. It's intuitive interface makes it easy for both beginners and experts to apply powerful analytical techniques to almost any type of strategic or tactical problem. DecisionMaker employs the same sophisticated decision analysis methods taught in leading business schools and hundreds of corporations.

## Informed Manager 1.4

Informed Manager is designed for people who work on a day-to-day basis filling out and processing forms created with Informed Designer (part of Informed Foundation). Tab quickly through the cells. Use pop-up windows of often-used data, so you can fill in a cell with the click of a mouse. Easily copy over data from other forms error-free and without retyping. Or access information from databases such as FileMaker Pro with System 7 and AppleScript. As the form is filled out, each entry is checked and you're notified of any errors. Then, when the form is complete, sign it and "mail" it to others in the company.

## Bulk Mailer 4.1

Bulk Mailer gives you a complete mail list package. It has the power of a mini-database program, yet is as easy-to-use as a simple template. Bulk Mailer includes incredible filtering and sorting options, too. Among the many mailing list features is a sophisticated duplication elimination (it will even show you close calls), over 25 available address and sorting fields, mail merge, import/export, POSTNET barcoding, and global editing. Plus, ZIP+4, alpha, CAR-RT, and other sort options. Use 1, 2, 3 or 4 across label formatting with up to 8600 names per list. Templates are included and it supports all printers. Also, with its Layout Editor you can design your own labels or report formats. Get the best postal rates and save money.

Plan your travel and your schedule!

## ROUTE 66 with FREE Claris Organizer

NEW!

ROUTE 66 is a trip planner that will determine the best route to your destination, along with estimated travel time, fuel requirements, and more! Just input your travel preferences: interstate highways versus secondary roads, shortest distance versus scenic roadways, etc., and ROUTE 66 will establish the best route for your trip. ROUTE 66 will even plan alternative routes so you can avoid traffic jams! ROUTE 66 lets you view your entire trip or enlarge particular sections. When the planning is done, print out maps and written directions so you won't get lost along the way. And when you reach your destination, your Claris Organizer—included FREE—will help you keep track of who you are meeting and when. Your exported files from Claris Organizer will link to the map. Claris Organizer integrates your calendar, contacts, tasks, and notes in a single, compact application. Features an alarm function to remind you of important dates and appointments, and prints in popular paper-based organizer formats (DayTimer, DayRunner, FiloFax, etc.) so you can have a hard copy of your contacts, phone lists, and schedules. ROUTE 66 with FREE Claris Organizer—the ultimate travel and schedule planning duo! Order today!

Contact management software for your network

## FastPace Instant Contact

NEW!

**Fast, powerful, professional contact management software that runs on our network, and makes it easy to standardize and centralize your contact information to efficiently produce mass mailings, sales call lists, and other routine contact oriented communications. Delivers instant control of up to 50,000 names** each with 2 addresses, 10 phone, fax, and e-mail numbers, automatic date, time, and user ID stamping for over 15 pages of notes per contact, 16 customizable fields, and unlimited ways to tag and categorize records. Powerful list management features let you search, sort, merge, purge, and reconcile multiple lists. Includes a remarkable built-in word processor for printing professional quality letters, fax covers, envelopes and labels with or without zip bar codes, address books and more! Just drag and drop contacts between files to keep everyone updated. Experience the gains of a client-server architecture!

All-in-one personal organizer

## ClarisOrganizer

NEW!

ClarisOrganizer seamlessly integrates your calendar, contacts, tasks, and notes into one compact application. With Claris's DataSense™ technology, all your information is linked; drag and drop contact names and addresses to link them with meeting dates or project tasks. Because ClarisOrganizer incorporates printing support for popular paper-based organizers, you can easily add a hard copy of your schedule, customer list, or phone list to your DayRunner, DayTimer or FiloFax. Never again forget a birthday, anniversary, or doctor's appointment thanks to ClarisOrganizer's alarm function. Use ClarisOrganizer to jot down project notes, keep track of new product ideas, marketing strategies, and more. Smart Find feature lets you search through your data with "plain English" search strings. Built-in and pre-defined Avery label formats provide easy label printing from your ClarisOrganizer lists.

## Personal Information Management

Fast and easy contact management

### Now Contact 3.0

NEW VERSION!

Now Contact 3.0 is a fast and easy way to manage and share your contacts. This major upgrade makes keeping track of the people in your life even easier. Now enhanced for workgroups! Entering new contacts is hassle-free using AutoType™, which suggests entries for you as you type, greatly reducing data entry. Keep your most important contacts available even when Now Contact isn't running by attaching them to the QuickContacts™ pull-down menu. Create great looking printouts using built-in templates for address books, envelopes, labels, listings, faxes, and form letters. Ideal for individuals or workgroups of any size , Now Contact lets you share contacts others create and maintain, like "Company" Employees," "Customers," or "Vendors." You can also share contacts you've entered while keeping important information private. Now Contact also keeps a complete history for every contact, linking with the award-winning Now Up-To-Date calendaring system to make sure you never type anything twice.

8-in-1 Business Graphics!

### ClarisImpact 1.0

Creating and using business graphics has never been easier than with ClarisImpact! Think of this brand new integrated application as ClarisWorks for graphics—it allows non-artists to *automatically* create a wide variety of business graphics, including organizational charts, time lines, tables, flow charts, data charts, and calendars. ClarisImpact's full-featured word processing and presentation capabilities allow you to seamlessly combine these "smart" graphics into final presentations or reports—all in one integrated package! The Power Macintosh version of Impact is 3-5 times faster than a Quadra 700 in everyday operations from text handling to resizing graphics. This added speed allows you to integrate even more of ClarisImpact's sophisticated business graphics into presentations and reports without sacrificing performance.

JMP gets even better!

### JMP Version 3

JMP Version 3, the most powerful, easy-to-use statistical visualization software for the Macintosh has a multitude of new features to help you better explore your data! JMP still offers the same features that made it a winner in the realm of statistical software for the Mac—features like dynamic linking, extensive statistics, quality control features, and import, export, and journaling capabilities. JMP Version 3 takes you further with all-new features: integrated design of experiments capabilities, survival analysis, cluster analysis, ternary plots, contour plots, tear-off menus, QuickTime movie support, graphical paired t-tests, support for AppleScript, new contour charts, and the list goes on and on with new tools, data table features, and statistical features.

## KaleidaGraph 3.0

An enhanced interface, more colors and System 7.x support are among the myriad new features of KaleidaGraph 3.0, a graphing tool which provides the most powerful visual displays of quantitative information available in the Macintosh environment. Develops accurate journal quality graphs that mathematically transform even the most complex data into elegant but functional graphical displays. Use formula entry or the programmable calculator to manipulate large amounts of data (32,000 points per column). Sixteen graph structures are provided for plotting up to 20 variables with precise yet flexible control of statistical functions and data display elements. New features include: direct import for Excel files, 64 colors on an editable palette, and independent upper and lower error bars. Stores up to 16 user-defined curve fits for use on a single plot and extrapolate curve fits to the axis limits.

The fastest way to organize your finances!

## Quicken 5

NEW VERSION!

Quicken is the fastest, easiest way to organize personal and small business finances. And it's the world's #1 best-selling personal finance software! Quicken tracks it all—checking, savings, credit cards, investments, loans, and more. This new version includes the Quicken Financial Calendar, QuickFill improvements, an Iconbar, Tax Planner, Financial Forecast, and Quicken Quotes (stock prices).

- Easy to Use—Since Quicken looks just like your paper checkbook, you'll feel comfortable right away—there's nothing new to learn.
- Saves You Time—Quicken prints checks, pays bills and reconciles your bank account in less time than it takes by hand. Quicken remembers your bills and enters them for you.
- Helps Plan Your Future—Plan for retirement, your children's college tuition, buying a home, refinancing a mortgage, or even a big vacation with Quicken's financial planning tools.

***Requires: 2MB RAM for System 6; 4MB RAM for System 7 or later; Hard disk; Modem required for Quicken Quotes; Runs on Power Mac systems.***

**FIN 0251**
*Publisher:* Intuit
*Suggested Retail:* ~~$69.95~~
**$34.95***

** For previous Quicken users only: Price reflects manufacturer's $10 mail in rebate. Price before rebate is $44.95. Offers expire December 31, 1994.*

*Quicken makes it easy to schedule and view recurring transactions easily.*

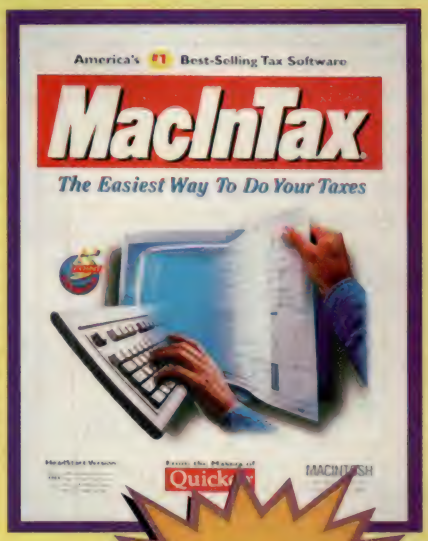
The easiest way to do your taxes!

## MacInTax

NEW!

Now preparing your taxes can be easier, faster, and more accurate than you ever thought possible. MacInTax gives you all the forms and help you need, guarantees the calculations are accurate, and walks you through the entire tax preparation process–step by step. The unique TaxAdvisor system is always available in MacInTax to give you tax advice at the touch of a button. And SmartAudit, (another SmartTalk exclusive) performs a final review to make sure you have all the necessary forms and your numbers are calculated correctly. It even alerts you to items that might flag an audit and points out deductions you may have missed. Registered Headstart users will receive FREE final version MacInTax with final IRS forms.

***Requires: Mac Plus or higher; 2MB RAM.***



For fast, easy, and more accurate tax preparation use MacInTax!

## Peachtree Insight Accounting for Macintosh

Peachtree Insight Accounting for Macintosh gives you the power to see beyond the numbers. Formerly the Insight Expert Accounting Series, all five Insight modules are now included in a single package for one low price. This accounting system is ideal for small businesses searching for a comprehensive, full-featured accounting system. It is packed with all the functions you'll need for an aggressive accounting program – General Ledger, Payroll, Inventory, Accounts Receivable/Billing, and Accounts Payable. The modules can be installed separately or used fully integrated. And Insight's unique Expert Reports allow you to analyze and interpret accounting data. The reports let you spot potential problems before they become critical, as well as providing strategic management.

Get a stronger will

## WillMaker 5

Newly updated WillMaker 5 for Macintosh now includes two important new modules—a living will and a document of final arrangements. WillMaker's easy-to-use interview format takes you through each document step-by-step, asking questions in plain English. Context-sensitive on-line help also follows you through the process and addresses the specific laws of your state so you aren't left unprotected. With WillMaker 5, you can easily update your will at any time. And you can create wills for all your loved ones—saving $100's, even $1000's in legal fees. *The New York Times* says, "WillMaker makes estate-planning almost fun."

***Requires: MacPlus or later with 1MB RAM; hard drive; System 6.0.4 or later.***

Run Windows software on your Power Mac!

## SoftWindows for PowerMac

Run Macintosh and Windows software on the same desktop with SoftWindows. Until now, you had to choose the computer that could run the most critical software, often available only in MS-DOS or Windows PCs, even if it meant you couldn't have the best computer for the things you want to do. SoftWindows adds a fast, networkable PC to your fast Macintosh, so you can run any software you need. It enables your Power Macintosh to run Microsoft Windows and MS-DOS applications at speeds of up to 486 SX PC. Run spreadsheets, databases, and electronic mail. SoftWindows provides complete Windows support including networks, printers, and even CD-ROM! Best of all, you don't have to give up the benefits of having an easy-to-use Macintosh to coexist with PCs. Microsoft Windows 3.1 and MS DOS 6.21 come pre-installed.

Power Macintosh Required!

## Business Communications

*Avoid re-typing! Convert your existing files with Word For Word.*

The ultimate conversion program!

### Word For Word 6.1

NEW!

Mastersoft brings you their award-winning document conversion program–Word For Word. Converts all the files in your folder with just a click of the mouse, automatically generating new file names for the converted documents. Converts over 100 different DOS, Windows, and Macintosh word processing, spreadsheet, and data formats while retaining all the formatting features of the original document. Converts character highlighting, paragraphs, tabs, footnotes, columns, headers, footers, and more! Word For Word also converts graphic images contained in many Macintosh, DOS, and Windows applications. There are over 14,000 possible conversion combinations in this program that converts up to 3 pages per second! Includes Macintosh Easy Open Software that allows you to translate files by simply dragging and dropping them on the icon. *MacUser* magazine raves "a straight forward program...clean and easy to understand."

Track revisions with ease!

### DocuComp II 1.07

An amazing aid to the revision process, DocuComp compares one file against the other and identifies *every* change. The comparison window displays both documents and allows you to scroll through them in synch, while showing every change along the way. Jump automatically from one change to the next with both cursors always pointing to the corresponding text. With DocuComp, you never lose your place. DocuComp allows you to combine two documents in order to make a composite document summarizing and highlighting every change. It offers many additional customizing options, allowing you to create the composite document that suits your needs. DocuComp even allows you to compare documents created in two different word processing programs!

## Communications

E-mail for corporate workgroups

### Microsoft Mail 3.1

Microsoft Mail 3.1 combines new user conveniences with more efficient network operation. It allows multiple file attachments, with or without network administrator-imposed limits. Create personal address books, define groups, and create custom message folders. A dial-in utility lets you access files via modem. Client caching and push notification reduce network traffic and speed up operation. Send any open Word 4.0, Excel 3.0, or PageMaker 4.0 (or later versions) document directly from within the application. Gateway support lets network managers add users from other mail systems without individual directories.

***Requires: Mac 512K or higher; LocalArea Network (AppleTalk, EtherTalk or compatible).***

*Publisher:* Microsoft

Improved networking flexibility

### AppleShare 4.0

AppleShare 4.0 boosts server performance up to 3 times that of version 3.0, for up to 150 connected users. It features flexible security features, shared file storage for up to 30 active network users, and queued access to up to five network printers. Users of Macintosh and MS-DOS/Windows computers can have access to the same documents. Allows users to continue to work while their documents print on networked printers.

***Requires: Centris 610 or higher; System 7.1 or later. Supports System 6.0.7 or later and MS-DOS/Windows with appropriate software and interface card.***

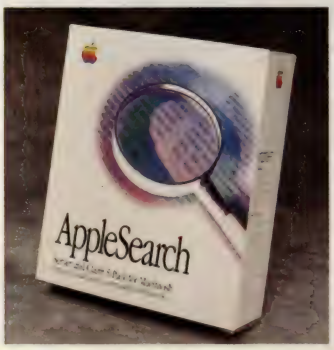
Text search and retrieval for workgroups

### AppleSearch



AppleSearch races through documents to find what client users need, delivering information in a customized, newspaper-like format. It can process multiple on-demand or scheduled search requests. Users simply activate "Reporters" (electronic search agents) with a click and type a description of what they're looking for. Any document stored in a server is available for shared access; new documents are indexed automatically. No conversion is necessary — leaves documents stored on the server in their original format.

***Requires: For AppleSearch Server: Any Mac with 68040 microprocessor; 8MB RAM for AppleShare 3.0, 12MB RAM for Apple Share 4.0, or 16MB RAM for AppleShare Pro. For AppleSearch Client: Mac with 4MB RAM; System 7.0 or later.***

## FAXstf 3.0

Attention fax modem owners! Faxing from your Mac just got better. Whether you're using a prior version of FAXstf software, or a competing software product, you'll want to take advantage of all the new features FAXstf has to offer. Standard features include background sending/receiving faxes; multiple fax phone books; monitor transmission progress with FaxStatus DA; broadcast faxes to multiple destinations; select the number and interval of attempts to send faxes; schedule faxes for later transmission; view received faxes on-screen; create your own custom paper sizes; and create your own custom cover pages. NEW features in Version 3.0 include: Grayscale printing support; combine command allowing you to combine existing fax files to create a new fax; include option to send existing faxes with new ones; STF Manager application with new user interface; and Activity Log for tracking and filing fax activities. The fully integrated import capability makes it simple to build a fax phonebook using data exported from your database or spreadsheet files. You can also export received faxes to PICT, TIFF, or compressed TIFF format. For fax modems with call discrimination, the new Line Manager determines call type and automatically hands off calls intended for Apple Remote Access. Plus much more!

***Requires: Mac Plus or higher; 2MB RAM; hard disk; System 6.0.7 or later.***

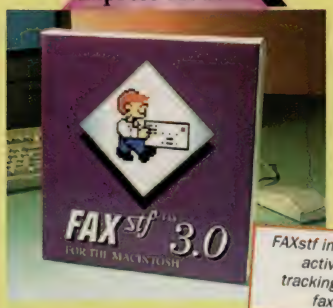
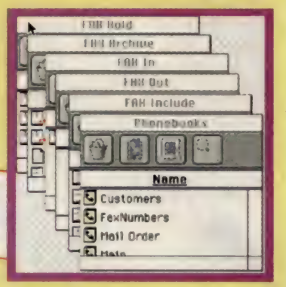
**$85.95**

FAXstf now supports Apple Express Modem!





*FAXstf incorporates activity logs for tracking and filing fax activities.*

Add-on convenience for your FAXstf 3.0 software

## STF AutoPak

STF AutoPak features 4 great add-ons for FAXstf 3.0 software that further simplify all your fax operations. STF AutoOCR and STF AutoPrint automate optical character recognition and printing, respectively, of faxes as they're received or at a scheduled time. STF AutoOCR retains fonts, sizes, and styles of recognized text and includes both French and German character libraries. The STF Background Imaging Utility reduces the time you spend waiting for faxes to print because it converts the file to fax format in the background. And the STF Developer Kit contains externals and object libraries that let you automate the generation and transmission of faxes from a database.

***Requires: Mac SE/30 or higher; 5MB RAM; 6MB available hard disk space; System 7 or later; FAXstf 3.0 software.***

## ZOOM VFX 28.8

Zoom's V.FC™ modems provide a blistering 28,800 bps uncompressed data transmission speed that dramatically reduces your phone costs. Supports V.42bis, V.42, MNP 10, MNP 2-5 and includes extended status reporting with 15 indicators. V.FC™ offers a number of superior performance features a higher connect rate than V.32bis, fast handshaking and automatic fallback to slower speeds. Includes seven year ZOOM warranty, Fax STF full-featured, Microphone LT data software and a high-speed serial cable.

**MOD 0180**
*Suggested Retail:* ~~$319~~
**$189.95**

## Zoom Voice VFX 14.4V

Zoom's new VFX 14.4V Voice/Fax Modem significantly improves upon basic fax/modems and answering machines. Voice features include recording and playback of voice messages, automatic line switching between fax and voice calls, remote retrieval of messages, multiple private mail boxes, customized mail box greetings. Fax features includes scheduling of faxes for transmission at lower phone rates and creation of custom cover pages. Fax and data features include 14,400 bps data and fax with V.42bis, V.42, MNP 10 and MNP 2-5. Voice/fax and datacomm software and high speed cable included.

**MOD 0168**
*Suggested Retail:* ~~$269~~
**$149.95**

## ZOOM VFX V.32bis

The Zoom VFX V32bis fax/modem top rated by computer shoppers offers excellent performance at a low price. The VFX V.32bis provides 14,400bps uncompressed data communications with V.42bis, V 42 and MNP 2-5. Fax STF full-featured fax software, Microphone LT data software, a high speed serial cable and ARA scripts round out this great package.

**MOD 0109**
*Suggested Retail:* ~~$229~~
**$129.95**

## Zoom PKT 14.4

Mobility and power at your command. Send and receive data and faxes at 14,400 bps while on the road. Uses power adapter (included) or 9-volt battery. Package also includes FAX STF full featured, Microphone LT, and ARA scripts. Weighs 4.8 oz. and has 4 status indicator lights.

**MOD 0149**
*Suggested Retail:* ~~$279~~
**$199.95**

## Power User 14.4/14.4 v.32bis Fax/Modem

The Power User 14.4/14.4 is 50% faster than a 9600 bps V.32 modem and 6 times faster than a 2400 bps! Uses the latest CCITT standards (V.32, V.42/V.42bis, MNP 5) to send and receive both faxes and data at the highest possible rates. This unit sends/receives faxes at 14,400/14,400 bps, with full Group III compatibility. Also transmits data at 14,400 bps, automatically negotiating the optimum rate with the other modem, yielding a data throughput up to four times the base rate. Features auto-dialing, auto-answer, auto-fall-forward and fall-back, auto-speed selection and last number redial. Stores 4 sets of telephone numbers and 2 configuration settings. Indicator lights and Fax Status let you monitor your transmissions. Includes phone cord, AC adapter and manufacturer's one-year warranty. Comes with Delrina FaxLite™ software.

**MOD 0116**
**$109.95**

*Comes with Delrina FaxLite™ Software!*

## Power User 96/96 V.42bis Fax/Modem

The Power User 9600 bps lets you connect with any Group III fax machine worldwide with 9600 send/receive transmission. Plus, it includes a 2400 bps Hayes-compatible modem to transfer files, access databases or bulletin boards or download software. Software includes features such as receiving faxes in the background, routing received faxes to printers, broadcasting faxes to multiple destinations, scheduling transmissions and more. Comes with Microphone LT communication software and Delrina FaxLite™ software.

**MOD 0176**
**$79.95**

## Power User 96/48 Fax/Modem

The Power User 96/48 is an external fax/modem that combines a 9600 bps send/4800 bps receive Group III fax with a 2400 bps Hayes-compatible data modem. Other features include broadcasting, scheduled transmissions, phone directory and more. Comes with Microphone LT communication software and Delrina FaxLite™ software.

## Hayes OPTIMA™ 288 V.FC™+ FAX for MAC

This modem has it all! Transfer over a MB of data a minute, speeds up to 230,400 bit/s. V.FC modem supports 28,800, 14,400, 9,600 bit/s and lower speed data and 14,400 and 9600 bit/s FAX. Supports error-control (V.42 and MNP 2-4) and data compression (V.42bis and MNP5). Free Smartcom for the Mac and Smartcom FAX for the Mac communications software, as well as modem cable. You don't even have to know anything about the modem you are calling. OPTIMA 288 V.FC + FAX practically operates without you! Creates the most efficient combination of speed, error-control and data compression whenever you use your OPTIMA modem.

High performance fax/modem

## ACCURA™ 144 + FAX144

Hayes ACCURA 144+FAX144 fax/modem features V.32bis 14,400 bit/s for dial up operation; up to 57,600 bit/s throughput with V.42bis data compression; and 14,400 bit/s send/receive fax transmissions. Error control and data compression features protect your data and improve transmissions. Smartcom for the Mac data and fax software and cable included.

The complete business communication center!

## Power User 14,400 Data/Fax/Voice Modem

The Power User 14,400 Data/Fax/Voice modem combines a 14,400 bps fax/data modem with a sophisticated voice messaging system to give you a complete communication center at an exceptional price! The data modem offers support for V.32bis for 14,400 throughput, V.42bis and MNP-5 for data compression and error correction. This great product also sends and receives faxes at 14,400 bps. It even handles fax and voice calls on the same line, eliminating the need for additional phone lines. Includes MaxFax fax/voice software and communications software.

***Requires: Mac Plus or higher; hard disk drive; System 7.***

True V.34 is here and U.S. Robotics has it!

## Mac+Fax Sportster 288 V.34

NEW!

Save phone and online time charges—send and receive data twice as fast as with a 14,400 bps modem. Supports true ITU-T V.34 and V.FC data transmission—connect to all 28,800 bps modems at 28,800 bps! Fully backward compatible with all earlier ITU-T/CCITT and Bell standards. Get superior e-mail and file transfer performance with any communications software—includes hardware-based V.42/MNP 2-4 error control and V.42 bis/MNP 5 data compression for throughput up to 115, 200 bps. External Sportster has seven LED status lights, built-in speaker with volume control, settings printed on bottom of case. Displays help screens on your computer. Easy to follow installation guide included—FREE!

Valuable online services include:

**Remote Access**

The ultimate remote access server!

## LanRover/E 3.0

NEW!

LanRover/E 3.0 is the only remote access server to provide true multi-protocol support for dial-in, dial-out, and LAN-to-LAN connectivity. LanRover/E delivers a complex remote access solution for Mac and PC users requiring access to Novell NetWare, TCP/IP, and AppleTalk. This means that network managers do not have to dedicate remote access servers to specific LAN protocols. Only LanRover/E delivers this functionality for protocols over a single phone number. Users can access the LanRover/E over the network in order to dial out to on-line information services such as CompuServe®. LanRover/E will automatically connect users to the first available port in order to minimize wait. LanRover/E is a cost effective dial-up routing solution allowing 2 or more LAN's to be connected over analog or digital phone lines. It uses industry standard PPP transport to route AppleTalk, IPX, and TCP/IP network traffic simultaneously over a single dial-up link. The LanRover/E provides central or remote management for multiple servers, using any Mac or PC, and even allows you to safeguard your network with a multiple security options. Per Port ARA License is included.

Extend your Mac or PC network

## NetModem/E 1.5

The NetModem/E 1.5 extends your Mac or PC network by providing dial-in access for remote users, shared dial-out for LAN nodes, and network-to-network routing over ordinary phone lines. Remote users dial-in to their AppleTalk LAN (Netware or NetBEUI for PC users) for access to all LAN resources such as file servers, e-mail, and printers. For workers already in the office, the NetModem/E can be used like a standard modem, via the LAN, for dial-out to on-line services such as bulletin boards. And two NetModem/Es can be used to connect two geographically separated LANs over standard phone lines to form a WAN on demand. NetModem/E contains a 14,400bps modem for data transfers up to 57,600bps. Enhanced NetManager software, included at no extra charge, allows all configuration, security and management tasks to be performed either centrally or remotely.

Mobile access server for AppleTalk networks!

## DaynaLINK

NEW!

The next generation of network access servers is here! Based on PCMIA technology and RISE processing, DaynaLINK™ is the most powerful, modular platform ever designed for remote and mobile clients. It supports up to 8 internal PCMCIA modems, thereby eliminating stacks of equipment and bulky cables. It even allows remote Macintosh users to dial into the Mac LAN – extending the LAN's reach to wherever the mobile user goes. Powerful, yet user-friendly, DaynaLINK includes SecuriKey™ Console Software, the "key" to easy setup and management.

The award-winning GraceLan Family of software

## GraceLan Network Manager

Network Manager is ideal for identifying and solving network problems before they become big hassles by identifying system and memory problems, incorrect application versions, problem peripherals and much more. Allows network managers to gather end-user system information across AppleTalk networks in real time without disrupting network users and services. Comprehensive system details can be quickly and easily collected from all Macintoshes, PCs, printers, and other devices (i.e. routers, gateways, etc.) Network managers can create custom reports—saving them in print or even setting them to run on their own schedules automatically. Change Reports saves time and effort in determining what is new or different from scan to scan. Filter on any field or combination of fields in any view format.

**NET 0405**
*Publisher:* Techworks
*Suggested Retail:* ~~$795~~
**$449**

## GraceLan Server Manager

Network administrators can now monitor, control, and administer multiple AppleShare file servers from one remote location. Server Manager gives you absolute remote control of your AppleShare servers. You can set user access privileges, passwords, Users & Groups, and notify users across the network when the server is going down. Server Manager's alarm system even notifies you of problem situations so you can take action to avoid or solve those problems. Server Manager runs in the background so administrators don't have to dedicate a Mac to server management.

**NET 0376**
*Suggested Retail:* ~~$395~~
**$229**

## GraceLan Update Manager

GraceLan Update Manager is a flexible tool for updating, distributing, and installing software across an AppleTalk network. Use it to build "intelligent" file packages that function as if the administrator were installing them manually on each user's machine. Update packages are transferred to the user's computer in the background, without interrupting their work. Minimum system requirements may be set for software updates so the update packages are sent only to those who have enough memory, disk space, etc. Update Manager's unique package tracking system notifies the administrator which users received each package and the status of that package. Keep everyone compatible, current, and legal by remotely installing applications, INITs, files, and drivers—what could be easier?

Network management made easy!

## Network Troubleshooting Starter Kits

NEW!

The two Network Troubleshooting Starter Kits (one for Ethernet and one for LocalTalk) are designed for anyone who wants to minimize network downtime or expand their networking expertise. The kits contain a copy of The AG Group's award-winning network analysis software, two instructional videotapes, a textbook, a variety of network management utility software, and written technical tips and aids. The network analyzers, EtherPeek for the Ethernet kit and LocalPeek for the LocalTalk kit, are designed to help you find and fix network problems fast. They work by capturing and displaying network traffic flows in order to facilitate debugging. The two videotapes provide a comprehensive overview of features and applications of the network analyzer and several step-by-step troubleshooting scenarios. The texts provide rich reference material about relevant protocols and conceptual approaches to troubleshooting. These applications have won wide recognition for their innovative delivery of high-powered network analysis information with a colorful, graphical interface.

***Requires: Mac LC or higher (68030 processor or better recommended); System 6.05 or later; color monitor recommended; EtherPeek requires an Ethernet interface.***

## TCP/Connect II Extended

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

NEW VERSION!

InterCon's TCP/Connect II brings the Internet and other TCP/IP networks to your Macintosh desktop. TCP/Connect II includes the tools for your Macintosh to emulate terminals such as the VT52-320; IBM TN3270 and TN3179g. File Transfer Protocol (FTP) and Communications Toolbox technology is supported for transferring files. A Gopher client is included to take advantage of this point-and-click technology. Electronic mail is the most powerful around with a POP client which supports MIME, multi-tiered highlighting, sorting, refilling, and filtering of messages. Inline decoding of attachments is an added feature of our support of MIME. The fully integrated news client also includes inline decoding of articles. And all of this can be accessed over your LAN or remotely using the SLIP (Serial Line Internet Protocol) and PPP (Point to Point Protocol) capabilities.

***Requires: Mac SE or higher; 2.5MB RAM; System 7.0 or later.***

Connect LocalTalk to Ethernet

## AsantéPrint

AsantéPrint is an inexpensive EtherTalk-to-LocalTalk converter. It connects up to two or eight LocalTalk printers or other devices to a high-speed Ethernet network - ideal for mixed environments. It works right out of the box — no switches to set or installation software to load! Network management and security software is included. The management software provides network managers with extensive network statistics for diagnosing performance and error conditions. The security software lets the network manager assign passwords to protect LocalTalk printers from unauthorized or accidental access.

Now PCs "Plug & Play" with Macs

## Coactive Connector

Adding PCs to your LocalTalk network is now as easy as connecting Macs, thanks to the Coactive Connector. In just 5 minutes, your Windows and DOS PCs can begin sharing files and printers with the Macs in your office. The Coactive Connector Starter Kit provides everything you need to connect 2 PCs to an existing LocalTalk network. Just plug the Coactive Connector into the printer port of each PC, connect them with phone cord included, install the software, and you're done! Now your PCs can print to AppleTalk PostScript printers like the Apple LaserWriter. And, because Coactive uses familiar commands, there's nothing new to learn–whether you have a Mac, Windows, or DOS computer. Connect up to 32 computers over 1000 feet. Coactive Connector is also ideal for PowerBooks and other notebook computers because you can connect and disconnect anytime.

***Requires: Mac Plus or higher; System 6 with AppleShare client software or System 7; DIN8 connection.***

Wireless networking

## Photonics COOPERATIVE

Photonics COOPERATIVE is the easiest-to-use and most reliable wireless networking solution available. It gives you instant access to all network resources, just as if you were cabled directly to a LAN. So you can share files, synchronize calendars, use printers, and access e-mail without the hassle of plugging in. COOPERATIVE uses diffuse infrared technology, covering a 25' x 25' area, so there's no need to aim the signal and no worry about blockage. And COOPERATIVE's diffuse infrared is safe and reliable. Set up COOPERATIVE instantly — it requires no software and is plug-and-play simple to install. It works with all AppleTalk/LocalTalk devices including computers, PDAs and printers. Photonics COOPERATIVE wireless networking is perfect for mobile laptop users, conference classrooms and meeting rooms, and shared offices. Create temporary networks anywhere — even in airplanes and portable training areas — with access to network resources and information. COOPERATIVE makes wireless effortless!

***Requires: Mac SE or later; AppleTalk; LaserWriter II or later model.***

The world's #1 Mac connector

## Farallon PhoneNET

PhoneNET, the most reliable LocalTalk network connector, has given over 4,500,000 users worldwide the flexibility to build LocalTalk networks with ordinary wire and standard telephone jacks. The proven reliability of Farallon's quality manufacturing and patented technology has made this award-winning network system the standard for LocalTalk networking.

## Power User Network Connector

The Power User Network Connector enables you to run an AppleTalk LAN over ordinary twisted-pair phone wire. Use off-the-shelf modular phone connectors and cables, or even the unused twisted pair in most phone lines. With Power User Network Connectors, building an AppleTalk LAN is as easy as plugging in phones. It won't interfere with phone operation and includes terminating resistors.

Dayna

## DaynaPORT E/Z

For Macintosh computers without expansion slots available, like the Classic, Portable, or Plus, DaynaPORT E/Z provides a simple solution to connect your Mac to Ethernet cabling. This external connector box plugs into the printer port and communicates at high-speed with the Macintosh processor. Network communications occur at the standard Ethernet rate. All Ethernet cable systems are supported including 10Base-T, Thin- and Thick-Ethernet and fiber-optic cables.

## Asanté MacCon-i Ethernet Cards

The new MacCon-i™ Ethernet cards for NuBus and Macintosh systems are designed with Asanté's custom ASIC chip and based on the MacCon Ethernet card's proven CHAMP™ (Concurrent High-Speed Access with Multiple Packet) technology. The MacCon-i cards use a 32-bit data path and a pipelining technique to maximize CPU efficiency and network performance. The 32-bit data path allows data to be transmitted between the Macintosh and the network at a higher band width, while pipelining allows data packets to be processed simultaneously by the adapter, increasing overall throughput.

Farallon®

## EtherMac™ Cards
## EtherThin™ Adapters
## EtherMac™ MicroSCSI

Choose from Farallon's affordable EtherMac line of Macintosh Ethernet interface cards for 10Base-T, thinnet, or thick Ethernet, for any Macintosh with an available slot. EtherMac cards offer maximum reliability and performance at a price that lets you put every Mac on Ethernet. And they're fully compatible with the leading network software.

EtherThin Adapters offers reliable, easy, and portable thin Ethernet connectivity for PowerBooks and Macs without available slots, and printers.

The EtherMac MicroSCSI offers a low-cost way to connect PowerBooks and Macs to Ethernet via the SCSI port. Connecting is easy, even if your computer has no available slots, so it works with older model Macs as well.

## Sonic's Economical Line of Ethernet Cards & SCSI Ethernet Adapters

Get two Ethernet media on board with the Ether TnT (Thick and Thin Coax) and Ether TwP (Thick and 10Base-T). The Ether A1 (all-in-one) adapters offer three media: 10Base-T, Thin Coax and Thick connections. All Sonic Ethernet adapters are 100% Apple EtherTalk driver compatible and are fully System 7, TCP/IP, DECNet and AU/X compatible. The Ether TwP and TnT adapters are available for the Mac LC family (including the Quadra 605 and Color Classic), the Mac II family and the Quadra family. The Ether A1 adapters have 64K of on-board SRAM for faster transfers and are available for the Mac SE, SE/30, IIsi, LC family, II family, and Quadra family. The microSCSI line offers both Thin Coax and 10Base-T Ethernet connections for PowerBooks and slotless Macs.

## microPrint

Now that you have your Macs connected to Ethernet, what do you do with your LocalTalk devices like printers and modems? The microPrint series of pocket sized LocalTalk to EtherTalk bridges connect LocalTalk devices to the EtherTalk network. For example, microPrint will allow Ethernet users to print to LocalTalk printers such as Apple's LaserWriter, Hewlett Packard's LaserJet 4MP and DeskWriter 550C; Macs on Ethernet can access other shared LocalTalk devices; LocalTalk based Macs can access Ethernet based file sharing and printing services. Three versions are available, all of which are compatible with all Macs from the Mac Plus to the PowerMac: microPrint supports two LocalTalk devices; microPrint+ supports twelve LocalTalk devices; and microBridge TCP/IP supports twelve LocalTalk devices and IP services such as Telnet, NFS, FTP and Internet mail from LocalTalk based Macs.

Introducing Farallon "daisy-chainable" 10Base-T Ethernet!

## EtherWave Products

Farallon has created the industry's first truly plug & play family of "daisy-chainable" 10Base-T Ethernet products. Based on NEW EtherWave technology, it provides the easiest way for workgroups to build, change, or grow Ethernet networks of Macs and PCs. Overcome the frustrations of traditional Ethernet networks, like 10Base-T Hub single device per port restrictions and Thinnet network termination concerns. Now, daisy-chain 8 devices together without a hub, or use EtherWave to daisy-chain additional devices off ports of any 10Base-T hub. A standard 8-port hub can now support over 50 Ethernet devices!

EtherWave Macintosh Adapters and EtherWave Printer Adapters offer a fast and easy means of attaching non-Ethernet devices, including printers, to Ethernet Networks.

# Network Hardware

## Asante NetStacker™ Hub

The Asante NetStacker™ is a two-segment Ethernet® concentrator that integrates the flexible features of a plug and play multi-slot chassis with the convenience and low entry-cost of a stackable hub.

*Manufacturer:* Asante

## NetStacker Base w/Multiport Repeater w/24 RJ45

This upgradable unmanaged stand-alone hub is perfect for starting a departmental network. A base chassis with two 12 port RJ45 Multiport Repeaters provides 24 ports - expandable to 72 ports. Upgradable to SNMP.

***FaxFACTS 139026***

**DEH 1137** $1099

*Suggested Retail:* ~~$1699~~

## NetStacker Base w/Multiport Repeater w/24 RJ45 NS-NMM

A base chassis with two 12 port RJ45 Multiport Repeaters plus NetStacker Network Management Module. When used with SNMP software such as AsanteView Lite, this base provides management features for your entire network.

**DEH 1134** $1599

*Suggested Retail:* ~~$2399~~

## AsanteView Lite Mac

**NET 0530** $299

## NetStacker Expansion Chassis w/Multiport Repeater w/24 RJ45

An expansion chassis with two 12 port RJ45 Multiport Repeaters that stacks on top of either of the base units to double or triple the number of ports in the stack.

**DEH 1139** $1079

*Suggested Retail:* ~~$1649~~

## NetStacker Expansion Chassis w/Two port Bridge Module (AUI, BNC, RJ45) and Multiport Repeater (12 RJ45 ports)

An expansion chassis with a two port Bridge Module (AUI, BNC, RJ45) and one 12 port RJ45 Multiport Repeater. Used in conjunction with the NetStackerBase, this chassis adds 12 RJ45 ports and a powerful bridge that allows you to link your NetStacker network with another network.

Tribe COMPUTER WORKS

## Tribe Link

NEW!

Get all the remote access to AppleTalk, TCP/IP and IPX networks you need with Tribe Link. Macintosh, PC and Unix users can dial in to one server for network access using common telephone lines. Based on the industry-standard Point-to-Point Protocol (PPP), Tribe Link's enterprise-wide solution offers powerful security features, SNMP management and easy use of existing modems. LinkTracker, Tribe's included management software, shows who is currently connected to the server, allows the administrator to disconnect a user, and records the identity of all callers in a log. Tribe offers upgrades to support remote access to Netware services over IPX, shared-modem pooling for dial-out, and LAN-to-LAN routing. Macintosh PPP client software is included.

No Boundaries NO LIMITS

A hot new family of affordable 10Base-T hubs!

## Ether10-T Starlet™ Ether10-T StarController™

NEW!

The Ether10-T Starlet is the easiest, most affordable hub for building a small network or expanding an existing Ethernet network. Available with 4, 8, or 16 RJ45 ports, the Ether10-T Starlet is a platform-independent 10Base-T Ethernet hub that uses plug-and-play technology to connect Ethernet devices in a reliable star network. And network management is easy with "at-a-glance" diagnostic LEDs. Combine with 100% 10Base-T compatible EtherWave to create a network of up to 128 devices.

The Ether10-T StarController has all the premium features of high-end intelligent hubs, without the high-end price. It's the best way to build or expand networks that can be easily managed. It features 12 RJ45 10Base-T connectors. It also offers an interchangeable uplink port (10Base2, 10Base-T, or AUI), so you can link several hubs together to expand your network or connect to a backbone. It includes SNMP management capabilities and Farallon's StarCommand software for complete network management.

Connect from 5 to 96 devices!

## DaynaSTAR Stack Hubs

yes NetWare Tested and Approved

Dayna's flexible, stackable hubs offer the versatility you need to create a 10Base-T network with up to 96 devices. The DaynaStar Stack-12 Hub has twelve 10Base-T ports, while the DaynaSTAR Stack-24 Hub has twenty four 10Base-T ports. Using Dayna's small expansion cable, either model can be stacked in any combination to create a single logical repeater. Both hubs feature a built-in AUI port. Optional transceiver modules are available for connecting the hubs to Fiber Optic or Thin Ethernet backbones. For advanced network management capabilities, Dayna offers a slide-in SNMP Management Module. This module allows you to accurately monitor network traffic and catch network problems before they happen. All this, and a lifetime warranty!

Ethernet performance for every device on your network!

## EtherWave® Transceivers Ether10-T™ Transceivers

MACWORLD MW ★★★★★ best choice for connecting any device with an AUI or AAUI port to Ethernet.

Build a flexible, reliable network with Farallon's comprehensive line of Ethernet transceivers to connect your AAUI deices to either 10Base-T or thinnet networks. Choose award-winning EtherWave to daisy-chain up to 8 devices to 10Base-T. Or choose traditional EtherThin or Ethernet10-T for affordable connections to thinnet or 10Base-T. Farallon offers a great price, lifetime warranty, status LEDs, and more to make these transceivers the

- One single cable for desktop or PowerBook connection.
- Pass through SCSI port.
- Diagnostic LED's indicating power, link, and activity.
- Xircom's Phantom Power Cable replaces AC adapter by using the Macintosh's ADB port. ( Compatible with 10Base-T only)
- Available is 10Base-T unit or combination 10Base-T & 10Base-2 unit.
- *Lifetime Warranty.*

***Requires: Any Mac with a SCSI port; System 6.0.5 or later; Ethernet network.***

A portable Ethernet adapter for any Mac!

## Pocket EtherTalk Adapter

The Xircom Pocket EtherTalk adapter connects any Mac PowerBook or desktop computer with a SCSI port to an Ethernet LAN. The Ethernet/Thin version comes with Xircom's unique Phantom Power Cable that powers the adapter from the ADB port, thereby replacing the external power supply. One single SCSI cable provides connection to either a PowerBook or desktop Mac, and provides a pass through SCSI port for daisy-chaining other SCSI devices.

SCSI-to-Ethernet adapter for PowerBooks

## Asanté Micro EN/SC

Easily connect your PowerBook or slotless Mac to an Ethernet network with the ultra compact, lightweight Micro EN/SC adapter. It plugs directly into your PowerBooks SCSI port and draws power from the ADB port — no additional cable or power adapter is required! Now you can conveniently share files and access database information from any Ethernet network, anywhere! Compatible with all popular network operating systems, System 7, and IEEE specifications.

The PowerBook Ethernet Connection

Ideal Ethernet connection for PowerBooks

## DaynaPORT Pocket SCSI/Link

Designed especially for use with PowerBooks, the DaynaPORT Pocket SCSI/Link is the smallest and lightest external adapter available today for Ethernet networking. Pocket SCSI/Link features an innovative SCSI pass through solution with two SCSI ports, one HDI-30 port and a DB25 port—allowing connection to either a desktop Mac or PowerBook using a single SCSI cable. Three LEDs provide valuable feedback on power, link status, and activity. The Pocket SCSI/Link comes in two versions: SCSI/Link-T with an RJ45 connector for 10Base-T cabling, or SCSI/Link-M with connectors for both 10Base-T and Thin Ethernet. Pocket SCSI/Link-T features PowerMiser™, a cable that supplies power using the Mac's ADB port instead of a power adapter. The Pocket SCSI/Link-M ships with a small, light AC adapter for connecting to Thin Ethernet.

# *Great Savings on the Latest Software Upgrades!*

# upgradewarehouse™

**How To Order Program Upgrades:**

There are two types of program upgrades: a 'Live' upgrade, for customers who own an older version of the program; and a 'Competitive' upgrade, for those currently using a rival program.

Each software publisher specifies proof of ownership for the qualifying products required to order their upgrades. Proof of ownership of qualifying products must be mailed or faxed to us before the program upgrade can be ordered at these special prices.

To order the upgrade of your choice, you can call us now, and we'll give you an order number and instructions for providing us with the necessary proof of ownership. Alternatively, you can complete the MacWAREHOUSE Order Form provided and fax it to us, along with the necessary proof of ownership.

If you want to order by mail, a postage-paid envelope is provided as part of this insert – and you can send us a copy of the proof of ownership at the same time!

All orders for program upgrades will be processed and shipped once we have confirmed your order and received the necessary proof of ownership of the qualifying products.

***Order Upgrades Toll-Free 24 hours a day, 7 days a week by calling 1-800-255-6227, or FAX your upgrade order to 1-908-363-4834.***

## Macintosh Color 14" Display

Featuring 640 x 480 pixel resolution and .26 millimeter strip pitch, the Apple Macintosh Color 14" Display provides a high-quality color display at a truly reasonable price. The 14" screen, powered by a Sony Trinitron picture tube, delivers crisp, clear colors and flicker-free viewing thanks to the 66.7 Hz screen refresh rate. The Macintosh Color 14" Display eliminates "doming" distortion and its high-contrast screen produces up to 16.7 million colors beautifully. Convenient front panel controls and a tilt-and-swivel base let you adjust your display for optimal viewing.

## SuperMatch 17T

The SuperMatch 17T display gives you brilliant color, razor-sharp clarity, and up to 47 percent more display workspace than standard 14" displays. It uses Trinitron aperture grille technology to provide the sharpest image quality possible. All the nuance and detail of your photorealistic imaging is rendered with incredible accuracy – in any of the display's three preset resolutions. At a resolution of 1024 x 768, you'll have plenty of room for spreadsheets and full-page layouts. Image quality is enhanced further with a 75 Hz refresh rate that eliminates flicker and provides a rock-solid image.

## Power User 24-bit Accelerated Video Board

Power User's 24-bit Accelerated Video Board allows work in photorealistic color, on monitors as large as 21". Its Hardware QuickDraw acceleration allows accelerated 24-bit video on most popular monitors and NuBus Macs. Maximum system flexibility and growth is thereby assured. The optional DSP daughterboard includes DayStar's Charger Suites Vol. 1 (vl.5) software. This combination provides efficient accelerated use of Adobe Photoshop, while requiring only one 7" NuBus slot. Additional features include Hardware Pan and Zoom (QuickTime movies may be viewed at two to four times their normal size without a speed penalty), multiple resolution support, and Virtual Desktop. The Power User 24-bit Accelerated Video Board delivers unsurpassed capabilities at significant cost savings. This solution is ideal for high-end graphics users including service bureaus.

## Printers

### Apple Color StyleWriter Pro

NEW!

Features high-performance color ink-jet technology, the Apple Color StyleWriter Pro offers speed and convenience. It prints on plain paper and uses separate cyan, magenta, yellow and black ink cartridges—keeping the per-page printing cost to a minimum. In addition, the Apple Color StyleWriter Pro provides state-of-the-art energy efficiency, complying with the Environmental Protection Agency's EnergyStar guidelines for power conservation. This printer provides excellent print quality and superior color matching—at a price that won't break you!

**$599.95**

High-performance printing at an affordable price

### Apple Color StyleWriter 2400

The Apple Color StyleWriter 2400 provides high-quality color and black and white printing at a very reasonable price. The StyleWriter 2400 offers 360 x 360 dpi resolution for text in crisp black and white as well as vibrant color printing. ColorSync technology ensures accurate color matching from screen to printer. Its compact design and energy efficiency make the StyleWriter 2400 an ideal printer for any home, school, or small business. Since the StyleWriter 2400 uses fast-drying, water resistant ink, you get smear-free, professional output every time. You can print up to 3 pages per minute in black and white, and 0.3 pages per minute in color. You can also network your StyleWriter 2400 over LocalTalk, EtherTalk, or TokenTalk, thanks to Apple's ColorShare software.

**$529**

Great printer, great price!

### Apple StyleWriter II

The StyleWriter II's advanced inkjet technology delivers laser-quality resolution of 360 dpi at speeds up to two pages per minute. This little giant will fit in the smallest of work spaces, but can handle letterheads, labels, envelopes, and even transparencies. It's multi-purpose tray automatically feeds up to 100 sheets of paper or 15 envelopes. The StyleWriter II comes with 39 TrueType fonts, including Times, Helvetica, Palatino, and ITC Avant Garde Gothic, and gives you the flexibility to print text in a wide variety of styles and sizes—from tiny footnotes to bold headlines. Built-in Apple GrayShare technology lets the StyleWriter II produce grayscale images of comparable quality to that realized by more expensive laser printers.The StyleWriter II installs with a single mouse click and can be shared over a network.

Crisp copies—fast!

## Brother HL-655 Printer

NEW!

Tired of your printer quitting on you? The Brother HL-655 printer is designed for the high quality that you demand and the reliability you need. Up to 45 fonts (bitmap and TrueType compatible) and 300 dpi, this printer delivers sharp, clear, professional looking printouts, 6 pages per minute and 2MB of RAM. One unique feature is straight paper path. This feature prints the page along a straight paper path—eliminating those annoying jams and curls. This, combined with the 200 sheet capacity makes for care-free printing! The microfine toner used in this printer produces sharper text and graphics, cheaper than most printers. And in Economy Print Mode, you use up to 50% less toner. Imagine getting the sharp, clear graphic images that you need, at pennies a copy! And the Power Save Mode reduces energy consumption, further saving you money. Whether you need high-resolutions or fast copies, Brother has the printer for you: the HL-655.

# Printer Accessories

There's a HP LaserJet Toner Cartridge that's right for your printer

## HP Toner Cartridges

HP LaserJet Toner Cartridges are the right choice for rich, dense black text or graphics with clean white spaces. HP toners have no background scatter for crisp results at 300 or 600 dpi. And they have less fading, leaks, streaks for the best print quality.

### Hewlett Packard Toner Cartridges

| MFR# | Printer Model | Item # | Price Per Cartridge 1-4 | 5-9 | 10+ |

# Accelerators

Turn your Quadra into a Power Mac!

## Power Macintosh Upgrade Card

Upgrade to Power Mac for only $599

Apple's Power Macintosh Upgrade Card turns your Quadra into a Power Mac. The card gives you the best of both Macintosh worlds: Power Macintosh capabilities designed for the future, built on the investment you already have in your Mac today! You can install the low-cost Power Macintosh Upgrade Card in the processor-direct slot of your Quadra if you follow simple, step-by-step instructions and can use a screwdriver. The card adds all the benefits of Power Macintosh technology to your Quadra. It provides speeds up to four times faster when using programs optimized for the Power Mac, but still allows you to run all your existing Macintosh applications!

***Requires: Quadra 610, 650, 700, 800, 900, 950, Centris 610, 650***

## Universal Turbo 040 Accelerator

The Universal Turbo 040 is a 68040 accelerator that turbocharges everything you do—letting you work up to 6 times faster. Its plug and play design lets you upgrade to faster speeds in just minutes! With DayStar, you get a detailed, full color photo illustrated installation manual and unlimited toll-free technical support to assist you. DayStar's 040 family of accelerators with their PDS design provide the fastest performance possible and better compatibility. For those that need the highest performance possible, the 40 MHz Turbo 040 makes your Mac faster than the Quadra 840AV. The Turbo 040 is not only fast, it provides the same 100% compatibility as our award winning Universal PowerCache. The Turbo 040 runs with all your hardware, including video acceleration, networking cards and busmasters, and all software, including sound, QuickTime and virtual memory. The 33 and 40 MHz Turbo 040 boards now come with a 3 year warranty and 128K cache to boost performance even more.

***Requires: PDS Slot.***

Manufacturer: *DayStar Digital*

DAYSTAR

33 & 40 MHz Turbo 040 now comes with 128K Cache

Maximize your performance with PowerCache!

## Universal PowerCache

Universal PowerCache turbocharges everything your Mac does. This universal CPU accelerator adds a fast (33 or 50 MHz) 68030 processor and a 32K RAM cache. An optional 68882 math chip is available to make number crunching fly. The award-winning universal PDS design overcomes limitations of NuBus compatibility and provides maximum performance. It supports twenty Mac platforms and can triple the speed of your software, accelerating most tasks up to 300%. Universal PowerCaches are 100% compatible with all standard expansion boards and software applications.

*Manufacturer:* DayStar

Upgrade your Mac to PowerPC!

## PowerPro 601

Transform your Mac into a full fledged Power Macintosh with a PowerPro 601 upgrade from DayStar. The PowerPro 601 delivers the absolute maximum performance - 66 MHz or blazing 80 MHz speeds! Simply plug it directly into the Processor Direct Slot of the Quadra 650, 700, 800, 900, 950 or Centris 650 and you can get the same level of performance and compatibility as a new Power Macintosh system for less than the cost of a new computer!* Its optional 128MB of memory expansion and optional 1MB secondary cache make it especially attractive for users who need the best performance available. And, DayStar has licensed PowerPC ROMs from Apple, which ensures that you can run your existing 68040 applications in emulation. But, if you want, PowerPro 601 lets you reboot and run at your original Quadra speeds. This is something that Power Mac systems and logic board upgrades cannot do! Plus, PowerPro 601 comes with DayStar's Photoshop extensions and an exclusive software offer that allows you to receive the following imaging products free: DayStar's PhotoMatic and DayStar's ColorMatch. Details of how you can receive these great imaging products, direct from DayStar, are in the box. Offer good while supplies last.

**While supplies last. Fractal Painter is shipped in Promotional packaging

## SIMMs

Double your Mac's memory capacity

## SIMM Expander

Now there's a way to maximize your memory while avoiding costly memory upgrades. The SIMM Expander package contains 4 miniature circuit boards that each contain 2 SIMM slots. Simply plug the Expanders into your machine's existing SIMM slots, use the 1MB SIMMs you already own, and add up to 4 more SIMMs in 1MB and 4MB combinations. You've effectively doubled your machine's memory capacity!

Two SIMM Expander packages will give you 8 empty slots and the potential for 64MB of memory. For Mac II and IIx, it eliminates the need for an expensive ROM upgrade or special PAL SIMMs. Now you can go from 8MB to 12MB of memory by adding four 1MB SIMMs and using the SIMM Expander with your current 8MB of memory. SIMM Expander is the answer to your memory problems. No DIP switches need to be set.

***Requires: Mac II, IIx, IIcx (System 7 or Maxima software), IIci, and IIsi. Mac II requires 68851 PMMU.***

**ACC 1284**
*Suggested Retail:* ~~$149.95~~
**$99**

16MB SIMM 80ns **CHP0078** ..... $699

## Power Mac Compatible SIMMs!

For Performa 475/476/630/635/638, LC 575, 630, Centris 610/650, Quadra 605, 610, 630, 650, Power Mac 6100, 7100, 8100, Workgroup Server 60, 6150, 8150, 9150 72 pin 80ns:

4MB **CHP0101** ..... $179
8MB **CHP0102** ..... $349
16MB **CHP0103** ..... $599
32MB **CHP0104** ..... $1199

Unleash your Mac's power with Power User 72 Pin SIMMs

## Power User 72 Pin SIMMs

If your Macintosh requires 72 pin SIMMs, then Power User has the memory you need. Today's applications require more memory than ever. In many cases, to make full use of all the features of these programs, you need twice the minimum memory requirement. All Power User SIMMs are tested for performance and are easy to install. Just follow the step-by-step instructions and you will notice the difference that additional memory can make. Order your Power User 72 Pin SIMMs today and you'll be on your way to better Mac performance!

For LC III, 520, 550, Performa 450, 460, 466, 467, 550 72 pin 80ns:

4MB **CHP0101** ..... $179
8MB **CHP0102** ..... $349
16MB **CHP 0129** ..... $599
32MB **CHP0130** ..... $1299

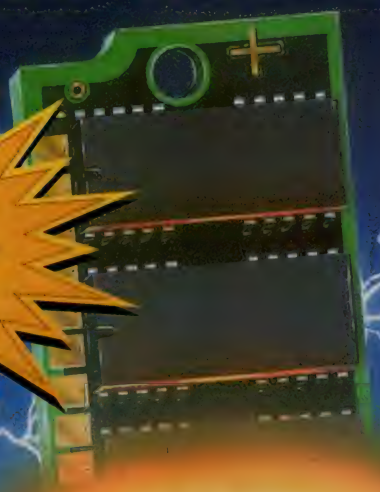
For Quadra 800, 840AV, 660AV, Workgroup Server 80 72 pin 60ns:

4MB **CHP0105** ..... $199
8MB **CHP0106** ..... $399
16MB **CHP 0107** ..... $599
32MB **CHP0108** ..... $1199

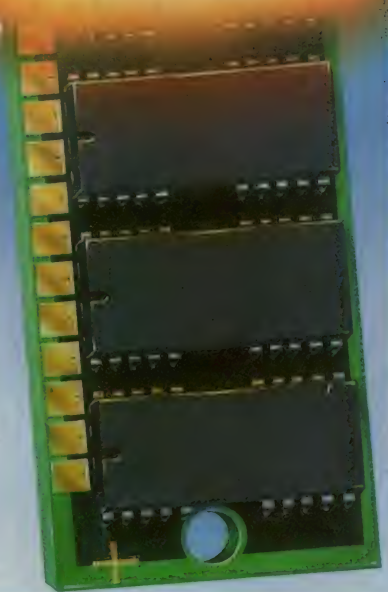
We recommend having an Apple authorized repair center install SIMMs in the Mac Plus, SE, SE/30, Classic, Classic II, Color Classic, and Performa 200, as well as in all PowerBook models.

# THE POWER YOU NEED... AT A PRICE YOU CAN AFFORD!

**FREE!** 30 Pin SIMMs remover tool!** (ask for item # AAA 0042)



## AS LOW AS $49.95*



You can have the fastest, most powerful Mac around...but if you don't have enough memory, you're going to get those "out of memory" problems. You know the ones: you have to close your word processor to get information about a spreadsheet. You have to quit your publishing program just to find out where you stored a word processing document. And if you're a heavy graphics or font user, forget it.

### More memory means more power!

Install more memory with our Power User SIMMs and find out what "multi-tasking" really means! Never quit one application to run another. Edit your large scanner files with advanced graphics. Develop your own Databases. Do everything you bought your Mac for in the first place. And more memory doesn't cost a bundle, either: Power User SIMMs start at just $49.95

### Easy installation — step by step.

Adding more memory is one of the easiest things you can do with your Mac: just open the case and plug 'em in. Just follow the step-by-step instructions–included FREE with your SIMMs order. All Power User SIMMs are backed by a two year warranty and a 30-day money back guarantee.

### How do I know what I need?

That's easy, too. Just look at the chart to the right. Or, for easier selection, call our SIMMs Desk at 1-800-659-0222.Tell us what Mac you've got, how much memory you have and how much you want, and we'll tell you exactly what you need. Memory chips come factory installed on plug-in cards called SIMMs (Single Inline Memory Modules). Each 1MB SIMMs card holds eight memory chips. SIMMs come in different speeds—the lower the nanosecond (ns) number, the faster the chip. Prices vary based on quality, speeds and demand, so call for the latest prices and availability. Overnight delivery is available for just $3.

## SimmStack

If you have recently upgraded to a Macintosh system that uses 72-pin SIMMs, SimmStack SIMM Converters or SimmStack SIMM Slot Doublers are for you! SimmStack provides owners of Macintosh LC, Performa, Centris, and Quadra series systems with several cost effective solutions for memory upgrading.

***Requires: SimmStack board must be fully populated.***

***FaxFACTS 4812***

*Manufacturer:* Sermax Corporation

With the innovative **SimmStack SIMM Converters** you can retain the investment you have already made in SIMMs when moving from the older 30-pin systems to the newer 72-pin systems. Just choose the configuration you need from the list below:

**Four 30-pin SIMMs Stack onto 72-pin Adapter.**

Performa 450/460/466/467/475/476; LC III; LC 475; Quadra 605

**ACC 1355**

Centris 650; Quadra 650.

**ACC 1356** **$89 ea.**

SERMAX CORPORATION

**One 72-pin SIMM and Four 30-pin SIMMs Stack onto 72-pin Adapter.**

Performa 450/460/466/467; LC III.

**ACC 1350** **$129 ea.**

With the **SimmStack SIMM Slot Doublers** you can install two 72-pin SIMMs into one 72-pin SIMM slot. This solves the problem of not having enough SIMM slots in many of the new Macs.

**Two 72-pin SIMMs Stack onto 72-pin Adapter.**

**ACC 1353**

Performa 475/476; LC475; Quadra 605

**ACC 1352** **$89 ea.**

Double your memory with one click

## RAM Doubler

RAM Doubler provides you twice the memory without expensive hardware. Installation takes about 15 seconds and one mouse click. It's worry-free from the start. If you had 8MB of RAM, your computer will have 16MB of memory available with RAM Doubler. Keep *all* your applications open — you'll be rid of the "Not Enough Memory" messages. Install RAM Doubler once and your memory doubles automatically forever.

Accelerated for Power Macintosh. Runs on Your Regular Mac, Too.

**"RAM Doubler may well be the best investment you'll make this year." –*MacUser*, June 1994, (4 1/2 mice). *MacWorld* Editor's Choice, June 1994.**

***Requires: Quadra, Performa, Centris, PowerBook (except 100), or Mac II family with PMMU; 4MB RAM.***

State of the art scanning!

## The PowerLook Pro

NEW!

Using a 30-bit scanning mode, this scanner recognizes an amazing 1 billion colors and 1,024 shades of gray. Perfect definition is achieved through 256 separate steps of both highlight and shadow adjustment. It features 600 x 1200 dpi optical resolution (2400 dpi with software interpolation). The PowerLook's color Charged Coupled Device captures 30-bit color in just one pass, without the need for prisms, filters, or color lamps. Includes a full version of Adobe Photoshop, Kai's Power Tools, sealed optics, transparency adapter, and a 2MB bus caching buffer.

**BND 0478**
*Manufacturer:* UMAX $3299

Complete scanning toolkit in a box

## OmniScan

Get a world-class hand-held scanner that gives you optical character recognition, image-editing, and fax capabilities in one integrated scanning solution. Scan virtually any printed text or image into your computer with the OmniScan 256 grayscale scanner. With true 8-bit grayscale at 400 dpi, OmniScan provides hand scanner quality second to none. With its advanced illumination technology and solid tracking, anyone can easily scan images or text with superior accuracy. Fully and seamlessly integrated, you simply select one of OmniScan's applications from your Mac Apple menu. *Image Assistant GS* edits images right from the scanner—when you need them. Have Image Assistant's assist mode display image variations on your screen—then simply choose the one you want. *OmniPage Direct* retains your text's format, font, style, and size anywhere from 6 to 72 points. It even has automatic restitching that eliminates the need for tricky text matching and differentiates columns automatically. Use *FaxMaster* to send, receive, OCR, and compress up to 20 faxes directly from your computer and application with your existing fax modem. It even lets you convert faxes into usable text and send multiple documents to one location. It supports most popular Class I, Class II, and Sierra Send Fax modems. OmniScan can take virtually any printed text or image and scan it directly into your working document. And with automatic text and image stitching, you can easily capture documents and images of any size. OmniScan is the only hand scanner that offers advanced faxing capabilities.

Scan 35mm slides up to 2700 dpi – in under a minute!

### SprintScan 35 Slide Scanner

NEW! The Polaroid SprintScan 35 Slide Scanner is an easy-to-use, compact scanner that transforms 35mm slides into digitized images. It delivers 24-bit color files in resolutions up to 2700 dpi. The SprintScan scans slides in under a minute, five to fifteen times faster than other slide scanners and detects a broader gamut of palette colors, and even gives you better shadow detail. This supplies enough image data for a 8.5" x 11" full bleed output at 150 linescreen. The SprintScan's on-board hardware provides automatic, real-time color processing, plus image smoothing, sharpening, and correction, guaranteeing that you get a digitized image which maintains the fidelity of the original slide.

Complete document management!

## IMAXIS Family

IMAXIS provides the complete set of document management tools to tame the paper beast — scanning, cataloging, OCR, image compression, full-text search, annotation and security. Store both electronic files and scanned documents in familiar folders and drawers on your optical disks and hard drives, then share the documents throughout your office network. IMAXIS Client provides four easy means of locating and viewing your documents — browse through folders and drawers; find documents using database catalog values that you tailor to suit each drawer; use full-text searching to locate every document containing a specific word or phrase; or place "bookmarks" to return immediately to your often-used pages. Customize your IMAXIS configuration choosing from IMAXIS Client, Server, Scan and OCR, all packaged separately, or buy a value priced 4-User Pack.

*Publisher:* SESI

***Requires: Mac II, System 7.1, Client-5MB RAM; Server-5MB RAM; Scanning-8MB; OCR-8MB. Supported scanners include: HP ScanJet, IIp, IIc, IIcx, Fujitsu 3096G, and selected Apple, Epson and Microtek Scanners. Call for others.***

### IMAXIS Server

Create drawers of documents to suit your specific document needs. Supports up to twenty concurrent IMAXIS Clients.

**UTI 0530**
*Suggested Retail:* ~~$895~~
**$749**

### IMAXIS Client

Provides all the tools for adding, retrieving, viewing, and managing your documents. Works in concert with one or more IMAXIS Servers.

**UTI 0529**
*Suggested Retail:* ~~$495~~
**$419**

### IMAXIS Scanning

Empty your file cabinets into your Macintosh by adding scanning capabilities to any IMAXIS Client — convert paper documents into digital format.

**UTI 0532**
*Suggested Retail:* ~~$395~~
**$329**

### IMAXIS Client with Scanning

Combination package includes both the Imaxis Client and Imaxis Scanning software in one value priced package.

**UTI 0531**
*Suggested Retail:* ~~$890~~
**$740**

### IMAXIS OCR

Convert scanned images into text so they can be located by words they contain.

**UTI 0528**
*Suggested Retail:* ~~$995~~
**$829**

### IMAXIS 4-User Pack

Choose a value-priced IMAXIS 4-Pack which includes one IMAXIS Server, four IMAXIS Clients, IMAXIS Scanning for one Client and full documentation for each — everything you need to bring document management to a small workgroup.

**UTI 0527**
*Suggested Retail:* ~~$2695~~

## Power User 105MB and 270MB SyQuest Drives

Now get all the benefits of Winchester technology at a low MacWAREHOUSE price. The Power User 105 and 270 Removable SyQuest drives offer you more storage capacity and fast access times–all in a compact 3.5" format. Offering unlimited storage potential, these SyQuest drives eliminate the worry of running out of disk space. Just insert another SyQuest cartridge and continue working! And, the Power User 270 SyQuest drive reads and writes to BOTH 105MB and 270MB cartridges! The Power User 105 and 270 SyQuest drives are the perfect storage solution for multimedia and desktop publishing. Speed is never a problem with access times as low as 13.5 ms–comparable to most hard drives! The 3.5" cartridge is ideal for transporting large files. Whether you need to transport company files or keep a copy of your data off site for security reasons, Power User Removable SyQuest drives are the answer! The Power User 105 and 270 Removable SyQuest drives come with all the accessories you need for easy installation and operation: a 25/50 pin SCSI cable, power cord, external SCSI address switch, external terminator, and disk utility software.

230MB on a floppy!

## Power User Pro 230MB Optical Drive

The Power User Pro 230MB Optical Drive stores an amazing 230MB on a 3.5" optical diskette. It's 28ms access time and 256K buffer give it performance to rival your hard drive. The Power User Pro 230MB Optical Drive can read and write to your existing 128MB optical disks, so you've got guaranteed compatibility. It's large storage capacity and removable media makes the Power User Pro 230MB Optical Drive perfect for backups as well as on-line storage. Includes internal active terminator to eliminate SCSI chain problems.

**DRI 1007** **$999.95**

## Power User Pro 128MB Optical Drive

The Power User Pro 128MB Optical Drive offers high performance in a 3.5" format. With a speedy sub-30 ms access time, it is one of the fastest optical drives in its class. It's proprietary cooling system also makes it one of the most reliable. The Power User 128MB is fast enough to be used as an on-line storage device the same way a hard drive is used. It's also ideal for backing up large files because of its speed and data integrity.

**DRI 0618** **$899.95**

Advanced storage capacity!

## DynaMO 230 External 3.5-inch Magneto-Optical Drive

*Reads and writes to both 128MB and 230MB optical cartridges!*

DynaMO delivers the unlimited storage capacity you need, along with next-generation 3.5 inch magneto-optical performance and reliability in an extremely compact and portable package. The external DynaMO 230 reads and writes 128MB and 230MB industry-standard 3.5-inch magneto-optical disks. Only slightly larger than 3.5-inch floppies, DynaMO disks hold up to 160 times more data. They cost significantly less than removable magnetic cartridges, and they're more reliable, since they're immune from many of the problems confronting magnetic cartridges. With its 256KB read/write cache buffer, the drive archives an effective seek time of less than 30 milliseconds. In addition, DynaMO can also transfer data at up to 2.1MB per second. DynaMO comes complete with everything necessary for installation.

## Hard Drives

Reliable, easy to install hard drives

### Power User Internal Hard Drives

Power User Internal Hard Drives use high-quality mechanisms by vendors like Quantum, DEC, and Conner. They have data buffers between 64K and 256K, and access times of 9.5-12 ms for high performance. Power User internal drives come pre-formatted, with powerful driver software that supports SCSI Manager 4.3 and advanced features like positioning. All Power User internal hard drives come with the appropriate cables and mounting brackets for easy installation. You'll be up and running in minutes with our step-by-step installation instructions.*

*Opening the case of any Macintosh may void your Apple warranty. We recommend having an Apple authorized repair center install internal hard drives.

Run CD-ROM software at hard disk speeds!

## RapidCD

Make your CD-ROM drive as fast as a hard disk with just one mouse click! RapidCD is a quick, easy-to-install accelerator for all popular CD-ROM drives. Even the fastest CD-ROM drives are considerably slower than a hard disk, but RapidCD changes all that. Searching through folders for a specific file has never been this fast. RapidCD pre-loads all the data the Finder needs from a CD-ROM as soon as you insert the disc, making CDs respond as fast in the Finder as your hard disk. RapidCD even comes with QuickTime speedup, which improves QuickTime playback and CD game playing.

***Requires: Mac Plus or higher; System 6.0.8 or later; CD-ROM drive.***

## Select Phone

Includes UPGRADE CERTIFICATE FREE

Select Phone comes on 5 CD-ROM discs that allow you to search millions of listings using any criteria; name, address, city, state, zip, area code, business heading, and SIC code. Reverse search capability matches names and addresses with phone numbers or vice versa. Ideal for business users!

- Permits unrestricted and unlimited downloading of all 80 million listings into any database, word processor, spreadsheet or contact management software.
- Outputs in choice of galley, mailing label, delimited ASCII or dbf format.

**BUS 0442**
*Suggested Retail:* ~~$299~~
**$159.95**

## Direct Phone

Direct Phone features 2 CD-ROM discs that offer an amazing amount of residential and 8 million business listings. Search by name, and restrict search by address or area code. Download listings into any database, word processor, spreadsheet, or contact management software.

**BUS 0441**
*Suggested Retail:* ~~$149~~
**$89.95**

## Free Phone

Free Phone is AT&T's Toll-Free Directory on one CD-ROM disc. It features 250,000 numbers under 2,700 classifications. FreePhone is the ideal companion application to Direct Phone or Select Phone.

**BUS 0439**
*Suggested Retail:* ~~$49~~
**$29.95**

## Canada Phone

Canada Phone lets you search nearly 10 million business and residential listings. Reverse search capability allows you to match names and addresses with their phone numbers.

**BUS 0440**
*Suggested Retail:* ~~$149~~
**$89.95**

## Pro Phone

Pro Phone Directories are the most complete phone listings ever assembled. The only thing it won't do is appear on your phone bill.

Great accessories from *MediaMate*

### Roll 'n Rak Stowaway Printer Cart (a)

The Roll 'n Rak Printer Cart is an affordable way to support and store printers, fax machines and supplies. Features two sturdy, stacking modular shelves mounted on casters. Top shelf supports printer or fax machine. Bottom shelf stores neccessary supplies. Space-saving cart stores easily under furniture and countertops.

**ACC 1492**
*Suggested Retail:* ~~$49.95~~
**$34.95**

### LaserRak Printer Stand (b)

The LaserRak Printer Stand turns the chaotic mess around your printer or fax machine into a neatly organized station. Four heavy-duty shelves, measuring 11.75" x 17" x 3.5", assemble in seconds and lock together to form a sturdy support for your printer. Underneath, there are four separate storage compartments for paper, staples and paper clips, etc. Great for inkjet printers and fax machines, too!

**ACC 0794**
*Suggested Retail:* ~~$39.95~~
**$29.95**

### Monitor Deck (c)

The Monitor Deck is more than a monitor stand, it's a handy storage system, too. Stacking modular shelves position virtually any monitor at the correct viewing height. Snap-on storage components organize paper, desktop supplies, mouse, files, or keyboard. Notebook computer slips under bottom tray for easy hook-up to large screen monitor. Easy assembly. No tools required.

**AC 18493**
*Suggested Retail:* ~~$29.95~~
**$19.95**

### Copy Clip (d)

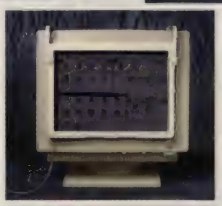
Instant display-quality upgrade!

## ACCO Anti-Glare Screen Filters



NEW!

The ACCO VS Series features low transmission, optical quality glass with a double-sided anti-reflective coating that reduces glare, improves contrast, and attenuates over 99% of VLF/ELF electric fields. ACCO Security Screen Filters are quipped with a revolutionary film laminate that allows only a 15 degree viewing window, while providing the additional benefits of enhanced contrast and VLF/ELF emission protection. ACCO's new LS series is for natural or low-light areas — lightly tinted glass eliminates glare, but lets about 50% more light through than most filters. Finally, the ACCO GS Screen Filters provide basic anti-glare (but not anti-radiation) protection, helping to reduce eyestrain.

*Manufacturer:* ACCO

**ACCO Anti-Glare Screen Filters**

| Description | Item # | Monitor size | MFR # | SRP | Price |

Powerful surge protection

## Power Tamer

MediaMate Power Tamer delivers faster, stronger fail-safe protection against dangerous power surges. Guaranteed up to $25,000 – even against lightning strikes. With patented sine wave tracking, Power Tamer clamps off dangerous surges and spikes instantly to preserve the life of your equipment. The 3 line protection and fail-safe thermal circuitry provides harmful high energy overloads from passing through to your equipment.

**PolaClear Cleaner**

Specially formulated for cleaning optical coated glass and plastic surfaces.

**ACC 0507** **$10**

Total protection for your Mac or network!

## Power User Surge Protectors

NEW!

Power User Surge Protectors eliminate data loss and disruption caused by high voltage surges, spikes and even lightning. These high-quality surge protectors improve circuit life, protecting from failures caused by repeated transient strikes. An LED alarm system warns you of a lapse in protection. Each of the three power paths (flat, neutral and ground) is protected by its own circuit. Power User Surge Protectors even reduce EMI/RFI noise significantly, thereby eliminating lock-up and data errors.

Power User Proline™ Surge Protector
**DSP 1097** **$19.95**

Power User Computer Grade™ Surge Protector
**DSP 1098** **$29.95**

Power User Computer Grade™ Surge Protector w/Fax/Modem Protection
**DSP 1099** **$39.95**

## The Power User UPS® Series

NEW!

The Power User UPS Series is perfect protection for file servers, engineering workstations, minicomputers, UNIX CPUs, internet hubs, telecommunications systems and other sensitive equipment. Each unit features a flexible network interface that provides auto-shutdown with most major operating systems. Without unattended shutdown, computer data is at risk every time the systems manager leaves the building. The best way to protect your data and your workgroup's productivity is with a Power User UPS.

**Power User UPS 250 VA**
**DUP 1127** **$99.95**

**Power User UPS 400 VA**
**DUP 1128** **$179.95**

**Power User UPS 600 VA**
**DUP 1129** **$299.95**

## MasterPiece Plus Control Center

Organize and protect your personal computer with the MasterPiece Plus power Control Center. It has five outlets for individually controlled and convenient master switching. Power up with the master switch, then use the individual switches to control peripherals. Features EMI/RFI noise filtering, anti-static protection, and modem/fax surge suppression. The "Plus" in MasterPiece is modem/fax surge suppression and a unique low voltage indicator.

Lightweight, low-cost SCSI docking bar for DUOs

## SCSI MicroDock for DUO 210 & 270C

Expand the capabilities of your DUO with the SCSI MicroDock. Easily attach SCSI devices like a hard disk, SyQuest drive, CD-ROM, optical drive, scanner, and more. Whether you have a 29-pin or 30-pin cable, MicroDock provides SCSI-Disk mode or normal SCSI operation. Provides faster-than-network transfers. Features active termination for reliable external connecting and minimal battery draw. Weighs less than 6 oz. and is only 5"x2". Comes with a 2-year manufacturer's warranty.

***Requires: DUO 210, 230, 250 or 270C.***

**DRI 0865**
*Manufacturer:* Newer Technology
*Suggested Retail:* ~~$195~~
**$139.95**

Full-featured Duo dock

## Color MicroDock for DUO 210 & 270C

Use to attach color monitors and stereo sound to your Mac. Color MicroDock supports VGA, SVGA and Apple monitors up to 16" with 8-bit color or grayscale. Supports larger screens running 4-bit color and grayscale. Good for those who travel with a DUO or want a low-cost way to use a color monitor. Has audio port and ADB port for mouse, larger keyboard, pressure-sensitive tablets, and remote presentation controllers. Weighs less than 8 oz., and measures only 5.75"x2". Comes with a 5-year manufacturer's warranty.

***Requires: DUO 210, 230, 250 or 270C.***

**DRI 0864**
*Suggested Retail:* ~~$345~~
**$269.95**

Low-cost Ethernet for Duos

## Ethernet MicroDock

Give your PowerBook Duo high-speed 10Base-T Ethernet networking capability with the Ethernet MicroDock. It's the affordable and easy way to connect with networks while in the office or while traveling to clients' offices. Ethernet MicroDock is the smallest docking device available. Yet it provides you with high-speed network access faster than SCSI Ethernet solutions. It automatically senses the network media you're using and warns you of any problems. A Control Panel document displays SNMP statistics and its diagnostics include a cable disconnection and three levels of loopback testing.

Get long-lasting battery performance for your PowerBook with the VST ThinPack. This battery features unique high-density engineering that provides five to nine hours of continuous operation! So no matter which PowerBook model you use, you'll always have enough power to be more productive. ThinPack is easy to use—just connect it directly to your PowerBook's external power port. It has no "memory effect" so you don't need to fully discharge it before recharging. And it recharges in only three to five hours — not all night! The VST ThinPack is conveniently sized, too. With an ultra-slim 1/4" thick design and light weight (1.5 lbs.), it slips right into the pocket of your PowerBook carrying case. UL listed for safety.

**Use your PowerBook to its fullest potential!**
PowerBooks like the Duos and the 500 series are ideal traveling companions — if you have enough memory. But, programs like Microsoft Word and Excel, and others have powerful new features requiring more memory than your Powerbook may have. Don't fret — just add more memory with a Power User PowerBook Upgrade Kit!

**Improve your battery life.**
Most applications will access the hard disk less frequently when you increase their RAM size. Even better, adding memory to your PowerBook allows you to use some of your memory as a RAM disk. You can store your favorite programs on the RAM disk and never have to access your hard disk, adding hours to your battery life!

**Easy installation!**
With a Power User Upgrade Kit, more memory is minutes away! It includes a step-by-step installation manual that provides crystal-clear instructions. Plus, all Power User PowerBook Upgrade Kits are backed by a 30-day money back guarantee.

**Order more memory for your PowerBook today!**
Don't wait — start using your PowerBook to its fullest potential today! Just check the chart for your PowerBook model and Upgrade Kit that will really power it up!

The ultimate personal assistant

## Newton MessagePad 100 and 110

No matter which Newton MessagePad you choose, you'll get a personal digital assistant with all the right connections! Both the MessagePad 100 and the MessagePad 110 can help you manage information, stay organized, and, thanks to their sophisticated communications capabilities, keep you in touch via fax, e-mail, and paging. Improved handwriting recognition capabilities for both printing and cursive writing make it easy to translate your notes into document files. You can even take notes in "electronic ink" to quickly jot down your ideas, deferring recognition until later. What's more, you can print anything that's on your Newton to Apple PostScript LaserWriters, StyleWriters, and many parallel printers. Infrared beaming technology lets you share information from your Newton with other Newtons—great for silent collaboration across the conference table! With the optional modem, you can even send faxes from your Newton using any standard phone line. Paging capability lets you receive wireless paging messages up to 240 characters. Both Newton MessagePads feature a built-in notepad, to-do list, date book, and name file to get you started. And with a host of available accessories and software titles that let you do everything from faxing business proposals to playing golf, your Newton is likely to become your most treasured possession. Both Newton packages include pen, Newton video, Newton Handbook, and Newton Setup and Handwriting Guide. Order today and get the personal assistant you deserve!

## The Japanese Language Kit

The Japanese Language Kit lets you run Japanese applications and add Japanese text to all your documents. Create, edit, run, and print documents in Japanese or English using the two Kanji TrueType fonts (HonMincho and Maru Gothic). Work with files created in KanjiTalk, the Japanese version of the Macintosh operating system.

As an extension of System 7.1, there's no need to burden your hard drive with an additional operating system. The kit installs in minutes and includes bilingual documentation, making it easy to use whether you are a native speaker or just learning the language.

***Requires: 5MB RAM; System 7.1 or later. (Currently not compatible with QuickDraw GX.)***

**SYS 0006**
*Publisher:* Apple
*Suggested Retail:* ~~$249~~
**$195**

Communicate with half the world

## Chinese Language Kit

This language kit provides you with everything you need to use Chinese on your Macintosh. If you can read and write Chinese, you can create, edit and print documents that contain Chinese characters. Even mix languages within a document and choose to enter Traditional or Simplified characters. Localized applications will display Chinese menu bars, allowing you to enter Chinese text. Simply pull down the keyboards menu, choose a Chinese input method, and begin typing—it's that simple.

***Requires: 5MB RAM; 10MB hard disk space; System 7.1 or later; support for WorldScript or that has been localized for Chinese.(Currently not compatible with QuickDraw GX.)***

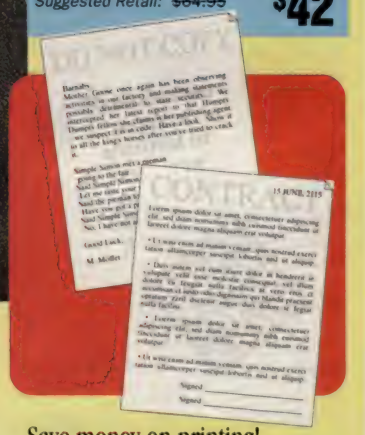
**Working Watermarker and Toner Tuner Bundle**
**UTI 0533**
*Suggested Retail:* ~~$64.95~~
**$42**



Save money on specialty paper!

## Working Watermarker

NEW!

Working Watermarker is a printing utility that lets you print a graphic, logo, portrait, or any message "behind" any document. Now instead of ordering custom printing or buying specialty paper with the watermarks "DRAFT," "CONFIDENTIAL," or "COPY," you can produce them yourself. Add your company name to sales reports, product logo to new product introductions, and more. Watermarks print, at any darkness, behind your document *as* the document is printing — so it's easy to use and time-efficient. Watermarks is compatible with any program and any printer.

***Requires: System 6.0 or later.***

**UTI 0428**
*Publisher:* Working Software Inc.
*Suggested Retail:* ~~$49.95~~
**$35.95**

Save money on printing!

## Toner Tuner

NEW!

Dramatically cut your printing costs with Toner Tuner. This indispensible utility lets you adjust the darkness when you print, so you don't waste toner or ink. The result is that you buy fewer toner and ink cartridges — and save money (and the Earth!). Toner Tuner is easy to use through the Print dialog box. It works on any type of printer — laser or ink, PostScript or non-PostScript. And, Toner Tuner pays for itself after just a few cartridge purchases! Order today!

***Requires: System 6.0 or later.***

**UTI 0427**
*Suggested Retail:* ~~$24.95~~
**$19.95**

Be more productive with your mac!

## QuicKeys 3.0.1

**1993 Editor's Choice Award winner for Best New Utility**

UPDATE! QuicKeys eliminates the monotony of any repetitive task you do on your Mac. Type standard text blocks. Mount servers or volumes, even change printers with a single key stroke! Easy to use, with more power, flexibility, and reliability than any product of its kind. QuicKeys is the one desktop automation product that can increase your productivity and the quality of your work, whether you are a novice or experienced user. QuicKeys works with any application to make every user more productive by making your work easier, faster, and more convenient.

***Requires: System 7 or later.***

The easiest way to customize icons! ♦♦♦♦ —9/94 MW ♦♦♦♦♦ —8/94

### Icon Mania

NEW!

Finally see the contents of a graphic file without opening it! MacPaint, Startup Screen, QuickTime, EPS, GIFF, Photoshop, PICS, PICT, and TIFF filenames don't always accurately describe the images they contain. Our solution: use a miniature of the image itself as the file's icon. Just drag and drop graphic files onto the Icon Mania application. "Thumbnail" icons are then automatically created. You can even select a particular portion of the picture to use as the thumbnail icon.

- Replace boring icons with colorful, extraordinary alternatives.
- Automatically create folder icons; no drawing required.
- Automatically create thumbnail preview icons of all your graphics files.
- Touch up icons with a powerful editor.
- Manage icon libraries effortlessly—a huge icon library is included.

**UTI 0596**
*Suggested Retail:* ~~$69.95~~

Automate repetitive tasks...instantly!

### Open Sesame! Version 1.1

New Low Price!

Open Sesame! Version 1.1 is the first software assistant that learns what you do and then does it automatically for you. It sits on your desktop observing your actions from the background. When it finds a repetitive pattern, it offers to automate it for you. Open Sesame! supports Power Macintosh and is speech savvy. It now speaks its observations to you on power Macintosh computers and AV models, and can respond to your voice commands. Open Sesame! will open a nested folder, launch several applications at once, rebuild your desktop, remind you of important events, and allow you to have multiple sets of Apple Menu, desktop, and startup items sets. Best of all, it minimizes the number of mouse/keyboard clicks required to accomplish most tasks, performs routine maintenance tasks, and even suggests more efficient ways of using System 7. For instant automation, say hello to your new assistant!

***Requires: System 7 or later.***

The easiest way to keep your Macintosh trouble-free!

## Apple Personal Diagnostics

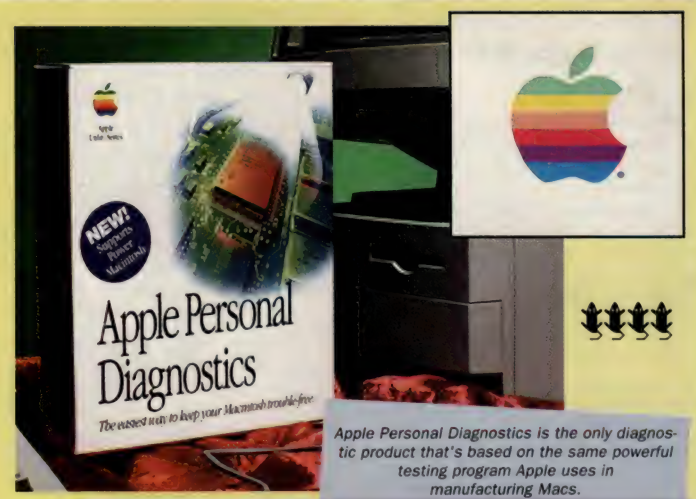
NEW VERSION!

Keep your Apple Macintosh hardware and system software trouble-free with Apple Personal Diagnostics. It offers the most comprehensive way to diagnose and monitor the performance of your Mac and PowerBook system. Apple Personal Diagnostics tests your system's logic board, disk drives, software, and display providing you with detailed results in just a few moments.

***This great program:***

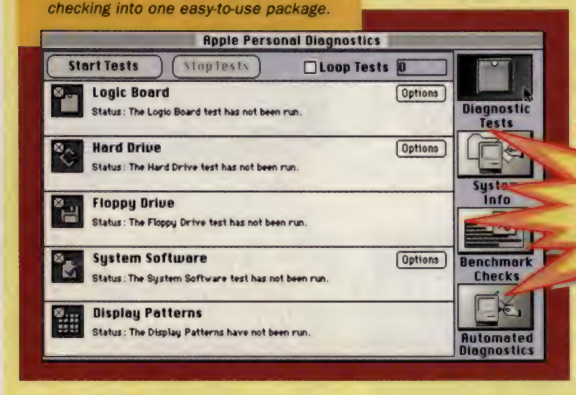
- Performs comprehensive diagnostic tests on your hardware or software, and provides a complete system profile.
- Identifies problems and performs repairs on corrupted disk drive file structures.
- Includes Automated Diagnostics, a comprehensive background diagnostic function that checks your system during periods of inactivity.
- Checks your computer's performance against Apple benchmarks for other Macintosh computers.
- Finds duplicate System Folders and other system irregularities and offers simple solutions.
- Provides an easy-to-use interface with large buttons and icons that simplify operation.

**UTI 0598**
*Publisher:* Apple
*Suggested Retail:* ~~$129~~
**$99.95**



*Apple Personal Diagnostics is the only diagnostic product that's based on the same powerful testing program Apple uses in manufacturing Macs.*

*Apple Personal Diagnostics combines hardware testing, system profiling, and software checking into one easy-to-use package.*



**Keep Your Mac TROUBLE-FREE!**

*Compatible with all major desktop publishing applications!*

A professional printer server at a personal price

## PrintShuttle

NEW!

PrintShuttle significantly increases the print speed of jobs sent to networked laser printers. Sends print jobs to another machine on the network for the actual printing and interaction with the printer. This allows you full use of your machine within seconds without the sluggishness commonly associated with background spoolers. Use a dedicated print server, or use the PrintShuttle server in the background. PrintShuttle saves all users a significant amount of drive space by moving the printer fonts to the print server. Compatible with any printer that uses the Apple LaserWriter driver.

**UTI 0543**
*Publisher:* MicroMat
*Suggested Retail:* ~~$168~~
**$109**

*PrintShuttle quickly sends your print job to another machine and lets you know when printing is completed.*

## MacEKG

MacEKG monitors hardware and system problems before they turn into major trouble! Don't wait until your Macintosh is experiencing trouble! With MacEKG diagnostic software, you can give your Mac a "check up" that lets you know exactly how your system's doing before trouble strikes. MacEKG is so sophisticated, it actually learns how your Mac behaves. And, it notifies you when your Mac's health is below par, with actual speech! Within minutes, MacEKG performs 35 benchmark tests and compares over 250 system parameters using advanced component level diagnostics previously available only to authorized Apple repair facilities.

**UTI 0285**
*Suggested Retail:* ~~$150~~
**$89**

***All Products Require: Mac Plus or higher; 2MB RAM; 2MB hard disk space; System 7.0 or later.***

Extend the life of your floppy drive—keep it clean with DriveTech!

## DriveTech

DriveTech can extend your drive's life. It checks every track and sector position to verify your drive's read and write accuracy. It then offers an advanced head cleaning routine that employs the 3M Head Cleaning Diskette — the only cleaning system approved by Apple. DriveTech is a complete and easy way to prevent data loss, errors, and general drive failure caused by microscopic dirt and other foreign particles. If you've ever received the message, "This disk is unreadable" when you know the disk is quite readable, then DriveTech is the product you need.

Macintosh problem solver

## Conflict Catcher II

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

Conflict Catcher II is the essential Macintosh startup software manager and problem solver for both System 6 and System 7 users. It locates problems with startup files including printing problems, crashes, and frozen screens. This product is unique in the way it tests a user's own installed software, rather than referring to limited, outdated databases. Conflict Catcher II creates sets of startup software for specific purposes like word processing, graphics, or financial analysis, and then opens only the sets you need. Saves time and memory! Enables you to "link" software in three ways—Group Links for startup files that rely on one another to work; Incompatible Links for files that should NEVER run together; and Forced Order Links for files that need to load in a specific order. This feature-loaded product also moves fonts in and out of the System 7.1 font folder to free up more memory, creates detailed System Reports, and offers keyboard shortcuts. Invaluable for power-users and novices alike — no Mac should be without it. Compatible with Sysem 6, 7, and 7.5.

Amazing utilities for your Mac!

## MacTools Pro

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

NEW VERSION!

New! MacTools, a top rated disk utility, just turned Pro. The new RAM boot and Fix-On-The-Fly disk repair technologies makes unnecessary Emergency Disk reboots a distant memory. New QuickAssist troubleshoots the most complicated disk repair problems. Just select your symptoms and let MacTools Clinic go to work. For complete and continuous protection, AutoCheck with AutoRepair not only finds disk problems but can also repair them, eliminating data loss. And only MacTools Pro has background anti-virus scanning, eliminating annoying startup scans which interrupt your work. The faster Optimizer and revolutionary new TrashBack are among 50 other enhancements.

**UTI 0581**
*Publisher:* Central Point Software
*Suggested Retail:* ~~$149.95~~ **$95**

## Security/ Anti-Virus

Powerful data protection tools

## Norton Utilities for Macintosh 3.1

The Norton Utilities is the worldwide standard in Macintosh utilities — a powerful collection of tools for protecting and recovering your data on Macintosh and Power Macintosh systems. Only Norton Utilities offers you comprehensive data protection. Not only does it scan for disk errors in the background — but it also automatically notifies you when maintenance is recommended. Together, these features provide continuous protection without interrupting your work. If disaster strikes, the Norton Utilitites includes all the tools you need for complete data recovery and disk repair. It automatically identifies any problem and recommends the solution. With a simple click of the mouse, you'll be up and running again. New Norton Utilities 3.0 takes full advantage of the faster performance that Power Macintosh offers, and still works as effectively as ever — and faster than ever — on all earlier Macintosh systems.

Maximize your Mac!

## Norton DiskDoubler Pro 1.1

The Norton DiskDoubler Pro provides comprehensive, transparent compression for Macintosh and Power Macintosh systems. It instantly and automatically doubles your disk capacity and saves time on everyday operations like sending data via a modem or copying files. The Norton DiskDoubler Pro provides the fastest, tightest, safest compression available—and the most complete set of compression utilities to be found in a single product. Select files, folders, or entire disks for compression in one easy step. Files expand automatically when you open them, and compress automatically when you close them. Compression even takes place during idle time, without delaying your work.

Fully networkable security for Macintosh!

## FolderBolt Pro w/ Cryptomatic

NEW!

The most popular security just got better! Now enjoy ironclad folder protection at your desktop or over the network. Lock folders as read-only, one way drop folders or fully password protected right from the Finder with the click of a mouse. Including the running System Folder and folder "sets" you define as a group. For the first time, centralized control over network information and desktop configurations is simple. Lock, unlock, or administer protection locally, or over the network. It's more than AppleShare, it's real protection that stays disk-resident on the local workstation. You can even ceate electronic "strongboxes" to secure sensitive information for communications over LANS, WANS, and electronic services. And with FolderBolt Pro's unique key escrow and override, you can still recover data in the event of lost or forgotten passwords. And PowerMac Native code makes it lighting fast. Any way you look at it, you're in control with FolderBolt!

**"...The new SpeedScan feature in Virex 5.0 puts it ahead of the pack."**
***MacWorld*, May 1994**

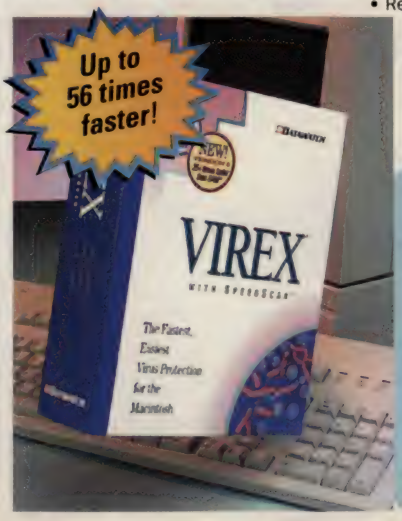
## Virex 5.0 with SpeedScan

MACWORLD MW EDITORS' CHOICE

UPDATE!

Stop wasting time! Virex® 5.0, with patent pending SpeedScan™, delivers virus protection up to 56 times faster than any other product. This dramatic performance advantage eliminates the time other programs make you wait whenever you insert a disk. Virex protects against every known virus and Trojan Horse, along with unknown viruses as well. Virex is the fastest and most secure Macintosh virus protection. Just look at all the ways you'll benefit...

- **Time and productivity savings.** Virex with SpeedScan is so fast, you can get right to work. Virex scans diskettes in seconds. Why wait for your anti-virus software? With Virex, you don't have to!
- **Maximum security.** Virex works instantly. You can check your files automatically and transparently, with no inconvenience. Your files will be checked more often - and your Mac is more secure.
- **Easier to use.** Other anti-virus products interrupt your work with annoying messages - even when there are no viruses! Virex provides complete protection without any of the inconvenience.



MACWORLD MW ★★★★ — *5/94*

- **Compatible with all installers.** With Virex, you don't have to turn off your virus protection to install a new program.
- **Fast updates.** Virex is updated immediately after a new virus is discovered, keeping you fully protected against new virus attacks.
- **Power Mac compatible.** Virex works with all the new Macs, including the Power Macs. And no matter what computer you're using, Virex is the fastest, most complete protection you can buy.

# Backup/ Compression

Fast network backup!

## ARCserve® for Macintosh

NEW!

ARCserve for Macintosh is the high performance backup solution for both individual and networked Macintosh computers. For networked computers, backups can be controlled by a network administrator or by individual users accessing a shared tape drive. Your tape drive can be attached to any networked Mac and still be available to all users. A single screen interface showing both source and destination devices greatly reduces the time required to create a backup job. And file restoration is easy with the Quick File Access utility, which allows you to create extensive search filters. Optimized data transfers allow larger amounts of remote data to be protected in a fixed time period. Flexible scheduling and automation capabilities allow for unattended data protection. Built-in virus scanning prevents infected files from being backed up.

# Backup/ Compression

Efficient backup for System 7.0

★★★★½ —8/93

## DiskFit Pro

Fast, easy, efficient backup for the Macintosh. Secure data against file corruption and hard disk failure. 'SmartSets' of floppies store files in Finder readable format, allowing retrieval of files directly from the backup. Incremental backup replaces only the new or changed files, keeping the SmartSet fast and compact. System 6.x compatible, System 7.0 'savvy'.

Brand New Version!

## StuffIt Deluxe 3.5

NEW VERSION!

Stuffit Deluxe 3.5 is the complete solution for data compression. The new version is loaded with features that make the industry-standard compression program easier to use than ever before! That's because we've built in True Finder Integration™ that makes your software work seamlessly with files on the desktop. If you want to Stuffit a file, you can just drag it from the desktop onto the archive window. Plus, you get the tightest transparent compression available. It's accelerated for Power Macintosh, and even has PowerTalk support.

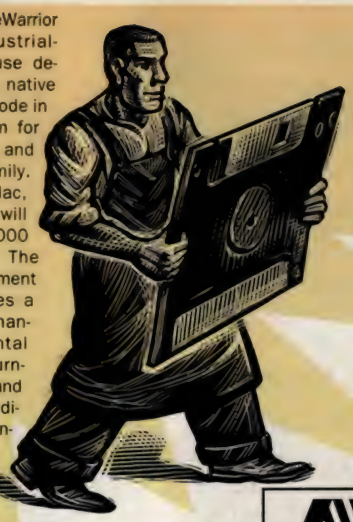
## Macros & Programming

Powerful development tools for the Power Macintosh

### Metrowerks CodeWarrior

NEW! Metrowerks CodeWarrior provides an industrial-strength, easy-to-use development environment for the native PowerPC and 68K Macs. Write code in C or C++ and Pascal, program for both the 680x0 or Power Macs, and compile for either processor family. Even on the lowest-end Power Mac, Metrowerks CodeWarrior users will be able to compile about 100,000 lines per minute. The Metrowerks Development environment includes a powerful project manager for incremental builds and fast turn-around prototyping, and a multi-window text editor which supports syntax-coloring. Metrowerks CodeWarrior PowerPlant is the object-oriented application framework, and PowerPlant Constructor is the application builder. All Metrowerks CodeWarrior Development Environments come with ToolServer, SourceServer, SourceBug, and ResEdit from Apple Computer. Common language front-ends for Metrowerks PowerPC 601 and Motorola 680x0 code generators assure cross-platform source code compatibility. Metrowerks CodeWarrior comes with on-line documentation, including language user guides, system notes, and library reference materials.



***Requires: PowerPC 601 or higher or Motorola 68020 or higher; 8MB RAM; System 7.1 or 7.1.2.***

## Music

Digital audio and CD-ROM utility for your Mac!

### Audioshop 2.0

NEW! New AV- and Power Macintosh-compatible Audioshop version 2.0 is the greatest sound utility ever. Get the most from Macintosh audio with the only program to take advantage of both CD audio and Macintosh digital audio (8 or 16 bit). Use a CD-ROM drive to convert standard CD tracks to Mac files. Record, edit, and play sounds and import and export formats like QuickTime, SND, AIFF, Hypercard, and Director formats. Use Audioshop to add reverb or echo, or to reverse or alter recorded sounds. Try its simple CD-like interface to chain sounds together and play a completed series.

***Requires: MacPlus or higher running system 6.07 or higher; 2MB of RAM; fully System 7 compatible–works with Apple, Farallon, Articulate Systems microphones.***

**MUS 0199**

*Publisher:* Opcode Systems, Inc.

*Suggested Retail:* ~~$149.95~~ **$105**

### StudioVision AV

StudioVision is the first Macintosh software ever to allow complete recording and editing of CD-quality digital audio and MIDI in a single Mac application. Use it for composing music and you can record vocal tracks over a MIDI performance; or you can use it for developing soundtrack music for film, video or multimedia presentation. StudioVision allows you to record and edit an unlimited number of MIDI tracks, along with any kind of digital audio. MIDI tracks can be displayed and edited as standard music notation or as a piano roll or list. Standard music notation can be printed. Digital audio can be non-destructively edited and moved anywhere in a piece, and all data can be locked to time code.

***Requires: Mac IIci or higher; 8MB RAM; System 7 or higher with 32-bit addressing; MIDI interface for MIDI. External hard drive recommended.***

**(for Power Macs & AV Macs)**

The fast, fun way to play guitar!

### G-VOX Education Bundle

NEW! Take private guitar lessons right on your Macintosh with G-VOX. The G-VOX bundle includes all the hardware and software you need to link any acoustic or electric string guitar to your Mac.

You get: The G-VOX Pickup—it hears what you're playing and sends that information to the Belt Pack. The Belt Pack converts the sound of your guitar into an electric signal, putting your guitar and computer on speaking terms. The Riffs software contains an interactive tuner and displays riffs note by note on the screen so you can learn at your own pace.

Start out with the Duquesne School of Music library sample. An add-on to the Riffs software, it demonstrates the essential building blocks of guitar, with examples of finger exercises, scales and arpeggios. Perfect, even for beginners. Take the next step by learning the fingerboard. Scorch teaches you staff notation and finger tablature in a fun and challenging game setting. Now you're ready to take the fretboard challenge with Tour, an interactive game that casts you as a street corner musician on a trek to musical stardom. In this first level, you are surrounded by a skeptical audience throwing pieces of fruit, each containing notes. Play the correct notes before they hit you and watch as your scores and skill level climb to new musical heights. Finally, tie it all together with the Carl Verheyen Modes library. This library takes you through all seven modes in colorful Rock, Jazz and Intervallic settings.

The G-VOX bundle is a totally interactive system that lets you see exactly what you're playing as you're playing it! This instant feedback is the key to why G-VOX is used by the world renowned Berklee College of Music, and was chosen as Electronic Musician Magazine's Educational Product of the Year. A VHS video manual is included and makes installation a breeze. So start playing better faster with G-VOX.

Top selling MIDI interface

## MIDI Translator II

This is the second generation of the MIDI interface which *MacWorld* has called the best-selling music product on the Mac. It gives any Macintosh one MIDI IN and three MIDI OUTs for maximum flexibility. It has LED indicators for both IN and OUT activity, and also features a "thru" switch so that you can use a Macintosh port for MIDI without disconnecting a printer or modem. Requires no power supply and comes with a full one-year manufacturer's warranty.

***Requires: Works with all MIDI devices.***

**MUS 0131**
*Suggested Retail:* ~~$59.95~~

**$45**

## MIDI Translator Pro

The MIDI Translator Pro MIDI interface has double the capacity of the MIDI Translator II. It connects to both the modem and the printer port of the Macintosh, providing you Mac with 32 separate MIDI channels, two MIDI INs and six MIDI OUTs. This allows up to six instruments to be connected at once. It includes modem and printer "thru" switches, so it need not be disconnected to use the modem or printer port for other activities.

***Requires: MIDI instrument reg.***

The ultimate music notation software

MACWORLD MW★★★★★ —5/94

## Overture

NEW!

Overture combines a multitude of professional features with click and drag simplicity. Its toolbar will tear off palettes and keep all operations a mere click or keystroke away – there's no hidden commands or complicated dialog boxes. It also allows you to edit MIDI data graphically, using the same piano tool found in Opcode's award-winning sequence, Vision. Without leaving the notation environment, all performance parameters in the piece can be edited, including note durations, attack times, key velocity, pitch bend, controllers, and program changes. Overture also features complete MIDI playback of all rests, repeats, endings, and dynamics. It supports OMS (Open Music System), so it will run with multi-port interfaces all OMS compatible applications. Overture also has extensive text handling capabilities including lyrics, text boxes, rehearsal marks, footers, and headers. It even includes a new postscript font for musical symbols.

***Requires: System 7.0 or later; Macintosh compatible printer.***

**MUS 0201**
*Publisher:* Opcode

Create your own music!

## MusicTime 2.0

NEW VERSION!

MusicTime is a creative music program that provides a fast, fun, and imaginative way for users to play, compose, record, and print out music on their personal computer. MusicTime is designed for the amateur musician, music hobbyist, and music enthusiast. MusicTime 2.0 builds on the ease of use and capabilities of its predecessor. In addition to recording what you play in realtime and displaying it in standard notation, 2.0 adds direct input from your computer's QWERTY keyboard. This eliminates the need for a MIDI keyboard. The new version also includes color support, a tempo window, and all new documentation. Scores can be created with up to 8 staves and can access 32 MIDI channels. MusicTime is great for writing songs, arranging choral music, exploring composition, and capturing your creative efforts in print.

## Thompson Chain HyperBible™

With over 78 unique features, the Thompson Chain HyperBible will make your Bible study fast, easy, and fun. It includes the complete text and study helps of the Thompson Chain-Reference® Bible and an easy interface that allows you to copy Bible text and Helps into any standard word processor. A powerful automated Concordance lets you search for words, phrases, and topics using logical search expressions such as "and", "or" and "not". The Thompson Chain HyperBible also features a helpful and extensive archaeology supplement with over 130 articles on Biblical sites, a set of Bible maps, and much more. Now available with the traditional King James Version (KJV) as well as several other versions – excellent for parallel study.

### KJV/New International Version

This translation is the easiest reading Bible text available. Its accuracy stems from translating from the best Hebrew, Aramaic, and Greek texts.

**HYP 0043** $99

*Publisher:* Kirkbride Technology

### KJV/New American Standard Bible

A revision of the American Standard Version of 1901. It is considered the most accurate word-for-word modern Bible translation, derived from the best original Hebrew and Greek texts.

**HYP 0046** $99

### KJV/New King James Version

Completed by 119 bible scholars, the New King James version preserves the accuracy of the King James version of 1611, but provides a modern format.

**HYP 0057** $99

### KJV/Revised Standard Version

The Revised Standard Version was created by an ecumenical committee with active Protestant and Catholic members.

**HYP 0056** $99

### KJV/Living Bible

This paraphrase of the Old and New Testaments seeks to express in the simplest of modern English as exactly as possible what the writers of the Bible meant.

**HYP 0054** $99

### KJV/Thompson Chain HyperBible CD

Enjoy the complete works of the Thompson Chain Reference Study Bible on CD-ROM with the following translations: King James Version, New International Version, New American Standard, New King James Version, and the Revised Standard Version.

**HYP 0058** $199.95

**FREE** AM/FM headphone radio with purchase of Maniac Sports*

## ReadySetGrow!

Waaa! Why didn't someone come up with this sooner? This fun, interactive, and informative guide combines animation, illustrations, sound effects, and text to cover all facets of pregnancy, childbirth, and the first five years of childhood. Watch the Biological Clock for a countdown 'til your due date. Answer the Family Profile questions for a "prediction" of your baby's looks and a list of potential risks for your pregnancy. Other great sections include Pregnancy Timetable; Child Development; Address Book with babysitter management and mailing label feature; Calendar with milestone, to-do and diary areas; Medical Records with electronic growth charts; and a Reference section which, with the help of an electronic index, covers pregnancy and childcare from A to Z, with a fully illustrated guide to CPR. This makes ReadySetGrow! the most comprehensive software around for expecting, new, and experienced parents! Why, it does everything short of changing those dirty diapers!

MACWORLD MW ★★★

Bilingual reading program

## Stickybear's Reading Room

Stickybear's Reading Room makes reading fun for kids ages 4-8. This bilingual learning application lets kids switch between English and Spanish at any time. Reading Room uses zany sound effects, stimulating graphics, and verbal reinforcement to entertain and stimulate children as they learn. In the Sentence Builder game, Reading Room reinforces and builds reading ability by animating the sentences kids create. The Word Match game asks kids to match pictures with words, and rewards them with sound effects, graphics, and clearly spoken reinforcement. The Word Find game features hundreds of engaging animations to reinforce successful sentence completions. On-line help screens are available, and a Report Card tracks success.

**EDU 0355**

Build early learning skills

## Preschool Parade

NEW!

Help your child develop all the learning skills they'll need with Preschool Parade. With this innovative teaching tool, children march along with clown and dancing animals to learn ABCs, counting, shapes and more. Learn letters of the alphabet and keyboard layout by matching a picture with a letter. Match colors, patterns and sizes to find out which one is different or similar. Develop basic strategy by unscrambling a picture jumble from the parade. Preschool Parade even follows along and counts out loud with your child as they count the number of objects. Other learning games include Concentration, Paint with Color and Dot to Dot.

## Eco-Adventures in the Ocean

Quest through the world's oceans on a fishing trip photographing rare and endangered species. You'll meet the same challenges real ecologists do: storms, oil spills, radioactive waste, water pollution, and dangerous sea creatures. Earn points by learning as much as you can about everything you see. Use what you learn at the press conference you'll be giving at the end of your adventure. Eco-Adventures in the Ocean is a great way to increase your awareness of ocean ecosystems and the forces that threaten them. Includes a 20" x 30" full-color underwater poster. Ages 8-Adult.

Be a friend of the rainforests

## Eco-Adventures in the Rainforest

Focus your attention on endangered wildlife while trying to avoid dangerous poachers and deadly animals in the rainforests of Africa, Asia, and the Amazon. Heighten your awareness of rainforest species and the factors that are leading to their extinction. Encounter gorillas, boa constrictors, crocodiles, and piranhas. The information you learn in your travels earns you points and prepares you for the press conference you'll give at journey's end. Includes a 20" x 33" full-color rainforest poster. Ages 8-Adult.

Multimedia creator for kids

## Amazing Animation

NEW!

With Amazing Animation, children ages 5-14 years old can create cartoons, movies, video games, or interactive school projects. Young children can simply stamp animated characters and sounds onto beautiful backgrounds to make stories about space, dinosaurs, animals, a circus, or school. Older children can use the powerful drawing and color painting tools to create their own characters and backgrounds. Then they can add text, sound, special effects transitions between frames, and buttons which branch to new stories for user interactivity. Amazing Animation automatically saves your child's stories for sharing with friends and classmates. It's a delightful way to express creativity while learning techniques such as story boarding, temporal thinking, and dramatic use of pauses, color, and sounds.

NEW!

U-Boat is an authentic re-creation of WW II's lethal hunter/killer of the North Atlantic. You captain your own WW II U-Boat, fighting the Allies in the North Atlantic, the North Sea and the Mediterranean from the outbreak of the war to mid-1940. It is a realtime simulation, accurate down to the condensation in the Control Room. The 'you-are-there' sensation is particularly realistic as we have managed to capture most of the Type VII's actual sounds. Like most of our games, the crew communicates through digitized voices. Headphones included.

***Requires: Color or grayscale monitor; 4MB RAM; hard disk drive.***

And if that isn't enough, you can order the drive PLUS a preformatted 44MB cartridge for just $228.95!

Also, GREAT PRICES on 88cMB, 200MB,105MB, and 270MB Power User Removable SyQuest Drives!

All **Power User Removable SyQuest Drives** come with a SCSI cable, power cord, external SCSI address switch, external terminator and disk utility software.

NEW LOW PRICES!

**44MB**

The **Power User 44MB Removable Drive** features the standard for Macintosh data interchangeability— the choice of desktop professionals! Read, write and save files on 44MB cartridges — then take and use them on any 5.25" SyQuest-compatible drive, quickly and effortlessly.

**88cMB**

The **Power User 88c MB Removable Drive** reads *and* writes to BOTH 44MB *and* 88MB cartridges, so you can get the most from what you've already stored, using both storage sizes interchangeably.

**200MB**

The **Power User 200MB Removable Drive** features SyQuest's newest 5.25" technology. Using all three storage sizes interchangeably, this drive reads and writes to 44MB, 88MB and 200MB cartridges so you can get the most from what you've already stored.

**105MB**

The **Power User 105MB Removable Drive** steps up to the challenge of storing and transporting large multi-media, desktop publishing, and database files, on a small 3.5" format cartridge. Perfect for carrying across town or mailing cross-country.

**270MB**

The **Power User 270MB Removable Drive** reads *and* writes to 105MB and 270MB 3.5" format cartridges.Drive provides low cost and the latest drive performance that rivals most fixed hard drives. ***Fastest SyQuest drive ever!***

## Unlimited Capacity!

Need more storage, just pop in another SyQuest cartridge! There's no limit to what you can save and transport. All prices include manufacturer's five-year warranty.

# Blazing Fast 14.4 Voice/Fax/Data Modem

**NEW!**

**Now answers your telephone!**

**Voice Mail capabilities with MaxFax software!**

***for only $119.95***

### ProModem 144e Is Fast, Fast, Fast!

Send and receive data files or faxes, connect to on-line services and exchange messages with people around the world... all at top speeds... with the ProModem 144e. The ProModem 144e features V.42bis data compression to transmit your data at throughput speeds up to 57,600 bps. And, it automatically connects at the highest speed possible—no need to know the other modem's capabilities.

The ProModem 144e preserves the integrity of your data using V.42 error correction, so you get error-free transmission at the highest possible speeds. When errors are detected, ProModem 144e automatically retransmits the data, so you never have to worry about incomplete transmissions.

• • • •

### Get Started *Right Away!*

ProModem 144e includes Communicate Lite software so you can start using your modem immediately. This user-friendly communications package guides you through everything from installing to connecting your modem. Plus, it lets you connect to on-line services and transfer files right away!

• • • •

### MaxFax Software Makes Faxing Easy!

Sending a fax right from your desktop is as simple as printing a document... MaxFax software (included) handles all the details of dialing and transmitting the fax. On-line phone books keep your frequently used fax numbers close at hand. Incoming faxes are stored in the MaxFax Queue to be opened and viewed on-screen or printed. With MaxFax, you can also resend your faxes to new recipients, or export them to TIFF, PICT, or MacPaint formats.

• • • •

### Now with Voice Messaging, too!

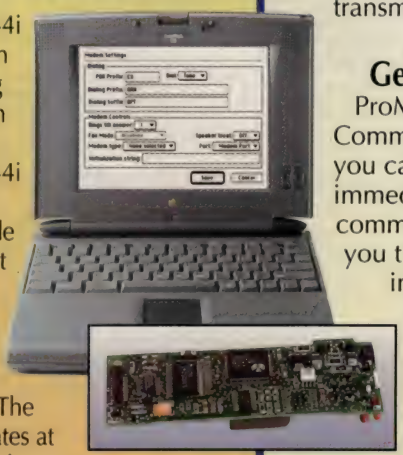
With new MaxFax software, your ProModem 144e can even answer your phone, play a greeting and record a voice message. Callers have no idea they're speaking to a computer! MaxFax lets you design your own personal voice mail system with individual mailboxes for everyone in your home or office. You can even access your system remotely to retrieve messages and change your greeting.

***For an exceptionally fast voice/fax/data modem that's easy to use right out of the box, order your ProModem 144e today!***

**ProModem 144e Voice/Fax/Data Modem**
**MOD 0064..... $119.95**

**DMD 1352 (non voice)..... $89.95**

## ProModem 144i
### *Internal Fax/Modem for PowerBook*



The ProModem 144i is the ideal solution for anyone looking for a low cost, high speed fax/modem. The ProModem 144i is an internal unit that fits easily inside your PowerBook. It sends and receives faxes in the background at 14,400 bps Group III fax rate. The data modem operates at 14,400 bps and with its V.42bis/MNP-5 protocols, can achieve throughput of 57,600 bps. The ProModem 144i comes with MaxFax and Communicate Lite™ fax/modem software. Supports all 100 Series PowerBooks.

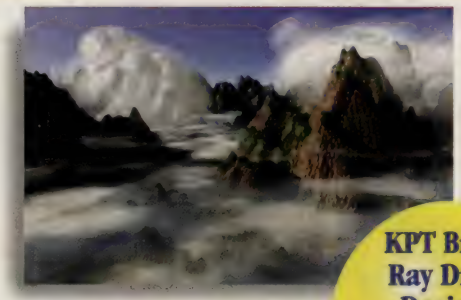
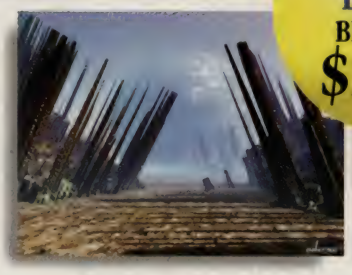
# DESIGNER POWER TOOLS AT Sizzling PRICES!

## KPT Bryce 1.0

KPT Bryce makes it easy to create natural and supernatural 3-D landscapes, photorealistic backgrounds, breathtaking skies, or any world that your imagination can invent...all in one application. It brings you the design and rendering power of high-end, 3-D raytracing technology. Choose from dozens of preset skies, grounds, and terrains which can be combined in thousands of variations...or create your own! It even lets you turn your creations into personal screen-savers!





**KPT Bryce / Ray Dream Designer**
**BND 0543**
**$279.95**

## Ray Dream Designer 3

Create stunning 3D illustrations easily. Ray Dream Designer lets you break the barriers and add the powerful visual impact of 3D. Draw directly with the bezier pen tool or let the Modeling Wizard guide you in creating 3D shapes. Apply multiple colors and textures to achieve real world results in just seconds. You can even scan images directly from your scanner. Completely compatible with your graphics library. Full support for Photoshop alpha channels and plug-ins.

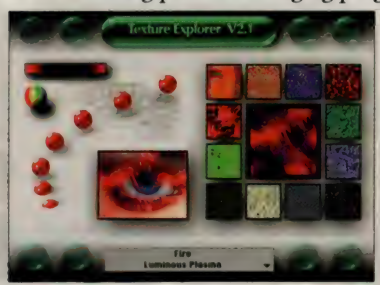
Tony Jones

Mark Siegal

This illustration was created using a combination of Ray Dream Designer 3 and Adobe Photoshop.

## Kai's Power Tools 2.1

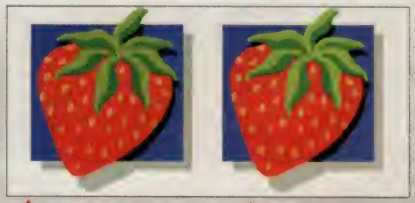
Whether you are a Photoshop expert or just a beginner, Kai's Power Tools will immediately accelerate your ability to produce stunning images and graphics. This award-winning set of 33 plug-in extensions and filters lets you create dynamic gradients, infinite textures, awesome fractals, and more. It includes Micro Frontier's Color-It, an award-winning paint and imaging program that helps to make Kai's Power Tools and JAG II a power-packed complement to Adobe Photoshop.



**Kai's Power Tools / Jag II Bundle**
**BND 0544**
**$149.95**

## JAG II

It's fast, it's easy, and it works! JAG II removes jagged edges from your digital images and animations. No matter which paint, 3D, animation, multimedia, or photo-rendering package you're using, JAG II delivers crisp, clean, still images and animations. Works great with black & white or color images, even bitmapped clip art! Batch processing cleans up entire animations with one click of the mouse. Use your plug-in filters like Kai's Power Tools in JAG II–complete filter support.



▲ Before JAG II at 72 dpi

# Stop problems before they start with 3 utilities from MICROMAT!

**SPECIAL OFFER!**
**Get MacEKG and DriveTech**
**Both For Only $99.95**
**Ask for item # UTI 0590**

**Gives verbal warnings of system's integrity!**

## *MacEKG monitors hardware and system problems before they turn into major trouble!*

Don't wait until your Macintosh is experiencing trouble! With MacEKG diagnostic software, you can give your Mac a "check up" that lets you know exactly how your system's doing before trouble strikes. MacEKG is so sophisticated, it actually learns how your Mac behaves. And, it notifies you when your Mac's health is below par, with actual speech!

Within minutes, MacEKG performs 35 benchmark tests and compares over 250 system parameters using advanced component level diagnostics previously available only to authorized Apple repair facilities.

1992 MacUser Editors' Choice Awards WINNER

**Use MacEKG to test:**

- VIA IC
- SCC IC
- SCSI IC
- RAM
- PRAM
- Media
- Configuration changes
- And more!

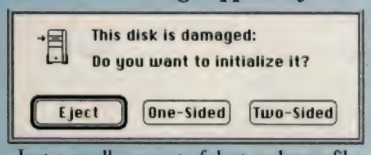
## *Extend the life of your floppy drive—keep it clean with DriveTech!*

***Does this message appear often?***



Just a small amount of dust and your file is gone forever. Now you can protect your data with DriveTech!

**Great for Home or Office use!**

DriveTech can extend your drive's life. It checks every track and sector position to verify your drive's read and write accuracy. It then offers an advanced head cleaning routine that employs the 3M Head Cleaning Diskette — the only cleaning system approved by Apple.

DriveTech is a complete and easy way to prevent data loss, errors, and general drive failure caused by microscopic dirt and other foreign particles. If you've ever received the message, "This disk is unreadable" when you know the disk is quite readable, then DriveTech is the product you need.

*"I highly recommend DriveTech as a first defense for floppy drive failures. Nothing else even comes close…*
*— Douglass High, author of Troubleshooting Your Macintosh.*

*UTI 0417*
*Suggested Retail: ~~$59.95~~* **$45**

**Floppy Testing and Maintenance**

***DriveTech… the complete diagnostic and cleaning system for your floppy drive.***

- Eliminates error-causing problems
- Tests relative alignment
- Tests read/write heads
- Tests head stepper motor
- Tests eject motor
- Logs test results
- Cleans with Apple approved disk

## *Don't let print jobs tie up your computer—queue them to a server with PrintShuttle!*

Tired of waiting and waiting for a file to print so that you can get back to work? Dramatically speed up the process with PrintShuttle print management and spooling software.

PrintShuttle eliminates setbacks caused by other print spoolers: erratic mouse movement, and hindered system response. Instead, it quickly sends your print job to another machine (print server) on the network, then lets the print server take over. And, once on the server, your print job is processed quickly in the foreground! Works with all LaserWriters using the Apple LaserWriter driver. Order today!

*UTI 0543*
*Suggested Retail: ~~$168~~* **$109**

**3**

**Compatible with all major desktop publishing applications!**

*PrintShuttle quickly sends your print job to the print server, and lets you know when printing is completed.*

**Now only $99 with FREE *The Animals!***

*"The most outstanding reference source on CD..."*
*- Mac Home Journal*

Grab your passport to an exciting world of imagination and discovery with the 1995 edition of the Grolier Multimedia Encyclopedia. This new, expanded and updated version contains a host of new features, articles, photos and images.

*Experience the eloquent inaugural address as John F. Kennedy takes up the mantel of the President of the United States as a full-action video. Just one of many video clips that bring this multimedia encyclopedia to life as the main events of our recent history unfold on your computer screen.*

Thanks to lightning-fast CD-ROM technology, you'll find the entire 21-volume American Academic Encyclopedia at your fingertips instantly — all on one CD-ROM!

In just seconds, you'll tap into a wealth of information on virtually any subject — that will come alive right before your eyes. You'll discover 33,000 thoroughly researched and up-to-date articles on Science, World History, Music, Art, and much more.

*Marilyn Monroe, shown here in her most famous pose from the movie, The Seven Year Itch. You'll find a whole world of popular culture within Grolier's 33,000 articles — from film to print to canvas.*

There's also over 8,000 pictures, more than four hours of multimedia maps, movies, sounds and narrated animations, plus all-new innovative features — like Knowledge Explorer a Graphical Timeline — that bring this magical historic resource to life on your screen.

Since its introduction in 1985 as the first CD-ROM encyclopedia, the Grolier Multimedia Encyclopedia has been setting and re-setting the standard for quality and innovation in interactive learning. And, now, the new 1995 Grolier Multimedia Encyclopedia takes you on its most remarkable journey yet, with an expanded, enhanced edition that includes extraordinary new features...

**NEW! Pathmakers video interviews.**

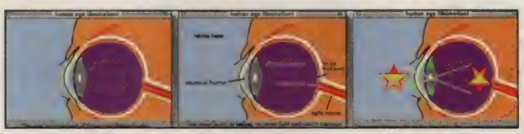
Find out the real facts on Art, Sports, Innovation and more, direct from the experts. See the world through their eyes - imagine hurtling into space with astronaut Edwin "Buzz" Aldrin or leaping into Olympic history with Jackie Joyner-Kersee. Other video interviews include award-winning natural historian Stephen Jay Gould, critically acclaimed novelist Kurt Vonnegut, artist Helen Frankenthaler and inventor Paul MacCready.

*Kurt Vonnegut, Jr. Author*

**NEW! Graphical Timelines.**

Travel through time with Grolier and you'll meet the people who made history, the events that shaped the world as we know it, and more.

Unlock the secrets of the universe on your Macintosh or IBM-compatible with the all-new features, and expanded and updated articles and photos of the new 1995 version of the Grolier Multimedia Encyclopedia.



*Not only listen, but actually see for yourself how the cornea of the eye sends messages to the brain via the optic nerve. Step-by-step animated sequences make even the most sophisticated subjects easy to understand.*

**NEW! Knowledge Explorer™ Audio-Visual Essays**

From inner to outer space and all points in between, these informative multimedia essays take you around the globe, the galaxies, and beyond.

*Hear the trembling roar of the King of the Jungle, and the sounds of many other mammals as you read about their habitat, the hunting and feeding rituals, and much more. From key facts to interesting tidbits, it's all here!*

**NEW 1995 Grolier Multimedia Encyclopedia with FREE The Animals!**

# Get award-winning CAD capabilities with MiniCad 5.0

NEW VERSION!

## With FREE MacroMind Training CD and FREE ClarisCAD Conversion Kit!

Graphsoft

MiniCad 5.0 provides award-winning, fully integrated Architectural, Mechanical, and Design Modules to deliver all the CAD capabilities you need. MiniCad's foundation is a classic 2D drafting environment with an exhaustive array of 2D tools and menu functions. MiniCad builds on its 2D foundation with a powerful, interactive 3D environment that lets you model with remarkable ease. MiniCad's built-in database lets you attach attributes to any graphic object, like object size, color, or serial number, and print reports and spreadsheets. And with MiniCad's powerful macro language, you can automate complicated or repetitive tasks. Order today and you'll see why *MacUser*'s James Anders called MiniCad "a versatile powerhouse."

## the Diversity of MiniCad

### POWERFUL 2D DRAFTING

- Advanced auto-dimensioning, tolerancing, filleting and chamfering
- User-definable scales and units, plus metric, fractional, or decimal feet and inches
- Support for ANSI, DIN, ISO, JIS, BSI, and SIA dimensioning standards
- SmartCursor™ provides automatic highlighting and identification of relevant snaps, intersections, tangents, and parallels
- Smart walls with trim and auto-joint, plus automatic window and door openings
- Polyline tool combines beziers, lines, and arcs into one closed surface
- Hierarchical groups that can be edited without ungroup
- Unlimited layers and object classes

### REMARKABLE 3D MODELING

- Versatile walk-through and fly-over tools with multiple view capability
- Orthogonal, isometric, perspective, cavalier, and cabinet projections
- Automatic generation of multi-story models from floor plans with wall, roof and floor elements
- Multiple extrusions, sweeps, polygon meshes, and more
- 2D and 3D symbol linking to create hybrid symbols which can be used to create 3D models

### TIME-SAVING MACRO LANGUAGE

- Generate complete drawings from specs entered in dialog boxes
- Produce reports based on database and graphic elements
- Perform engineering analysis
- Over 300 subroutines ship with MiniCad
- Software Developer's Kit available for advanced programming capability

### PRODUCTIVITY-ENHANCING DATABASE/SPREADSHEET

- Attribute palettes let you attach attributes—size, price, color, serial number, etc.—to graphic objects
- Database and spreadsheets let you track project materials usage and costs

# Lightning Fast 28.8 Fax/Modem for Only $139.95!

NEW!

Manufactured under license by **Hayes**

**Incredible Modem Speed!**

**28.8 Data! 14.4 Fax!**

**Incredible Low Modem Price!**

Software Upgrade only $29.95

### Pull into the fast lane on the information highway!

Magnum 288 is the perfect choice for high-speed data and fax communications. It uses the latest error control and data compression to protect your valuable data and send it rocketing along dial-up phone lines at up to 115,200 bps. Plus, its 14,400 bps fax speed is the fastest available...making it convenient to send and receive faxes right at your Mac. Best of all, it uses automatic speed, error control and data compression negotiation to automatically handle all the details for you.

### Get started right away with Mac Com Center software.

You can begin using your Magnum 288 modem right away with the **FREE** Mac Com Center software included! Send faxes in the background while you work in other applications. Use the phone directory to store frequently used numbers. Schedule fax transmissions when phone rates are lowest. You can even include a fax cover page thanks to Mac Com Center.

With top speeds, full-feature software and an incredible price of only **$139.95** you can't find a better value than the Magnum 288. Order today!

**DMD 1255 .....ONLY $139.95**

Requires: Mac Plus or higher; 2MB RAM; System 6.05 or later; 3.5" floppy drive; hard disk; Class 1, 2, or 2.0 fax/modem; Multifinder.

### Mac Com Center Plus (software upgrade)

Includes all the great features of regular Mac Com Center, plus OCR character verification for faxes received into text files. Also supports Zmodem file transfer protocol.

**UPG 0093.....ONLY $29.95**

### Magnum 288 lets you do it all!

- ✔ Send documents at high speeds to fax machines or other fax/modems.
- ✔ Communicate with other data modems at up to 28,800 bps.
- ✔ Call online services like CompuServe and America Online. Or call bulletin boards to download free software.
- ✔ V.42bis and MNP5 data compression provides throughputs up to 115,200 bps, saving you time and money!
- ✔ V.42 and MNP2-4 error control protects your data transmission.
- ✔ Automatic line speed fallback lets Magnum 288 continue to transmit data regardless of the phone line quality.
- ✔ Automatic negotiation lets you use Magnum's powerful features without being a modem expert.
- ✔ Operates on standard phone lines, phone cable included.
- ✔ Free Mac Com Center data and fax software makes it easy to communicate.
- ✔ Includes money-saving offers from online services.

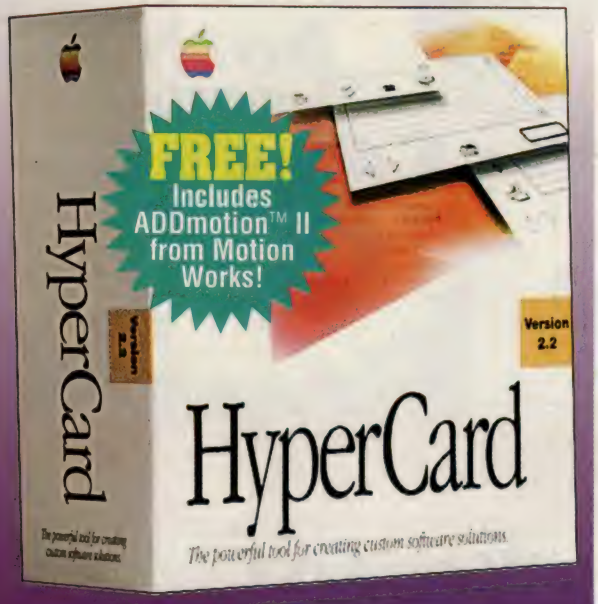
# HyperCard 2.2

## for only $99.95



**Quickly and easily develop applications with HyperCard 2.2, the leading tool for creating custom software.**

HyperCard organizes information into easy-to-use "stacks" of cards, through which users can navigate and search for the information they need. It's an ideal development tool for a wide range of applications including multimedia presentations, front ends to host data, computer-based training materials, and more.

Work from ready-made templates, buttons, and scripts to make your custom software look and operate with the simple point-and-click operation Macintosh applications are known for. Add flair to your software by incorporating color and QuickTime using the included tools. Plus, HyperCard 2.2 now supports AppleScript, so you can easily control scriptable off-the-shelf applications — and automate repetitive tasks — with the click of a button.

**FREE BONUS!** ***Create animation for your HyperCard stacks with ADDmotion by Motion Works. It's FREE with HyperCard 2.2!***

### Create custom applications with HyperCard 2.2!

- ✔ Create double-clickable applications for customers, colleagues, or students who do not have HyperCard software.
- ✔ Build stand-alone applications, then distribute them royalty free.
- ✔ Rapidly prototype and test software designs.
- ✔ Attach AppleScript scripts to HyperCard buttons to launch and control off-the-shelf software.
- ✔ Work with familiar Macintosh interface features such as buttons and pull-down menus.
- ✔ Store and import graphics, scanned images, sounds, text, and QuickTime movies.
- ✔ Select from a palette of 256 colors.
- ✔ Import graphics, then resize and reposition them on the cards.
- ✔ Control the content, appearance, and placement of text elements.

*HyperCard works like a deck of index cards, making it easy to create and customize your software and manage information. Users can navigate to other card windows, stacks, or applications by clicking program buttons you create.*

*Store text, graphics, scanned images, and sounds in your stacks. The QuickTime Tools stack (included) lets you add movies to your stacks. You can even add 32-bit color PICT images, using scripting and the Picture XCMD (also included).*

*With the Color Tools stack, assign colors to HyperCard elements such as buttons, fields, backgrounds, and cards. Use color tools to import and resize color PICT graphics.*

### Customize your Mac environment with AppleScript!

AppleScript scripting software offers a flexible way to customize your Macintosh environment and automate often-repeated tasks. Compile scripts or create custom, stand-alone applications that let you perform complex operations with just a click of a button. AppleScript's language features a natural syntax of words and statements, so complex scripts are easy to build and understand.

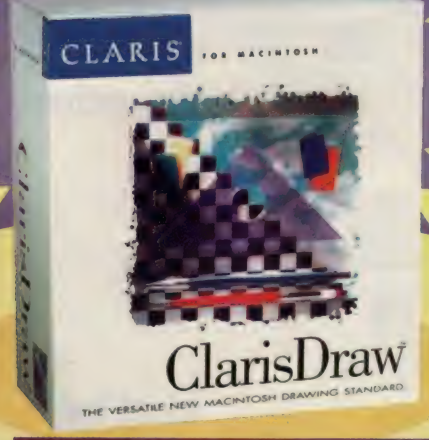
# Upgrade to NEW ClarisDraw for as low as $89*

The Next Generation of MacDraw Software



ClarisDraw is ideal for anyone who needs a versatile, reliable, and easy-to-use graphics program. ClarisDraw is the newest version of MacDraw Software graphics software, offering over 75 new features with the same ease of use that has made MacDraw Software the standard for Macintosh graphics. ClarisDraw is perfect for creating brochures and flyers, maps, technical drawings, signs and banners, floor plans, overhead transparencies, and more.

Accelerated for Power Macintosh

## ClarisDraw Features:

NEW! **Full-color painting** enables you to produce dazzling 24-bit paint images using the paintbrush, bucket, spray can, and other tools.

NEW! **3000 piece SmartSymbol library** contains thousands of graphic elements that you can drag and drop into any document.

NEW! **Image Editing Effects** let you use tint, darkness, blend, distortion, shearing, and perspective to create stunning graphic effects.

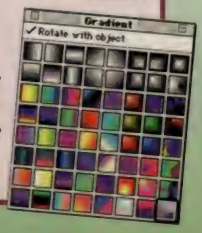
NEW! **Text wrap feature** automatically wraps text around any graphic shape.

NEW! **Linked text frames** speed the layout process on any document by automatically flowing text across frames placed anywhere on the page.

➡ **Powerful word-processor** allows you to position text with precision using tabs, provides for subscript and superscript, and gives you control over line and letter spacing.

➡ **Streamlined tool set** for creating lines, rectangles, ovals, arcs, and polygons, so you can get started designing graphics immediately.

➡ **Full-featured floating palettes** give you easy access to colors, patterns, and gradient fills. Use up to four colors in each of three gradient types to create professional shading effects.



*Achieve dramatic visual results with text curved or bound to any object you specify*

# UPGRADE YOUR MAC with Power User INTERNAL DRIVES!

## Just plug in the drive and start your Mac– it's that easy!

If you need to expand your Mac's storage capability, your best bet for price, performance and easy installation is a Power User internal drive.

Every drive comes preformatted (with the driver software already loaded) and supports SCSI Manager 4.3. The appropriate brackets and cables are included with step-by-step installation instructions. You'll be up and running in minutes!

You'll also get a copy of our advanced formatting and utility software that supports advanced features like partitioning and password protection. All Power User internal drives also have a full one-year warranty on the drive.

## Get ultra-fast performance from top-quality components.

Power User's top-quality drive mechanisms come from the most reputable manufacturers — like Quantum, Conner, and DEC.

All have between 64K and 512K buffers, with access times between 9 and 12 msec for ultra-fast performance. And they don't draw much power. No matter what model Mac you're using, we have a Power User drive for it! Just check the chart to find your Mac model, the storage capacity you want, and the Power User drive order number.

## Newton MessagePad 100 and 110

Both the MessagePad 100 and the MessagePad 110 can help you manage information, stay organized, and, thanks to their sophisticated communications capabilities, keep you in touch via fax, e-mail, and paging. You can even take notes in "electronic ink" to quickly jot down your ideas, deferring recognition until later. Infrared beaming technology lets you share information from your Newton with other Newtons—great for silent collaboration across the conference table! And with a host of available accessories and software titles that let you do everything from faxing business proposals to playing golf, your Newton is likely to become your most treasured possession. Both Newton packages include pen, Newton video, Newton Handbook, and Newton Setup and Handwriting Guide. Order today and get the personal assistant you deserve!

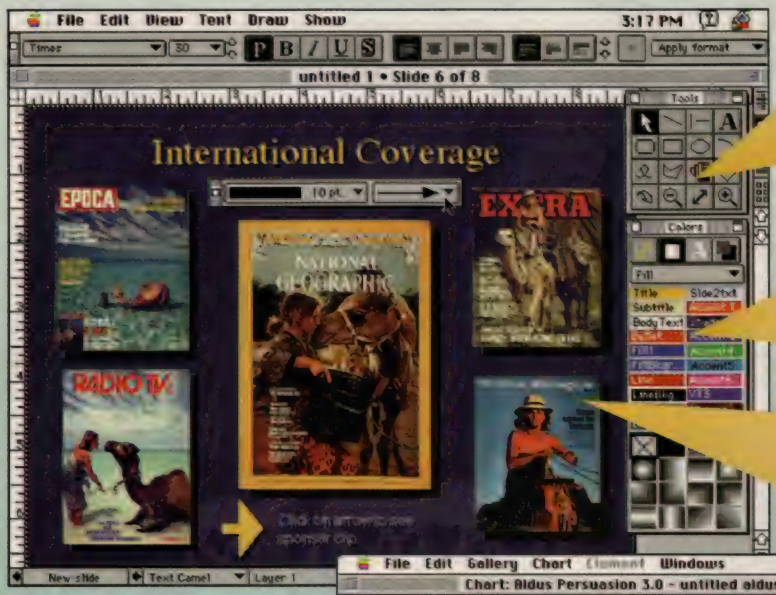
# Upgrade To Persuasion 3.0 For Only $149

*For the most compelling slide, on-screen, and multimedia presentations, upgrade to the new Persuasion 3.0. From original concept to final materials, Persuasion's powerful tools make it quick and easy to design presentations for business meetings, new product introductions, business plans, training sessions, and more. So select a template. Automatically create a chart. Add color. Highlight facts. Import a photograph. Even add video, animation, sound, and branching! It's all cut-and-paste easy with Persuasion 3.0–upgrade today!*



**Precision Controls.**
Floating palettes offer precise control for text, colors, fills, and other elements. Nudge Controls provide exact repositioning and rescaling. Plus, automatic kerning.

**Improved Color Management.**
Get more accurate on-screen and printed color with new dynamic optimization. New grayscale mode lets you view and edit color presentations for B&W printing.

**On-Screen Presentations.**
Advanced multimedia features include autojump branching, direct import of QuickTime movies, auto-animate, auto layering, transitions effects, and more.

**State-Of-The-Art OLE Capabilities.**
OLE (object linking and embedding) allows Persuasion's charting module to import data from PageMaker, Excel, Word, and other applications.

**New, Easy Interface.**
An interface with "look & feel" is friendlier, faster, and easier. Includes floating palettes, screen prompts, ruler guides, relocatable zero, and more.

**Powerful Charting.**
Present data in 84 chart types, including 3D formats with ability to rotate, skew, add perspective, and scale. Add gradient fills. Keep data sheets for each chart.

**Superior Outlining.**
Enter speaker note for convenient prompts. Icons show which slides include charts and tables.

# 2700 dpi slide scanning in under 1 minute!

*If you regularly scan 35mm slides, you can save thousands of hours a year using the SprintScan 35. Plus, it gives you the time and flexibility to make all creative image changes right at your desk, so you can see the results in seconds.*

# Polaroid *SprintScan 35*

Polaroid®

## *Easy to use...*

Operating the Polaroid SprintScan 35 is simple. Just drop in the slide or insert a negative strip, point and click. SprintScan's on-board hardware provides real-time color processing, along with image smoothing, sharpening, and correction. In under a minute, you'll have a digitized image which maintains the fidelity of the original slide. Plus, Polaroid provides customer support and technical assistance from 8:00 a.m. to 8:00 p.m. EST, so help is only a phone call away.

*SprintScan 35 allows you to produce higher output in less time without compromising quality.*

## *High-quality scanning...*

The Polaroid SprintScan 35 provides low-cost, high-quality image acquisition and unmatched scanning speeds that make it the ideal scanner for graphic arts departments, desktop publishers, pre-press service bureaus, short-run commercial printers, and image archivists. It can scan 35mm slides at 2700 dpi in less than one minute—five to fifteen times faster than other slide scanners! SprintScan offers unsurpassed image quality by using proprietary CCD sensor technology to capture 10 bits per color (Red, Green, Blue) in a single pass.

## *And it works with the software you use...*

The SprintScan 35 provides full-color images ready for use in image manipulation programs such as Adobe Photoshop, desktop layout programs like QuarkXPress, and presentation programs such as Aldus Persuasion. The SprintScan 35 includes an Adobe Photoshop plug-in for Macintosh.

System Requires: Mac II or Quadra families; 8MB RAM (16MB RAM recommended); System 7.01 or later.

# New! Get unbeatable precision and durability with a MacPoint mouse!

only $29.95

Navigating through your most demanding applications—CAD, graphics, desktop publishing, and more—has never been easier than with MacPoint! Mouse Systems has incorporated over ten years of experience into MacPoint to give you state-of-the-art opto-mechanical technology for superior pointing precision. The MacPoint design features smooth sculptured lines so it's comfortable through long periods of intense work. This high-resolution mouse is even housed in high-impact plastic to protect its advanced circuitry and to ensure long life. MacPoint is backed by a lifetime warranty and Mouse Systems' reputation for building quality, award-winning products.

## Features:

- One button (ADB) mouse
- High-resolution (350 dpi)
- Advanced opto-mechanical technology for superior performance and reliability
- Smooth, sculptured lines for comfortable long-term use
- Perfect for right- or left-handed users
- Durable high-impact plastic
- Free mouse pad
- Lifetime limited warranty

**FREE Mouse Pad** with purchase of a MacPoint Mouse!

**MacPoint**
Ask for item # INP 0405
Suggested Retail: ~~$39.99~~ ..... **$29.95**

**System requirements:**
All Classic, LC, Mac II, Quadra, Centris, Performa, PowerBook, SE, SE/50, and Power PC Systems

**Mouse Systems mice and trackballs are light years ahead of conventional pad-bound mice because when you "click, track 'n' drag" they respond with patented M5 optical technology. They're unbelievably accurate and have no moving parts to need cleaning, wear out, or break. Mouse Systems mice and trackballs provide years of performance at affordable prices. There's a Mouse Systems mouse or trackball that's perfect for you.**

## Big mouse performance in a little package!

The Little Mouse ADB employs M5 optical technology to acheive a new level of functionality in mouse performance. It is the smallest, lightest, and most accurate mouse on the market. It's perfect for desktop publishing where accuracy and reliability are important. The Little Mouse never skips, stutters or stumbles across your screen because it has no moving parts—you provide the motion. Includes optical pad.

**Little Mouse ADB**

Suggested Retail: ~~$134.95~~ ..... **$69.95**

## User-programmable three-button mouse power!

The A³ Mouse employs M5 optical technology to achieve a new level of functionality in mouse performance. Along with opto-tracking, the A³ Mouse provides three definable buttons you can "program" to open files, copy files, or perform any other function. The A³ Mouse is A/UX, Mac, X-Windows, and Mac OS compatible. Includes optical pad.

**A³ Mouse**
Ask for item # INP 0163
Suggested Retail: ~~$149.95~~ ..... **$74.95**

## Super tracking ability!

The A³ Trackball redefines mouse input by offering advanced opto-mechanical and user-definable button-mode selection. You can assign keystroke sequences or menu selections to the buttons to simplify all your mouse tasks. Lock buttons down for "drag 'n' open" options, or set them for standard UNIX functions under MacX, X Windows, and other A/US environments.

**A³ Trackball**

MacWAREHOUSE is an Authorized Apple Supplies Reseller

# Get the *fastest* Hayes fax/modem for only $479.95

Hayes®

Fastest Speed Available! 28,800 bit/s

## Hayes OPTIMA 288 V.FC™ + FAX

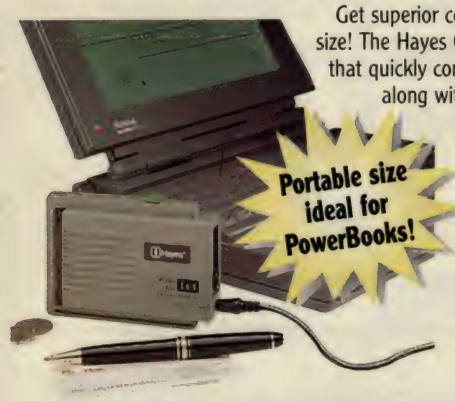
For the fastest communications speeds available, get Hayes OPTIMA 288. This super-fast fax/modem transfers over a megabyte of data per minute with speeds up to 230,400 bit/s! The V.FC modem supports 28,800 bit/s data transmission, plus 14,400 bit/s fax rates.

**The OPTIMA 288 is loaded with advanced Hayes features, including:**

- V.42 and MNP2-4 error control
- V.42bis and MNP5 data compression
- Automatic Feature Negotiation for the fastest, most reliable transmission links
- Smartcom data and Smartcom FAX software
- Cables

**DMD 1252** ..... **$479.95**

## Hayes OPTIMA 144+FAX144 Pocket Fax/Modem



Get superior communications performance in an ultra-compact size! The Hayes OPTIMA 144+FAX144 is an external fax/modem that quickly connects to your desktop Mac — and easily travels along with your PowerBook!

**The OPTIMA 144 features:**

- 14,400 bit/s Group III fax send/receive rate
- 14,400 V.32bis data transmission
- 57,600 bit/s throughput with V.42 compression
- V.42 and MNP2-4 error controls
- Automatic Feature Negotiation for fastest transmission links
- Smartcom II and Smartcom FAX software
- Cables, battery pack, wall transformer and carrying case
- 5-year warranty offer

# Connect from 5 to 100 Ethernet Devices with DaynaSTAR Hubs!

LIFETIME WARRANTY
Lifetime Warranty

8 Port Hub only $199

## The DaynaSTAR Stack Hubs

Create a single, logical repeater for your Ethernet network with DaynaSTAR Stack hubs. Both the Stack-12 Hub and the Stack-24 Hub are 10Base-T intelligent hubs: the Stack-12 has 12 10Base-T ports, while the Stack-24 Hub has 24 10Base-T ports. Both have built-in AUI ports and allow you to use an optional transceiver module to connect the hub to Fiber Optic, Thin, and Thick Ethernet backbones. You can stack up to four hubs with any combination of 12 and 24 ports, creating a single, logical repeater. For advanced network management capabilities, you can add the DaynaSTAR Stack Management Module to your hub or stack. This module allows you to accurately monitor network traffic and catch potential problems before they happen.

**DaynaSTAR Stack-12 Hub: NET 0555 .....$699**
**DaynaSTAR Stack-24 Hub: NET 0556 .....$1199**
**DaynaSTAR Stack Mgmt. Module: NET 0551 .....$579**

## DaynaSTAR MiniHub-8

MiniHub-8 supports up to eight network devices on 10Base-T Ethernet wiring and is fully IEEE 802.3 compliant. All Network Operating Systems are supported including AppleShare, NetWare, TOPS for Macintosh or MS-DOS, VINES, PhoneNET Talk, and DECnet. All brands of Macintosh, IBM-compatible and other makes of computers, printers, and servers are supported, as long as they are equipped with an Ethernet interface. The MiniHub-8 can function as a stand-alone hub for a network of up to eight devices. It can also be daisy-chained with other hubs over 10Base-T wiring to create larger networks. A BNC connector allows you to connect the MiniHub-8 to a Thin Ethernet backbone.

**DaynaSTAR MiniHub-8: NET 0197 .....$199**
**DaynaSTAR Hub-24: NET 0359 .....$899**

Dayna
No Boundaries NO LIMITS

## DaynaPORT Ethernet Adapters

DaynaPORT Ethernet Adapters offer more than just high performance for your Macintosh network. In addition to boosting performance to the Ethernet standard transmission rate of 10 million bps, DaynaPORT Ethernet Adapters offer you quality, reliability, and innovation at a price that's right! Dayna stands behind their Ethernet Adapters with a lifetime warranty, 24-hour replacement, a unique free card exchange program, and free phone support from expert network technicians. No matter which Mac model you want to connect to Ethernet, Dayna has the adapter you need. Dayna's full line of high-performance adapters connect any Mac to 10Base-T, Thin, or Thick Ethernet cable systems in a snap. And at low MacWAREHOUSE prices, Dayna adapters are the best value for your money!

# metrowerks CodeWarrior

***The fastest way to write 68K and Power Macintosh code.***

## Ten Compilers!

CodeWarrior Gold includes 10 compilers and CodeWarrior Bronze includes four compilers. With our Power Mac-hosted 68K cross compilers, you can build both 68K and Power Mac apps on the Power Mac. Conversely, with our 68K Mac-hosted PowerPC cross compilers you can build 68K and Power Mac apps on a 68K Mac. Note: CodeWarrior compilers are shipped as fat binaries!

## Native IDEs!

The CodeWarrior integrated development environment ("IDE") is native on both the 68K Mac and Power Mac. The same easy-to-use environment is used to program in C, C++ and Pascal. Note: CodeWarrior IDEs are also fat binaries.

## Get To Market Faster!

CodeWarrior compilers build your 68K and Power Mac apps at +200,000 lines/minute on a Power Mac 8100, with comparably high rates on less powerful Macs!

## Two Free Updates!

CodeWarrior is updated 3x/year on CD-ROM. Purchase either version of CodeWarrior and you are entitled to receive two future updates free of charge.

***"Without Metrowerks CodeWarrior it would have been impossible to develop Adobe Illustrator for the Power Macintosh"***
Don Melton
Software Leader, Adobe Illustrator for Power Macintosh, Adobe Systems, Inc.

***"Great company, fast compilers... how can you beat that?"***
Lee Richardson
Development Manager, MacWrite
Claris Corporation

# Never Retype Another Word!

## Get the fastest, most accurate OCR ever!

Accelerated for Power Macintosh

## OmniPage Professional 5.0

For your high-end recognition needs, choose OmniPage Professional 5.0, the world standard in OCR. This new version includes all the powerful capabilities of OmniPage, plus the full realm of Caere's advanced OCR technologies and features.

Experience precision accuracy for your most difficult-to-read documents with the revolutionary new 3D OCR™. This new technology actually views the "depth" of each character pixel to use as additional data for recognition. And, you'll find it exclusively with OmniPage Professional 5.0!

OmniPage Professional provides other great features, too. With Deferred Processing, you can scan large batches now and automatically recognize them at a specified later time. You can even edit color images contained on a recognized page with Image Assistant, Pro's integrated 24-bit color image editing package.

**Requires:**
- Any Mac II family, SE/30, Quadra, or Power Macintosh
- 8MB free disk space 8MB of RAM minimum
- System 7 or higher

**UTI 0524**
**Publisher: Caere**
Suggested Retail: ~~$695~~ ..... **$499**

MACWORLD MW EDITORS' CHOICE
MACWORLD 1992 World Class Award Winner

Accelerated for Power Macintosh. Runs on Your Regular Mac, too.

## OmniPage 5.0

Accurately scan thousands of pages of text directly into your computer. It's fast, easy, and reliable with OmniPage 5.0. Using many of Caere's newest OCR technologies, OmniPage recognizes virtually any font, in any style or column format. It reads documents with any mix of text, numbers, and graphics — including low-resolution documents like faxes. It even creates files in any popular word processing, spreadsheet, image, or database application.

OmniPage is fast, too! The new Dynamic Access Panel provides quick "one-click" OCR processing and lets you modify your workflow, even in the middle of a job without having to waste time re-scanning all of your pages. And, proofing is easier than ever with a powerful new text editor and pop-up Verification Window. Save time by quickly recognizing documents instead of recreating them. With OmniPage 5.0, it's fast, reliable, and affordable!

**Requires:**
- Any Mac II family, SE/30, Quadra, or Power Macintosh
- 8MB free disk space 8MB of RAM minimum
- System 7 or higher

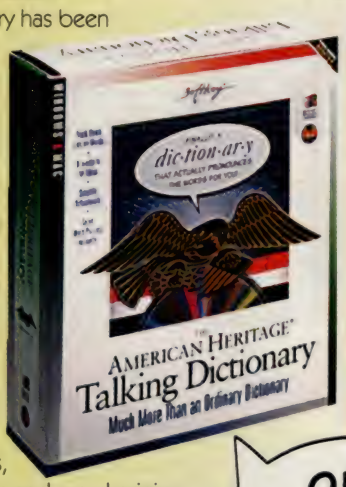
# Q What do E-mail and pixels have in common?
# A They're probably NOT in your last dictionary.

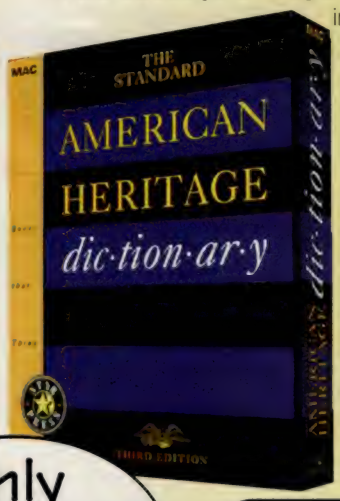
## Bring your Mac into the 90's with the American Heritage Dictionary, Third Standard Edition.

You've never seen a dictionary like this before! More than just definitions, more than a spell checker, The American Heritage Dictionary is the ultimate reference tool for your Mac. It helps you track down elusive words, find information, brainstorm for ideas, and enhance your writing. The American Heritage Talking Dictionary provides all the same great features...plus audio pronunciation!

### New words for a new decade.

The American Heritage Dictionary has been completely revised and updated to keep pace with today's colorful and ever-changing language. For the first time, **you'll find words like: *ergonomics... perestroika... e-mail... pixel... CD-ROM... and thousands more. Plus, you get new meanings for old words like rap (a type of music) and boot (to load a software program).*** It includes over 160,000 words with: definitions, parts of speech, proper usage, hyphenation, idioms, inflections, abbreviations, sample sentences and word origins.





### Find the perfect word.

When the word you want is on the tip of your tongue but you can't recall it, the WordHunter feature will find it fast. Simply give it a "hint" and it instantly scans the dictionary and presents the choices. Great for idea stimulation and vocabulary enhancement.

### A puzzle-lover's best friend.

If you love crossword puzzles, you'll love Wildcard. It finds words when you don't know all the letters. For example, type br??k and Wildcard gives you break, brick, brisk, brook, and brusk. You also get an Anagram feature that finds words hidden inside other words. Type slate and get least, stale, steal, tales, and teals.

Talking version now available on CD-ROM!

### Add sparkle to your writing.

The American Heritage Dictionary also includes the **Roget's II Electronic Thesaurus with over 500,000 synonyms.** A helpful tool for composing poetry. With it, you'll always have a variety of words to keep your writing fresh and vivid.

**Standard edition Requirements:** 1MB RAM for System 6 (2MB RAM for System 7); 500K available hard disk space (15MB if dictionary is to reside on hard disk); System 6.02 or later.

**Talking version Requirements:** Runs on both Mac and Windows. Same system requirements as standard edition. Also requires CD-ROM drive.

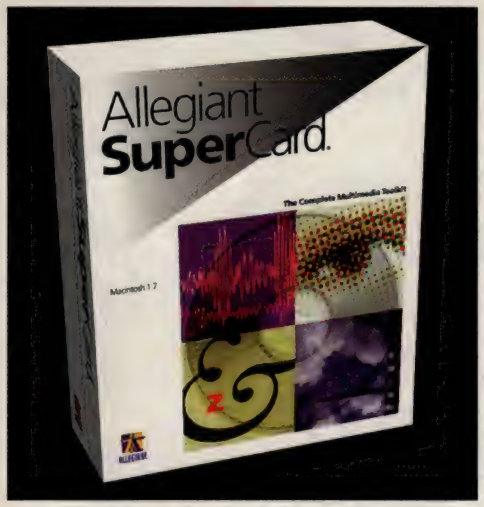
# New SuperCard 1.7

**Use The Versatile New SuperCard 1.7 For:** ✔ Computer-Based Training Projects ✔ Multimedia Presentations ✔ Educational Research Projects ✔ CD-ROM Authoring ✔ Application Development & Prototyping ✔ Electronic catalogs & Kiosks ✔ Front-ends to Client-Server Databases ✔ and many other interactive, graphical information solutions!



**Don't just join the multimedia bandwagon.**

**DRIVE IT!**

## Presenting the ultimate multimedia authoring tool!

With SuperCard 1.7, you can now develop multimedia applications that involve users with an unparalleled level of interactivity. It's the only authoring tool that gives you direct script control over bitmapped and draw graphics. And SuperCard 1.7's new language features make scripting more powerful than ever. You'll be able to create animations and simulations that are difficult — or even impossible — with other authoring tools.

## Easily create and distribute your applications.

SuperCard's object-oriented interface dramatically speeds application development and eliminates the cumbersome techniques used by other authoring tools. Use SuperCard's editor, SuperEdit, to create your applications, then view them and make corrections on-the-fly in the run time mode. And best of all, using the "Build Standalone" command, you can distribute standalone applications that don't require SuperCard to run.

## Do more than ever before!

New SuperCard 1.7 now features integrated sound playback and recording, and full QuickTime® support. Plus, SuperCard 1.7 continues to provide full color support that's just as intuitive and simple as your favorite paint program.

## Information Management

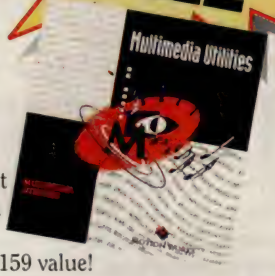
*A.D.A.M. Software's interactive anatomy was "Best of Show" in NewMedia magazine's 1993 Invision Awards. Created in SuperCard.*

## Interactive Education

*U.S. Coast Guard Helicopter Computer-based Training Application includes exercises and sample exams. Created in SuperCard.*

## Multimedia Presentations

*The Royal Ontario Museum's Birdsong kiosk, created by Mackerel, won first place in 1993 from the American Association of Museums for audio/visual displays. Created in SuperCard.*



Order SuperCard now and get Multimedia Utilities FREE—a $159 value! Multimedia Utilities contains a powerful suite of 6 production tools—MotionPaint, CameraMan, QuickMorph, QuickEdit, SoundMate, and MovieClick—to enhance any multimedia authoring or presentation package. For more on multimedia utilities, see the multimedia section of the catalog.

## HyperCard users!

Import your stacks into SuperCard to take advantage of features such as built-in color capabilities, truly interactive bitmaps and draw objects, and full Macintosh interface support!

## Director users!

Use SuperCard to play back all your animations and easily add sophisticated interactivity with multimedia buttons, multiple windows, hypertext, and more!

## New SuperCard 1.7 features:

√ **NEW!** Sound Capabilities — Includes sound pre-loading, sound recording, and speech synthesis.
√ **NEW!** QuickTime Support — Record and playback QuickTime movies.
√ **NEW!** Animation — Includes "filmstrips" high-speed animation playback.
√ **NEW!** Dialog Engine — Capable of performing just about any dialog-related task.
√ **NEW!** Hypertext — SuperTalk language now supports hypertext capabilities.
√ **And much more!**

# Set up a flexible Ethernet Network with Farallon® EtherWave!

### EtherWave is 10Base-T Ethernet with a twist!

It's the award-winning daisy-chainable solution for connecting Macs, printers, and portables to 10Base-T Ethernet. Flexible and hassle-free, where you need them– without worrying about adding hub ports or pulling more wire. You can add new flexibility to your structured wiring! With Etherwave, you can connect several devices to one Ethernet port, or create a small network without a hub. And it's compatible with every device you need to network and all the leading network operating systems.

- ✓ *Connect up to 7 devices to each hub port*
- ✓ *Make sure your users will never have to wait to add devices*
- ✓ *Daisy-chain a PowerBook or printer and desktop computer in your office*
- ✓ *Set up a small network in a branch or small office, with or without a hub*

### Affordable new Ether 10-T Starlet hubs!

**The Ether 10-T Starlet** is the easiest, most affordable hub for building a small network or expanding an existing Ethernet network. Available with 4, 8, or 16 RJ45 ports, the Ether10-T Starlet is a platform-independent 10Base-T Ethernet hub that uses plug-and-play technology to connect Ethernet devices in a reliable star network. And network management is easy with at-a glance' diagnostic LEDs. Combine with 100% 10Base-T compatible Etherwave to create a network of up to 128 devices.

# Label, Address, and Bar Code Anything with the LabelWriter XL!

The LabelWriter XL and XL Plus make it easy to print a single label or an entire mailing list from your Macintosh. You don't even have to exit what you're working on. Simply pop up the software and you can print labels in just a few seconds.

**These Small Printers Fit In Anywhere.**

- Advanced thermal print technology is fast and whisper quiet. You get laser quality printing. No toner or ribbons to replace.
- Printers connect to your modem or printer port and don't interfere with your main printer. A-B Switch Box and AppleTalk Interface are both available.
- Simple and powerful software lets you mix fonts, graphics, and bar codes all on the same label. Use all of your favorite fonts.
- AutoFit feature picks the right font size for every label. Built-in print spooler for list printing.
- Prints PostNet bar codes for any zip code.
- Print lists from built-in Address Books or direct from other programs.
- Supports Quickdraw GX and PowerPC.

# Learn to Play Piano in Just 30 Days with The Miracle Piano Teaching System!

**Only $179.95! while supplies last**

**OUR LOWEST PRICE EVER!**

**As Seen On TV!**

**These kids did.** That's right. 30 kids from the Cinnabar School in Petaluma, California were given The Miracle Piano Teaching System and told they would give a concert in 30 days. Most had never even touched a piano before, yet on that October evening, parents watched in astonishment as their non-musical youngsters enchanted the audience with renditions of Brahms and Beethoven. You and your kids can do it, too! Simply hook The Miracle Piano Teaching System up to your Macintosh, and it teaches you or your child to play like a pro.

**Learn to play piano by playing fun, interactive games.**

20 different interactive games and activities teach you (or your kids) all about notes, fingering, rhythm, timing, and reading music as you hunt ducks, fly alien spacecraft and manipulate robots. The graphics are great and the games are so much fun they actually encourage you to "stick with it." By the end of your first lesson, you won't just be playing, you'll be playing along with the built-in Miracle Toolworks Orchestra!

**Includes 80 Pop, Rock, Motown and Show Tunes—FREE!**

So you can quickly unleash your new piano-playing skills, we also sell separately two song collections (retail value: $49.95 each) specially designed for use with your Miracle keyboard. Learn and play them at your own pace with professional computerized "musicians" backing you up.

**The Miracle Piano Teaching System Bundle includes:** software, stereo headphones, and a keyboard (that rivals piano keyboards that cost twice as much!) with full-sized, velocity-sensitive keys, sustain pedal, and output jack to connect to your stereo system.

If those kids from Petaluma can learn to play piano in just 30 days, so can you and your kids! Order yours today!

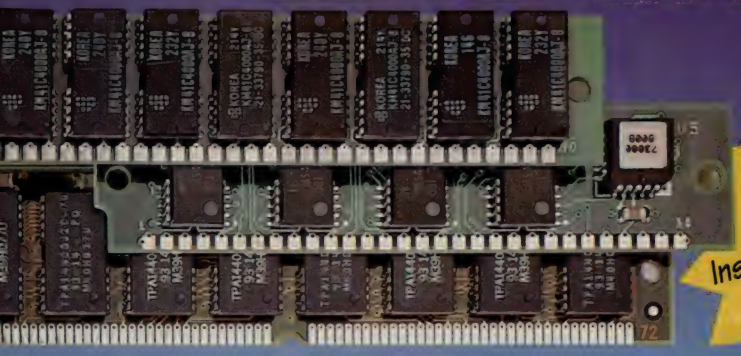
POWER MAC COMPATIBLE!

# When the program calls for more memory... Call for SIMMs!



FREE Installation manual with every order!

Aldus Freehand...Adobe Photoshop..System 7.5...QuarkXPress... Microsoft Word...Microsoft Excel. Applications like these are powerful, but they can eat up memory, especially when you're running more than one at a time.

So don't lose out on the power of today's programs. Just add the power of SIMMs memory upgrade kits to your existing memory, and you're off and running in no time. They're easy to install — we'll even include a FREE installation manual! And these SIMMs are System 7.5 compatible.

**HOW MUCH MEMORY DO YOU NEED?**

MacWAREHOUSE always gives you the right memory at the right price. Decide what programs you want to run and how much memory they need to run efficiently (for instance, some powerful publishing programs say they'll run on 4MB, but they're better with 8). Then decide how much memory you realistically need to add.

Or, to make it even easier — just call us at 1-800-659-0222. Tell us what Mac you've got and what applications you have in mind, and we'll tell you what SIMMs you need and how little they'll cost you!

**SPEED UP YOUR MAC'S PERFORMANCE!**

Your work will go even faster when you're managing information or databases, running OCR and scanner programs, processing multimedia operations, or running several powerful programs at once. Forget waiting, forget the "out of memory" messages. Start taking full advantage of your Mac's capabilities with a SIMMs memory upgrade kit!

# Get the POWER of PowerPC with an Apple Power Macintosh Upgrade Card!

When you see this symbol, it means this software takes full advantage of PowerPC speed in a new Power Macintosh, or an older Macintosh that has been upgraded by means of a PowerPC Upgrade board, such as those offered by Apple and DayStar.

Accelerated for Power Macintosh

ALL software in this catalog, unless specified for Power Macintosh ONLY, will continue to run on your regular, 680X0 Mac as well. If you have any questions, please ask your telemarketer when you place your order. "Accelerated for Power Macintosh" software featured in this catalog include the following:

Abobe Premiere 4.0 ..... 14-15,79
Adobe Illustrator 5.5 ..... 30,67
Adobe Photoshop 3.0 ..... 07,14-15,63
Aldus PageMaker 5.0 ..... 46-47,59
Alias Sketch! ..... 66
Avid VideoShop 3.0 ..... 80
ClarisImpact ..... 93,194
ClarisWorks 2.1 ..... 54,96
Conflict Catcher 2.1 ..... 165
cyperPAD ..... 166
Dabbler 1.0 ..... 68
Design Essentials ..... 173
Design Workshop ..... 70
FileMaker Pro Server ..... 24-25,88
FrameMaker 4.0 ..... 60
Logomotion ..... 64,79,80
MacroModel ..... 69
MacTools Pro 4.0 ..... 42,165
Microsoft Excel 5.0 ..... 08,10-11,28,94
Now Contact 1.1 ..... 93
OmniPage 5.0 ..... 130,229
OmniPage Professional 5.0 ..... 130,229
Pathways Into Darkness ..... 184
Ram Doubler 1.5 ..... 08,37,106
Ray Dream Designer 3.0 ..... 67,195
Retrospect Remote 2.1 ..... 167
Strata Studio Pro ..... 79,199
WordPerfect 3.1 ..... 95

PowerPC™ Owners of a Quadra 610, 650, 700, 800, 900 or 950; or a Centris 610 or 650 can now easily upgrade to PowerPC performance by simply adding an Apple Power Macintosh Upgrade Card to their Mac. Plus, you can continue to run all your current Mac applications, as well as take advantage of new "Accelerated for Power Macintosh" applications that run much faster. This Processor Direct Slot card upgrade includes the NEW PowerPC 601 microprocessor with FPU and a 32K cache. Installation is simply plug-and-play.

**Apple Power Macintosh Upgrade Card**
**Ask for item# DRI 0961**
MacWAREHOUSE Low Price ..... Only $599

**Apple PowerBooks as low as $1299! See page 2B.**

## MacWAREHOUSE 30-DAY MONEY BACK GUARANTEE

Many of our products come with a 30-Day Money Back Guarantee. If, for any reason, you are not completely satisfied with your purchase of these items, call our Customer Service Department for a Return Authorization Number and a full refund of the original purchase price of the item, excluding the shipping and handling charge. You must return the product at your expense, including all its packaging and documentation, and the blank warranty card if applicable. In addition, every item we sell comes with the MacWAREHOUSE 120-Day Guarantee. If your product is defective in any way, all you have to do is call Customer Service for a Return Authorization Number. Defective software will be replaced upon receipt of the damaged product. Defective hardware will be replaced or repaired at our discretion.

30 DAY MBG

## ❼ IMPORTANT!

A majority of the Mac products we carry are System 7 compatible. If you have any questions regarding compatibility, please ask when ordering.

# Targus PowerBook Cases

**Targus cases are the choice of portable computer users around the world. Sold in over 80 countries, each case is covered by a Lifetime Replacement Warranty. Stylish classic designs, plus extraordinary attention to detail, construction and functionality make Targus the perfect choice for PowerBook users.**

NEW!

TARGUS
A TRADITION OF EXCELLENCE

## NEW! Targus Fabric Premier PowerBook Case

The Targus Fabric Premier Case establishes a new standard of quality for business related luggage. This dual purpose case combines a stylish, feature rich fabric briefcase together with a functional laptop carrying case. The Fabric Premier Case offers four fully-lined document sections in addition to a padded computer compartment. The zippered portfolio section features self-closing disk pockets, a snap-on key ring, and a pouch for your glasses. Outer shell is made of 1200 Denier nylon. The traditional styling says Premier, the quality says Targus. Interior compartment dimensions are 17" x 13" x 2.5".

**Black: AC 18704**
**Navy: AC 18703**
**Hunter Green: AC 18702** ..... **Only $99 ea.**

### For the same stylish bag with smaller dimensions, there's the Fabric Premier NoteBook

(Interior compartments: 14.5" x 12" x 2.5".)
**Black: AC 18701**
**Navy: AC 18700**
**Hunter Green: AC 18699** ..... **$89 ea.**

The same stylish bag is also available in LEATHER!

## Targus Premier Deluxe Leather PowerBook Case

Padded 17" x 4" x 13" (interior) computer compartment with divider.
**ACC 0482**
*Suggested Retail: ~~$299.95~~* ..... **$159**

## Targus Premier Leather PowerBook Case

14" x 2.5" x 12" interior dimensions.
**ACC 0734**
*Suggested Retail: ~~$199~~* ..... **$139**

**All leather! Only $99!**

## Targus Leather PowerBook Case

The look, luxury and protection of real leather at a remarkable price. Made of full grain cowhide with turned edges. The PowerBook section is 15" x 11" x 2.5" with padded adjustable divider to accommodate accessories. Adjacent workstation with document pouch, holders and pockets for pens, cards, disks, and more. Separate zippered three-section accordion file compartment. The 13" x 9" x 2" external pocket holds accessories. Detachable shoulder strap, steel fittings, nylon zippers, and rubber feet to absorb shock. An outstanding value for an all-leather case!

**ACC 0965(Black)**
**AC 18262(Burgundy)**
**AC 18263(Tan)** ..... **$99 ea.**

## The Targus Prestige Leather Case

Made with the highest quality vegetable-tanned leather that wears beautifully, the Prestige Case has two padded and lined sections that measure 15" x 11" x 2" to accommodate a PowerBook computer, personal printer, folders, power supplies, cables, and accessories. A full-length exterior pocket provides easy access to work papers, or plane tickets. The Prestige Case combines great appearance with functional features, including: •Disk pockets •Pen and business card holders •Reinforced heavy-duty leather handle •Detachable shoulder strap with steel fittings.

**ACC 1344 (Black)**
**ACC 1345 (Tan)**
**ACC 1346 (Burgundy)**
*Suggested Retail: ~~$349~~*
**$229 ea.**

"A" Grade Leather!
**$229 ea.**

# For As Little As $39!

## Targus Convertible Backpac

The Targus Convertible Backpac is specifically designed to carry a PowerBook computer and related accessories in addition to books, work papers and files. The hide-away padded pack straps convert the case from a full-featured PowerBook carrying case to a functional backpack. The padded computer section measures 13"x15"x2.5" and will hold all popular PowerBooks. The separate three-section book/file compartment measures 13"x15"x 2.5" and can also be used to carry a portable printer. Other features include a 11.5"x 9.5"x 2" exterior pocket, storage for up to nine 3.5" diskettes, pen/pencil and business card holders. The Convertible Backpac is available in four colors: Black, Burgundy, Hunter Green, and Navy.

**AC 18425** (Black) **AC 18426** (Burgundy)
**AC 18427** (Hunter Green) **AC 18428** (Navy)

*Suggested Retail: ~~$99~~* ..... **$69 ea.**

Only $69

Padded 18" x 12" x 2.5" computer/printer compartment features an adjustable divider and restraining straps.

Convenient Carry-On Size!

Zip-down workstation includes pockets for disks and pens, a cellular phone, and electronic organizer.

18"x 12" x 3" fully lined luggage section has see-through mesh accessory pouches and elastic restraining strap.

## Targus Business Traveler

Only $199

The Targus Business Traveler is the ultimate case for the traveling executive. This luxurious full-grain leather case provides four spacious sections: a zip-down workstation, padded PowerBook and printer compartment, padded luggage section, and an accordion file section. It's ideal for short trips in which you need your PowerBook, printer, accessories, cellular phone, documents, and a change of clothes. It's even designed to fit under an airline seat for easy traveling!

**ACC 0736**
*Suggested Retail: ~~$300~~* ..... **$199**

## Targus Business Commuter

Same great features, in durable nylon.

**ACC 1306**
*Suggested Retail: ~~$199~~* ..... **$119**

Only $69

## Targus Universal PowerBook Case

The look of leather, but made with a new stylish durable material. Two 11" x 13" x 2.5" compartments with extra foam padding and Velcro straps for added computer/component protection. Accessories compartment has adjustable Velcro dividers to accommodate power supplies, AC adapters, external drives, printers, etc. Two external pockets hold standard file folders. Computer compartment has adjacent workstation with holders and pockets for disks, pens, business cards. Result? First class appearance at an economy price.

**ACC 0675**
*Suggested Retail: ~~$119~~* ..... **$69**

Only $39

## Targus PowerPac

Great looks at an incredible price! The PowerPac case features a padded 14" x 11" x 2.5" PowerBook section with dividers to separate computer from accessories. Workstation area has pockets for disks, pens, business cards, and documents. External gusseted pocket measures 13" x 9" x 2." Durable nylon construction, detachable cushioned shoulder strap, nylon zippers, and shock absorbing rubber feet. Choose from 5 stylish colors.

**ACC 1185:** Blue **ACC 1186:** Purple
**ACC 1187:** Teal **ACC 1188:** Platinum
**ACC 0971:** Black

*Suggested Retail: ~~$69~~* ..... **$39 ea.**

## How to Order by Phone – 1-800-255-6227

Please have your order information ready: the item name and number of the products you want to order, and your credit card number with card expiration date. It helps to fill out the order form even if you're ordering by phone. Call our toll-free number 24 hours a day, 7 days a week.

**How to Order by FAX – 1-908-905-9279**
Many of our customers find the fax a convenient way to order. You may find the enclosed order form helpful in preparing your fax order.

**How to Order by Mail**
If you would rather order by mail paying by check, money order or credit card we've supplied a prepaid envelope for your use. C.O.D. charges are $6.00 (includes shipping) and are shipped UPS Ground or UPS Blue Label if you are more than two days delivery from us. Payment for C.O.D. orders must be made in cash, cashiers check or money order.

**Overnight Delivery - Only $3.00!**
Our shipping charge is $3.00 for each order. We ship Airborne Express overnight unless UPS ground delivers overnight. (Some areas require an extra day.) Please inquire about delivery to Alaska, Hawaii, foreign APO-FPO when placing orders. Item availability and price subject to change without notification.

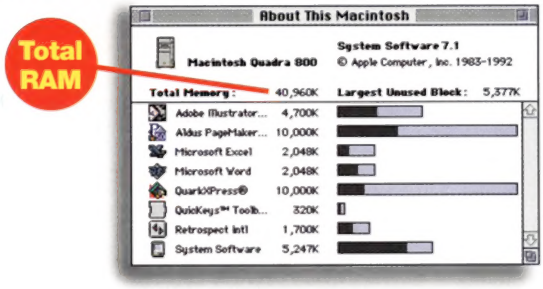
## More SIMMs = More RAM!

Next to buying a new Mac, installing additional (or larger) SIMMs in your current Mac is the single best investment you can make! The very first time you run with more RAM, you'll be able to…

- *Open and use MORE applications at the same time!*
- *Use MORE of your applications' advanced features!*
- *Find MORE ways to get jobs done faster and better!*

## How much RAM do I have now?



Simply look under the Apple menu in the Finder and select *About This Macintosh*. . . You will see your Mac type, System software version, *Total Memory* or RAM, *Unused RAM*, and how much memory each open application and your System software has reserved.

**To order, call the SIMMs HOTLINE at**

**1-800-659-0222**

| Type/Size | Speed | Order Item# ..... Price Ea. |
|---|---|---|
| **30-pin standard SIMMs** for Plus/SE/SE30, Classic (2MB model)/ Classic II/Color Classic, LC/LCII, II/IIx/IIcx/IIci/IIsi/IIvx/IIvi, Performa 200/ 400/405/410/430/600, Quadra 700/900/950, Workgroup Server 95 | | |
| 1 MB | 120 ns | CHP 0012 ..... $49.95 |
| 1 MB | 100 ns | CHP 0013 ..... $54.95 |
| 1 MB | 80 ns | CHP 0022 ..... $59.95 |
| 1 MB | 70 ns | CHP 0008 ..... $69.95 |
| 2 MB | 80 ns | CHP 0042 ..... $119 |
| 4 MB | 80 ns | CHP 0011 ..... $179 |
| 8 MB | 80 ns | CHP 0080 ..... $399 |
| 16 MB | 80 ns | CHP 0078 ..... $699 |
| **4MB PAL SIMMs** for II, IIx | | |
| 4 MB PAL | 80 ns | CHP 0071 ..... $199 |
| **64-pin SIMMs** for IIfx | | |
| 1 MB | 80 ns | CHP 0069 ..... $75 |
| 4 MB | 80 ns | CHP 0070 ..... $199 |
| 16 MB | 80 ns | CHP 0055 ..... $699 |
| **72-pin SIMMs** for Quadra 800/840AV/660AV, Workgroup Server 80 | | |
| 4 MB | 60 ns | CHP 0105 ..... $199 |
| 8 MB | 60 ns | CHP 0106 ..... $399 |
| 16 MB | 60 ns | CHP 0107 ..... $599 |
| 32 MB | 60 ns | CHP 0108 ..... $1,199 |
| **72-pin SIMMs** for Performa 450/460/466/467/475/476/550/630/635/ 636/638, LCIII, LC 475/520/550/630, Centris 610/650, Quadra 605/610/ 630/650, Power Macintosh 6100/7100/8100, Workgroup Server 60 | | |
| 4 MB | 80 ns | CHP 0101 ..... $179 |
| 8 MB | 80 ns | CHP 0102 ..... $349 |
| **72-pin SIMMs** for LC III, 520, 550, Performa 450, 460, 466, 467, 550, 560 | | |
| 16 MB | 80 ns | CHP 0129 ..... $679 |
| 32 MB | 80 ns | CHP 0130 ..... $1299 |
| **72-pin SIMMs** for LC 475, 630, Performa 475, 476, 630, 635, 638, Centris 610, 650, Quadra 605, 610, 630, 650, Power Macintosh 6100, 7100, 8100, Workgroup Server 60 | | |
| 16 MB | 80 ns | CHP 0103 ..... $599 |
| 32 MB | 80 ns | CHP 0104 ..... $1199 |
| **Upgrade Kits** for Mac Classic (1MB model) | | |
| 1 MB Upgrade Kit | 100 ns | CHP 0050 ..... $95 |
| 3 MB Upgrade Kit | 100 ns | CHP 0051 ..... $199 |
| **Memory Modules** for PowerBook 100/140/145/170 | | |
| 2 MB | 100 ns | CHP 0066 ..... $99 |
| 4 MB | 100 ns | CHP 0067 ..... $199 |
| 4 MB (100) | 100 ns | CHP 0062 ..... $199 |
| 6 MB | 100 ns | CHP 0068 ..... $299 |
| 6 MB (100) | 100 ns | CHP 0063 ..... $299 |
| **Memory Modules** for PowerBook 160/165/180 | | |
| 2 MB | 85 ns | CHP 0094 ..... $129 |
| 4 MB | 85 ns | CHP 0095 ..... $179 |
| 6 MB | 85 ns | CHP 0096 ..... $329 |

| Type/Size | Speed | Order Item# ..... Price Ea. |
|---|---|---|
| **Memory Modules** for PowerBook 160/165/180 | | |
| 8 MB | 85 ns | CHP 0097 ..... $399 |
| 10 MB | 85 ns | CHP 0098 ..... $499 |
| **Memory Modules** for PowerBook 165c/180c | | |
| 4 MB | 85 ns | CHP 0109 ..... $259 |
| 8 MB | 85 ns | CHP 0111 ..... $429 |
| 10 MB | 85 ns | CHP 0112 ..... $549 |
| **Memory Modules** for PowerBook Duo 210/230/250/270c/280/ 280c | | *270c/280/280c only |
| 4 MB | 70 ns | CHP 0099 ..... $229 |
| 8 MB | 70 ns | CHP 0100 ..... $399 |
| 14 MB | 70 ns | CHP 0115 ..... $699 |
| 20 MB | 70 ns | CHP 0116 ..... $999 |
| 28 MB* | 70 ns | CHP 0118 ..... $1,699 |
| **Memory Modules** for PowerBook 500 Series | | |
| 4 MB | 70 ns | CHP 0119 ..... $279 |
| 8 MB | 70 ns | CHP 0120 ..... $399 |
| 16 MB | 70 ns | CHP 0121 ..... $799 |
| 32 MB | 70 ns | CHP 0122 ..... $1,599 |
| **ToolKits** | | |
| For Plus, SE, SE/30, Classic | | ACC 0431 ..... $9 |
| For PowerBooks | | ACC 1535 ..... $4.95 |

*1) Mac II requires FDHD Upgrade to use 4MB SIMMs and have a PMMU installed.*
*2) Mac II will only start up with 4MB SIMMs placed in Bank B.*
*3) PowerBook 180 and 165c can use 85ns or 100ns pseudostatic RAM. Use of 100ns will result in a decrease in performance of 5-10%. We suggest 85ns only.*
*4) Centris/Quadra 650 and Quadra 800 use "Memory Interleaving" when SIMMs are paired (ie. Two-8MB SIMMs). This will improve performance 5-10%.*
*5) Centris/Quadra 610 has two SIMMs slots. Centris/Quadra 650 has four SIMMs slots.*
*6) We recommend having an Apple authorized repair center install SIMMs in the Mac Plus, SE, SE/30, Classic, Classic II, Color Classic, Performa 200, and all PowerBook models.*
*7) To install SIMMs in the Mac Plus, SE, Classics and PowerBooks, you may need a special tool kit. These are available to you from MacWAREHOUSE at minimal cost.*

## 30-DAY MONEY BACK GUARANTEE

MACWAREHOUSE MEMORY UPGRADES ARE SUPPLIED BY TOP MANUFACTURERS, AND ARE TESTED FOR PERFORMANCE AND QUALITY IN TEMPERATURES FROM FREEZING TO 158° F. PLUS, EVERY MEMORY UPGRADE COMES WITH A 30-DAY MONEY BACK GUARANTEE. IF, FOR ANY REASON YOU'RE NOT DELIGHTED, JUST CALL US FOR A RETURN AUTHORIZATION NUMBER AND RETURN THE PRODUCTS WITH THE ORIGINAL PACKAGING AND DOCUMENTATION FOR A FULL REFUND (EXCLUDING SHIPPING). THESE MEMORY UPGRADES ARE GUARANTEED FOR TWO FULL YEARS AGAINST MANUFACTURER'S DEFECTS.

**To order, call the SIMMs HOTLINE: 1-800-659-0222.**

# SIMMs/Memory Upgra

## How Do I Get More RAM?

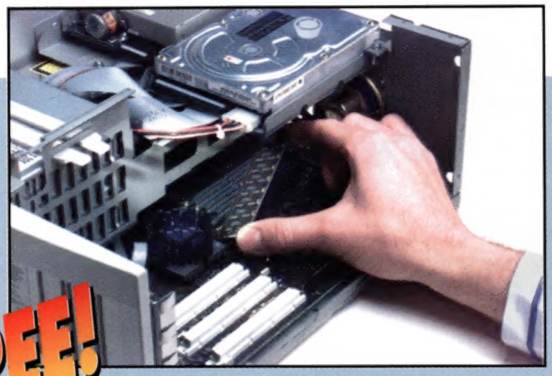
This chart of popular RAM configurations makes it easy for you to select the SIMMs you need to make your Mac more powerful.

**1.** Locate your Mac model in the first column. The number in parentheses is the original level of RAM your Mac probably came with. Check the *About this Macintosh...* window under the Apple menu in the Finder to see your exact level of RAM. *(See previous page for details.)*

**2.** Now look to the second column to choose one of the suggested RAM upgrades. *(For example, a Mac Plus can be upgraded from the original 1MB RAM to either 2.5MB or 4MB of RAM.)*

**3.** The third and fourth columns list the quantity, type and exact item numbers of the SIMMs/Memory Modules you will need to order.

***Need help?* Call the SIMMs HOTLINE at**
**1-800-659-0222.**
**We'll help you select and order the right RAM upgrade for your Mac.**



**Every Memory Upgrade comes complete with detailed, step-by-step installation instructions.**

Every Power User Memory Upgrade includes a FREE step-by-step installation manual. Our experts will guide you through every step of the installation process. We also include a helpful 30-pin SIMMs Remover FREE (ask for item# AAA 0042) with the purchase of two or more 30-pin SIMMs.

## Plus/SE Series

| | To Upgrade Your RAM To: | You Need To Order: (Quantity)(Min. Speed) | (Quantity) & Item# To Order: |
|---|---|---|---|
| Plus (1MB) | 2.5 MB | (2) 1 MB SIMMs (120ns) | (2) CHP 0012 |
| | 4 MB | (4) 1 MB SIMMs (120ns) | (4) CHP 0012 |
| SE (1MB) | 2.5 MB | (2) 1 MB SIMMs (120ns) | (2) CHP 0012 |
| | 4 MB | (4) 1 MB SIMMs (120ns) | (4) CHP 0012 |
